**EUROPEAN UNION AND CERTAIN MEMBER STATES – CERTAIN MEASURES
CONCERNING PALM OIL AND OIL PALM CROP-BASED BIOFUELS**

**STATUS REPORT REGARDING IMPLEMENTATION OF
THE DSB RECOMMENDATIONS AND RULINGS
BY THE EUROPEAN UNION**

Addendum

The following communication, dated 13 July 2026, from the delegation of the European Union to the Chairperson of the Dispute Settlement Body, is circulated pursuant to Article 21.6 of the DSU.

The European Union submits this report in accordance with Article 21.6 of the Understanding on Rules and Procedures Governing the Settlement of Disputes ("DSU").

The European Union refers to the status reports previously submitted in this dispute.

As indicated in the status report WT/DS600/12/Add.8, on 10 April 2026, the European Commission adopted amendments to Commission Delegated Regulation (EU) 2019/807 of 13 March 2019 supplementing Directive (EU) 2018/2001 of the European Parliament and of the Council as regards the determination of high indirect land-use change-risk feedstock for which a significant expansion of the production area into land with high-carbon stock is observed and the certification of low indirect land-use change-risk biofuels, bioliquids and biomass fuels (OJ 2019 L 133, p. 1).

On 8 July 2026, the European Parliament exercised its right under the applicable legislative procedure to object to the Delegated Regulation. As a result, the aforementioned Delegated Regulation, as adopted by the European Commission, has not entered into force.

The European Union is carefully assessing the implications of this development and is considering the appropriate way forward.

In that context, the European Union remains ready to engage with Malaysia on the next steps.
