Except as otherwise provided, this Chapter applies to trade in goods of a Party.

#### Section A: National Treatment

##### Article 3.2: National Treatment

Each Party shall accord national treatment to the goods of another Party in accordance with Article III of the GATT 1994, including its interpretive notes, and to this end Article III of the GATT 1994 and its interpretative notes are incorporated into and made part of this Agreement, *mutatis mutandis*.

2. The provisions of paragraph 1 regarding national treatment shall mean, with respect to a regional level of government, treatment no less favorable than the most favorable treatment that regional level of government accords to any like, directly competitive, or substitutable goods, as the case may be, of the Party of which it forms a part.

3. Paragraphs 1 and 2 shall not apply to the measures set out in Annex 3.2.

#### Section B: Tariff Elimination

##### Article 3.3: Tariff Elimination

1. Except as otherwise provided in this Agreement, no Party may increase any existing customs duty, or adopt any new customs duty, on an originating good.

2. Except as otherwise provided in this Agreement, each Party shall progressively eliminate its customs duties on originating goods, in accordance with Annex 3.3. (For greater certainty, except as otherwise provided in this Agreement, each Central American Party and the Dominican Republic shall provide that any originating good is entitled to the tariff treatment for the good set out in its Schedule to Annex 3.3, regardless of whether the good is imported into its territory from the territory of the United States or any other Party. An originating good may include a good produced in a Central American Party or the Dominican Republic with materials from the United States).

3. For greater certainty, paragraph 2 shall not prevent a Central American Party from providing identical or more favorable tariff treatment to a good as provided for under the legal instruments of Central American integration, provided that the good meets the rules of origin under those instruments.

4. On the request of any Party, the Parties shall consult to consider accelerating the elimination of customs duties set out in their Schedules to Annex 3.3. Notwithstanding Article 19.1.3(b) (The Free Trade Commission), an agreement between two or more Parties to accelerate the elimination of a customs duty on a good shall supercede any duty rate or staging category determined pursuant to their Schedules to Annex 3.3 for such good when approved by each such Party in accordance with its applicable legal procedures. Promptly after two or more Parties conclude an agreement under this paragraph they shall notify the other Parties of the terms of that agreement.

5. For greater certainty, a Party may:

(a) raise a customs duty back to the level established in its Schedule to Annex 3.3 following a unilateral reduction; or

## Section C: Special Regimes

### Article 3.4: Waiver of Customs Duties

  - (b) goods intended for display or demonstration;
  - (c) commercial samples and advertising films and recordings; and
  - (d) goods admitted for sports purposes.
2. Each Party shall, at the request of the person concerned and for reasons its customs authority considers valid, extend the time limit for temporary admission beyond the period initially fixed.
3. No Party may condition the duty-free temporary admission of a good referred to in paragraph 1, other than to require that such good:
  - (a) be used solely by or under the personal supervision of a national or resident of another Party in the exercise of the business activity, trade, profession, or sport of that person;
  - (b) not be sold or leased while in its territory;
  - (c) be accompanied by a security in an amount no greater than the charges that would otherwise be owed on entry or final importation, releasable on exportation of the good;
  - (d) be capable of identification when exported;
  - (e) be exported on the departure of the person referenced in subparagraph (a), or within such other period related to the purpose of the temporary admission as the Party may establish, or within one year, unless extended;
  - (f) be admitted in no greater quantity than is reasonable for its intended use; and
  - (g) be otherwise admissible into the Party's territory under its law.
4. If any condition that a Party imposes under paragraph 3 has not been fulfilled, the Party may apply the customs duty and any other charge that would normally be owed on the good plus any other charges or penalties provided for under its law.

5. Each Party, through its customs authority, shall adopt procedures providing for the expeditious release of goods admitted under this Article. To the extent possible, such procedures shall provide that when such a good accompanies a national or resident of another Party who is seeking temporary entry, the good shall be released simultaneously with the entry of that national or resident.

6. Each Party shall permit a good temporarily admitted under this Article to be exported through a customs port other than that through which it was admitted.

7. Each Party shall provide that its customs authority or other competent authority shall relieve the importer or other person responsible for a good admitted under this Article from any liability for failure to export the good on presentation of satisfactory proof to the importing Party's customs authority that the good has been destroyed within the original period fixed for temporary admission or any lawful extension.

8. Subject to Chapters Ten (Investment) and Eleven (Cross-Border Trade in Services):

(a) each Party shall allow a vehicle or container used in international traffic that enters its territory from the territory of another Party to exit its territory on any route that is reasonably related to the economic and prompt departure of such vehicle or container;

(c) no Party may condition the release of any obligation, including any bond, that it imposes in respect of the entry of a vehicle or container into its territory on its exit through any particular port of departure; and

(d) no Party may require that the vehicle or carrier bringing a container from the territory of another Party into its territory be the same vehicle or carrier that takes such container to the territory of another Party.

9. For purposes of paragraph 8, vehicle means a truck, a truck tractor, tractor, trailer unit or trailer, a locomotive, or a railway car or other railroad equipment.

1. No Party may apply a customs duty to a good, regardless of its origin, that re-enters its territory after that good has been temporarily exported from its territory to the territory of another Party for repair or alteration, regardless of whether such repair or alteration could be performed in the territory of the Party from which the good was exported for repair or alteration.

2. No Party may apply a customs duty to a good, regardless of its origin, admitted temporarily from the territory of another Party for repair or alteration.

3. For purposes of this Article, repair or alteration does not include an operation or process that:

(a) destroys a good's essential characteristics or creates a new or commercially different good; or

(b) transforms an unfinished good into a finished good.

#### Article 3.7: Duty-Free Entry of Commercial Samples of Negligible Value and Printed Advertising Materials

Each Party shall grant duty-free entry to commercial samples of negligible value and to printed advertising materials, imported from the territory of another Party, regardless of their origin, but may require that:

(a) such samples be imported solely for the solicitation of orders for goods, or services

provided from the territory, of another Party or a non-Party; or  
(b) such advertising materials be imported in packets that each contain no more than one copy of each such material and that neither such materials nor packets form part of a larger consignment.

#### Section D: Non-Tariff Measures

##### Article 3.8: Import and Export Restrictions

1. Except as otherwise provided in this Agreement, no Party may adopt or maintain any prohibition or restriction on the importation of any good of another Party or on the exportation or sale for export of any good destined for the territory of another Party, except in accordance with Article XI of the GATT 1994 and its interpretative notes, and to this end Article XI of the GATT 1994 and its interpretative notes are incorporated into and made a part of this Agreement, *mutatis mutandis* (for greater certainty, this paragraph applies, *inter alia*, to prohibitions or restrictions on the importation of remanufactured goods).

2. The Parties understand that the GATT 1994 rights and obligations incorporated by paragraph 1 prohibit, in any circumstances in which any other form of restriction is prohibited, a Party from adopting or maintaining:

- (a) export and import price requirements, except as permitted in enforcement of countervailing and antidumping duty orders and undertakings;
- (b) import licensing conditioned on the fulfillment of a performance requirement, except as provided in a Party's Schedule to Annex 3.3; or
- (c) voluntary export restraints inconsistent with Article VI of the GATT 1994, as implemented under Article 18 of the SCM Agreement and Article 8.1 of the AD Agreement.

3. In the event that a Party adopts or maintains a prohibition or restriction on the importation from or exportation to a non-Party of a good, nothing in this Agreement shall be construed to prevent the Party from:

- (a) limiting or prohibiting the importation from the territory of another Party of such good of that non-Party; or
- (b) requiring as a condition of export of such good of the Party to the territory of another Party, that the good not be re-exported to the non-Party, directly or indirectly, without being consumed in the territory of the other Party.

4. In the event that a Party adopts or maintains a prohibition or restriction on the importation of a good from a non-Party, the Parties, on the request of any Party, shall consult with a view to avoiding undue interference with or distortion of pricing, marketing, or distribution arrangements in another Party.

5. Paragraphs 1 through 4 shall not apply to the measures set out in Annex 3.2.

6. Neither a Central American Party nor the Dominican Republic may, as a condition for engaging in importation or for the import of a good, require a person of another Party to establish or maintain a contractual or other relationship with a dealer in its territory.

7. Neither a Central American Party nor the Dominican Republic may remedy a violation or alleged violation of any law, regulation, or other measure regulating or otherwise relating to the relationship between any dealer in its territory and any person of another Party, by prohibiting or restricting the importation of any good of another Party.

8. For purposes of this Article:

dealer means a person of a Party who is responsible for the distribution, agency, concession, or representation in the territory of that Party of goods of another Party;

and

remedy means to obtain redress or impose a penalty, including through a provisional, precautionary, or permanent measure.

1. No Party may adopt or maintain a measure that is inconsistent with the Import Licensing Agreement.
2. Promptly after entry into force of this Agreement, each Party shall notify the other Parties of any existing import licensing procedures, and thereafter shall notify the other Parties of any new import licensing procedure and any modification to its existing import licensing procedures, within 60 days before it takes effect. A notification provided under this Article shall:

Each Party shall ensure, in accordance with Article VIII:1 of the GATT 1994 and its interpretive notes, that all fees and charges of whatever character (other than customs duties, charges equivalent to an internal tax or other internal charge applied consistently with Article III:2 of the GATT 1994, and antidumping and countervailing duties) imposed on or in connection with importation or exportation are limited in amount to the approximate cost of services rendered and do not represent an indirect protection to domestic products or a taxation of imports or exports for fiscal purposes.
2. No Party may require consular transactions, including related fees and charges, in connection with the importation of any good of another Party.
3. Each Party shall make available and maintain through the Internet a current list of the fees and charges it imposes in connection with importation or exportation.

3. Where an exporting Party considers that a non-Party is exporting an agricultural good to the territory of another Party with the benefit of export subsidies, the importing Party shall, on written request of the exporting Party, consult with the exporting Party with view to agreeing on specific measures that the importing Party may adopt to counter the effect of such subsidized imports. If the importing Party adopts the agreed-on measures, the exporting Party shall refrain from applying any subsidy to its exports of the good to the territory of the importing Party. If the importing Party does not adopt the agreed-on measures, the exporting Party may apply an export subsidy on its exports of the good to the territory of the importing Party only to the extent necessary to counter the trade-distorting effect of subsidized exports of the good from the non Party

to the importing Party's territory.

1. Notwithstanding Article 3.3, each Party may apply a measure in the form of an additional import duty on an agricultural good listed in that Party's Schedule to Annex 3.15, provided that the conditions in paragraphs 2 through 7 are met. 3. The additional duty under paragraph 1 shall be set according to each Party's Schedule to Annex 3.15.
4. No Party may apply an agricultural safeguard measure and at the same time apply or maintain:
  - (a) a safeguard measure under Chapter Eight (Trade Remedies); or
  - (b) a measure under Article XIX of the GATT 1994 and the Safeguards Agreement; with respect to the same good.
5. No Party may apply or maintain an agricultural safeguard measure:

6. Each Party shall implement an agricultural safeguard measure in a transparent manner. Within 60 days after applying a measure, a Party shall notify any Party whose good is subject to the measure, in writing, and shall provide it relevant data concerning the measure. On request, the Party applying the measure shall consult with any Party whose good is subject to the measure regarding application of the measure.
7. A Party may maintain an agricultural safeguard measure only until the end of the calendar year in which the Party applies the measure.

Such compensation shall be equivalent to the estimated economic rents that the Party's exporters would have obtained on exports to the United States of any such amounts of sugar goods and shall be provided within 30 days after the United States exercises this option. The United States shall notify the Party at least 90 days before it exercises this option and, on request, shall enter into consultations with the Party regarding application of the mechanism.

#### Article 3.23: Textile Safeguard Measures

1. Subject to the following paragraphs, and during the transition period only, if, as a result of the reduction or elimination of a duty provided for in this Agreement, a textile or apparel good of another Party is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to the domestic market for that good, and under such conditions as to cause serious damage, or actual threat thereof, to domestic industry producing a like or directly competitive good, the importing Party may, to the extent necessary to prevent or remedy such damage and to facilitate adjustment, apply a textile safeguard measure to that good, consisting of an increase in the rate of duty on the good to a level not to exceed the lesser of:

- (a) the most-favored-nation (MFN) applied rate of duty in effect at the time the measure is applied; and
- (b) the MFN applied rate of duty in effect on the date of entry into force of this Agreement.

2. In determining serious damage, or actual threat thereof, the importing Party:

- (a) shall examine the effect of increased imports of the good of the other Party on the particular industry, as reflected in changes in such relevant economic variables as output, productivity, utilization of capacity, inventories, market share, exports, wages, employment, domestic prices, profits, and investment, none of which, either alone or combined with other factors, shall necessarily be decisive; and
- (b) shall not consider changes in technology or consumer preference as factors supporting a determination of serious damage or actual threat thereof.

3. The importing Party may apply a textile safeguard measure only following an

investigation by its competent authority.

4. If, on the basis of the results of the investigation under paragraph 3, the importing Party intends to apply a textile safeguard measure, the importing Party shall promptly provide written notice to the exporting Party of its intent to apply a textile safeguard measure, and on request shall enter into consultations with that Party. The importing Party and the exporting Party shall begin the consultations without delay and shall complete them within 60 days of the date of receipt of the request. The importing Party shall make a decision on whether to apply a safeguard measure within 30 days of completion of the consultations.

6. The Party applying a textile safeguard measure shall provide to the Party against whose good the measure is taken mutually agreed trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the textile safeguard measure. Such concessions shall be limited to textile or apparel goods, unless the consulting Parties otherwise agree. If the consulting Parties are unable to agree on compensation within 30 days of application of a textile safeguard measure, the Party against whose good the measure is taken may take tariff action having trade effects substantially equivalent to the trade effects of the textile safeguard measure. Such tariff action may be taken against any goods of the Party applying the measure. The Party taking the tariff action shall apply such action only for the minimum period necessary to achieve the substantially equivalent trade effects. The importing Party's obligation to provide trade compensation and the exporting Party's right to take tariff action shall terminate when the textile safeguard measure terminates.

7. (a) Each Party retains its rights and obligations under Article XIX of the GATT 1994 and the Safeguards Agreement.

(b) No Party may apply, with respect to the same good at the same time, a textile safeguard measure and:

    - (A) laws, regulations, and procedures that the exporting Party adopts and maintains pursuant to this Agreement; and
    - (B) laws, regulations, and procedures of the importing Party and the exporting Party implementing other international agreements regarding trade in textile or apparel goods.
- (b) A request under subparagraph (a) shall include specific information regarding the reason the importing Party is requesting the verification and the determination the importing Party is seeking to make.
- (c) The exporting Party shall conduct a verification under subparagraph (a)(i), regardless of whether an importer claims preferential tariff treatment for the textile or apparel good for which a claim of origin has been made.
3. The importing Party, through its competent authority, may assist in a verification conducted under paragraph 2(a), or, at the request of the exporting Party, undertake such a verification, including by conducting, along with the competent authority of the exporting Party, visits in the territory of the exporting Party to the premises of an exporter, producer, or any other enterprise involved in the movement of textile or apparel goods from the territory of the exporting Party to the territory of the importing Party.
4. (a) The competent authority of the importing Party shall provide a written request to the competent authority of the exporting Party 20 days before the proposed date of a visit under paragraph 3. - (b) The competent authority of the exporting Party shall respond within 10 days of receipt of the request, and shall indicate the date on which authorized personnel of the importing Party may perform the visit. The exporting Party shall seek, in accordance with its laws, regulations, and procedures, permission from the enterprise to conduct the visit. If consent is not provided, the importing Party may deny preferential tariff treatment to the type of goods of the enterprise that would have been the subject of the verification, except that the importing Party may not deny preferential tariff treatment to such goods based solely on a postponement of the visit, if there is adequate reason for such postponement.
- (c) Authorized personnel of the importing and exporting Parties shall conduct the visit in accordance with the laws, regulations, and procedures of the exporting Party.
- (d) On completion of a visit, the importing Party shall provide the exporting Party with an oral summary of the results of the visit and provide it with a written report of the results of the visit within approximately 45 days of the visit. The written report shall include:

6. (a) (i) During a verification conducted under paragraph 2(a), if there is insufficient information to support a claim for preferential tariff treatment, the importing Party may take appropriate action, which may include suspending the application of such treatment to:

(A) in the case of a verification conducted under paragraph 2(a)(i), the textile or apparel good for which a claim for preferential tariff treatment has been made; and

(B) in the case of a verification conducted under paragraph 2(a)(ii), any textile or apparel good exported or produced by the enterprise subject to that verification for which a claim for preferential tariff treatment has been made.

(iii) During or on completion of a verification conducted under paragraph 2(a), if the importing Party discovers that an enterprise has provided incorrect information to support a claim for preferential tariff treatment, the importing Party may take appropriate action, which may include denying the application of such treatment to any textile or apparel good described in clauses (i)(A) and (B).

(b) (i) During a verification conducted under paragraph 2(a), if there is insufficient information to determine the country of origin, the importing Party may take appropriate action, which may include detention of any textile or apparel good exported or produced by the enterprise subject to the verification, but for no longer than the period permitted under its law.

(c) The importing Party may continue to take appropriate action under any provision of

this paragraph only until it receives information sufficient to enable it to make the determination in paragraph 2(a)(i) or (ii), as the case may be, but in any event for no longer than the period permitted under its law.

(d) The importing Party may deny preferential tariff treatment or entry under this paragraph only after providing a written determination to the importer of the reason for the denial.

7. Not later than 45 days after it completes a verification conducted under paragraph 2(a), the exporting Party shall provide the importing Party a written report on the results of the verification. The report shall include all documents and facts supporting any conclusion that the exporting Party reaches. After receiving the report, the importing Party shall notify the exporting Party of any action it will take under paragraph 6(a)(ii) or (iii) or 6(b)(ii) or (iii), based on the information provided in the report.

The Parties shall consider that there is substantial production if a Party demonstrates that its domestic producers are capable of supplying commercial quantities of the good in a timely manner.

3. The Parties shall endeavor to conclude the consultations within 90 days after delivery of the request. If the Parties reach an agreement to modify a rule of origin for a particular good, the agreement shall supersede that rule of origin when approved by the Parties in accordance with Article 19.1.3(b) (The Free Trade Commission).

#### Chapter Four

##### Rules of Origin and Origin Procedures

##### Section A: Rules of Origin

##### Article 4.1: Originating Goods

Except as otherwise provided in this Chapter, each Party shall provide that a good is originating where:

(a) it is a good wholly obtained or produced entirely in the territory of one or more of the Parties;

(b) it is produced entirely in the territory of one or more of the Parties and

(i) each of the non-originating materials used in the production of the good undergoes

an applicable change in tariff classification specified in Annex 4.1, or  
(ii) the good otherwise satisfies any applicable regional value content or other requirements specified in Annex 4.1, and the good satisfies all other applicable requirements of this Chapter; or  
(c) it is produced entirely in the territory of one or more of the Parties exclusively from originating materials.

#### Article 4.2: Regional Value Content

1. Where Annex 4.1 specifies a regional value content test to determine whether a good is originating, each Party shall provide that the importer, exporter, or producer may use a calculation of regional value content based on one or the other of the following methods:

(a) Method Based on Value of Non-Originating Materials (“Build-down Method”)

$$RVC = AV - VNM \times 100$$

AV

(b) Method Based on Value of Originating Materials (“Build-up Method”)

$$RVC = VOM \times 100$$

AV

where, RVC is the regional value content, expressed as a percentage;

AV is the adjusted value;

VNM is the value of non-originating materials that are acquired and used by the producer in the production of the good; VNM does not include the value of a material that is self-produced; and

VOM is the value of originating materials acquired or self-produced, and used by the producer in the production of the good.

2. Each Party shall provide that all costs considered for the calculation of regional value content shall be recorded and maintained in conformity with the Generally Accepted Accounting Principles applicable in the territory of the Party where the good is produced.

3. Where Annex 4.1 specifies a regional value content test to determine if an automotive good (paragraph 3 applies solely to goods classified under the following headings and subheadings: 8407.31 through 8407.34 (engines), 8408.20 (diesel engines for vehicles), 84.09 (parts of engines), 87.01 through 87.05 (motor vehicles), 87.06 (chassis), 87.07 (bodies), and 87.08 (motor vehicle parts)) is originating, each Party shall provide that the importer, exporter, or producer may use a calculation of the regional value content of that good as provided in paragraph 1 or based on the following method:

Method for Automotive Products (“Net Cost Method”)

$$RVC = NC - VNM \times 100$$

NC

where, RVC is the regional value content, expressed as a percentage;

NC is the net cost of the good; and

VNM is the value of non-originating materials acquired and used by the producer in the production of the good; VNM does not include the value of a material that is self-produced.

4. Each Party shall provide that, for purposes of the regional value content method in paragraph 3, the importer, exporter, or producer may use a calculation averaged over the producer’s fiscal year, using any one of the following categories, on the basis of all motor vehicles in the category or only those motor vehicles in the category that are

exported to the territory of one or more of the other Parties:

(a) the same model line of motor vehicles in the same class of vehicles produced in the same plant in the territory of a Party;

(b) the same class of motor vehicles produced in the same plant in the territory of a Party; or

(c) the same model line of motor vehicles produced in the territory of a Party.

5. Each Party shall provide that, for purposes of calculating regional value content under paragraph 3 for automotive materials (paragraph 5 applies solely to automotive materials classified under the following headings and subheadings: 8407.31 through 8407.34 (engines), 8408.20 (diesel engines for vehicles), 84.09 (parts of engines), 87.06 (chassis), 87.07 (bodies), and 87.08 (motor vehicle parts)) produced in the same plant, an importer, exporter, or producer may use a calculation:

(a) averaged:

(i) over the fiscal year of the motor vehicle producer to whom the good is sold;

(ii) over any quarter or month; or

(iii) over its fiscal year, provided that the good was produced during the fiscal year, quarter, or month forming the basis for the calculation;

(b) in which the average in subparagraph (a) is calculated separately for such goods sold to one or more motor vehicle producers; or

(c) in which the average in subparagraph (a) or (b) is calculated separately for those goods that are exported to the territory of one or more of the Parties.

#### Article 4.3: Value of Materials

Each Party shall provide that, for purposes of Articles 4.2 and 4.6, the value of a material shall be:

(a) for a material imported by the producer of the good, the adjusted value of the material;

(b) for a material acquired in the territory where the good is produced, the value, determined in accordance with Articles 1 through 8, Article 15, and the corresponding interpretative notes of the Customs Valuation Agreement in the same manner as for imported goods, with such reasonable modifications as may be required due to the absence of an importation; or

(c) for a material that is self-produced,

(i) all the expenses incurred in the production of the material, including general expenses, and

(ii) an amount for profit equivalent to the profit added in the normal course of trade.

#### Article 4.4: Further Adjustments to the Value of Materials

1. Each Party shall provide that, for originating materials, the following expenses, where not included under Article 4.3, may be added to the value of the material:

(a) the costs of freight, insurance, packing, and all other costs incurred in transporting the material within a Party's territory or between the territories of two or more Parties to the location of the producer;

(b) duties, taxes, and customs brokerage fees on the material paid in the territory of one or more of the Parties, other than duties and taxes that are waived, refunded, refundable, or otherwise recoverable, including credit against duty or tax paid or payable; and

(c) the cost of waste and spoilage resulting from the use of the material in the

production of the good, less the value of renewable scrap or by-product.

2. Each Party shall provide that, for non-originating materials, the following expenses, where included under Article 4.3, may be deducted from the value of the material:

- (a) the costs of freight, insurance, packing, and all other costs incurred in transporting the material within a Party's territory or between the territories of two or more Parties to the location of the producer;
- (b) duties, taxes and customs brokerage fees on the material paid in the territory of one or more of the Parties, other than duties and taxes that are waived, refunded, refundable, or otherwise recoverable, including credit against duty or tax paid or payable;
- (c) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of renewable scrap or by-product; and
- (d) the cost of originating materials used in the production of the non-originating material in the territory of a Party.

#### Article 4.5: Accumulation

1. Each Party shall provide that originating goods or materials of one or more of the Parties, incorporated into a good in the territory of another Party, shall be considered to originate in the territory of that other Party.

2. Each Party shall provide that a good is originating where the good is produced in the territory of one or more of the Parties by one or more producers, provided that the good satisfies the requirements in Article 4.1 and all other applicable requirements in this Chapter.

#### Article 4.6: De Minimis

1. Except as provided in Annex 4.6, each Party shall provide that a good that does not undergo a change in tariff classification pursuant to Annex 4.1 is nonetheless originating if the value of all non-originating materials used in the production of the good and that do not undergo the applicable change in tariff classification does not exceed ten percent of the adjusted value of the good, provided that the value of such non-originating materials shall be included in the value of non-originating materials for any applicable regional value content requirement and that the good meets all other applicable requirements in this Chapter.

2. With respect to a textile or apparel good, Article 3.25.7 (Rules of Origin and Related Matters) applies in place of paragraph 1.

#### Article 4.7: Fungible Goods and Materials

1. Each Party shall provide that an importer may claim that a fungible good or material is originating where the importer, exporter, or producer has:

- (a) physically segregated each fungible good or material; or
- (b) used any inventory management method, such as averaging, last-in-first-out (LIFO) or first-in-first-out (FIFO), recognized in the Generally Accepted Accounting Principles of the Party in which the production is performed or otherwise accepted by the Party in which the production is performed.

2. Each Party shall provide that the inventory management method selected under paragraph 1 for a particular fungible good or material shall continue to be used for that good or material throughout the fiscal year of the person that selected the inventory management method.

#### Article 4.8: Accessories, Spare Parts, and Tools

1. Each Party shall provide that a good's standard accessories, spare parts, or tools delivered with the good shall be treated as originating goods if the good is an originating good and shall be disregarded in determining whether all the non-originating materials used in the production of the good undergo the applicable change in tariff classification, provided that:

(a) the accessories, spare parts, or tools are classified with and not invoiced separately from the good, regardless of whether they appear specified or separately identified in the invoice itself; and

(b) the quantities and value of the accessories, spare parts, or tools are customary for the good.

2. If a good is subject to a regional value content requirement, the value of accessories, spare parts, or tools shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.

#### Article 4.9: Packaging Materials and Containers for Retail Sale

Each Party shall provide that packaging materials and containers in which a good is packaged for retail sale shall, if classified with the good, be disregarded in determining whether all the non-originating materials used in the production of the good undergo the applicable change in tariff classification set out in Annex 4.1 and, if the good is subject to a regional value content requirement, the value of such packaging materials and containers shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.

#### Article 4.10: Packing Materials and Containers for Shipment

Each Party shall provide that packing materials and containers for shipment shall be disregarded in determining whether a good is originating.

#### Article 4.11: Indirect Materials Used in Production

Each Party shall provide that an indirect material shall be considered to be an originating material without regard to where it is produced.

#### Article 4.12: Transit and Transshipment

Each Party shall provide that a good shall not be considered to be an originating good if the good:

(a) undergoes subsequent production or any other operation outside the territories of the Parties, other than unloading, reloading, or any other operation necessary to preserve the good in good condition or to transport the good to the territory of a Party; or

(b) does not remain under the control of customs authorities in the territory of a non-Party.

#### Article 4.13: Sets of Goods

1. Each Party shall provide that if goods are classified as a set as a result of the application of rule 3 of the General Rules of Interpretation of the Harmonized System, the set is originating only if each good in the set is originating and both the set and the goods meet all other applicable requirements in this Chapter.

2. Notwithstanding paragraph 1, a set of goods is originating if the value of all the non-

originating goods in the set does not exceed 15 percent of the adjusted value of the set.

3. With respect to a textile or apparel good, Article 3.25.9 (Rules of Origin and Related Matters) applies in place of paragraphs 1 and 2.

#### Article 4.14: Consultation and Modifications

1. The Parties shall consult regularly to ensure that this Chapter is administered effectively, uniformly, and consistently with the spirit and objectives of this Agreement, and shall cooperate in the administration of this Chapter.

2. A Party that considers that a specific rule of origin set out in Annex 4.1 requires modification to take into account developments in production processes, lack of supply of originating materials, or other relevant factors may submit a proposed modification along with supporting rationale and any studies to the Commission for consideration.

3. On submission by a Party of a proposed modification under paragraph 2, the Commission may refer the matter to an ad hoc working group within 60 days or on such other date as the Commission may decide. The working group shall meet to consider the proposed modification within 60 days of the date of referral or on such other date as the Commission may decide.

4. Within such period as the Commission may direct, the working group shall provide a report to the Commission, setting out its conclusions and recommendations, if any.

5. On receipt of the report, the Commission may take appropriate action under Article 19.1.3(b) (The Free Trade Commission).

6. With respect to a textile or apparel good, paragraphs 1 through 3 of Article 3.25 (Rules of Origin and Related Matters) apply in place of paragraphs 2 through 5.

#### Section B: Origin Procedures

##### Article 4.15: Obligations Relating to Importations

1. Each Party shall grant any claim for preferential tariff treatment made in accordance with this Chapter, unless the Party issues a written determination that the claim is invalid as a matter of law or fact.

2. A Party may deny preferential tariff treatment to a good if the importer fails to comply with any requirement in this Chapter.

3. No Party may subject an importer to any penalty for making an invalid claim for preferential tariff treatment if the importer:

(a) did not engage in negligence, gross negligence, or fraud in making the claim and pays any customs duty owing; or

(b) on becoming aware that such a claim is not valid, promptly and voluntarily corrects the claim and pays any customs duty owing.

4. Each Party may require that an importer who claims preferential tariff treatment for a good imported into its territory:

(a) declare in the importation document that the good is originating;

(b) have in its possession at the time the declaration referred to in subparagraph (a) is made a written or electronic certification as described in Article 4.16, if the certification forms the basis for the claim;

(c) provide a copy of the certification, on request, to the importing Party's customs authority, if the certification forms the basis for the claim;

(d) when the importer has reason to believe that the declaration in subparagraph (a) is

based on inaccurate information, correct the importation document and pay any customs duty owing;

(e) when a certification by a producer or exporter forms the basis for the claim, either provide or have in place, at the importer's option, an arrangement to have the producer or exporter provide, on request of the importing Party's customs authority, all information relied on by such producer or exporter in making such certification; and

(f) demonstrate, on request of the importing Party's customs authority, that the good is originating under Article 4.1, including that the good satisfies the requirements of Article 4.12.

5. Each Party shall provide that, where a good was originating when it was imported into its territory, but the importer of the good did not make a claim for preferential tariff treatment at the time of importation, that importer may, no later than one year after the date of importation, make a claim for preferential tariff treatment and apply for a refund of any excess duties paid as the result of the good not having been accorded preferential tariff treatment on presentation to its customs authority of:

(a) a written declaration, stating that the good was originating at the time of importation;

(b) on request of its customs authority, a copy of a written or electronic certification if a certification forms the basis for the claim, or other information demonstrating that the good was originating; and

(c) such other documentation relating to the importation of the good as its customs authority may require.

6. Each Party may provide that the importer is responsible for complying with the requirements of paragraph 4, notwithstanding that the importer may have based its claim for preferential tariff treatment on a certification or information that an exporter or producer provided.

7. Nothing in this Article shall prevent a Party from taking action under Article 3.24.6 (Customs Cooperation).

#### Article 4.16: Claims of Origin

1. Each Party shall provide that an importer may make a claim for preferential tariff treatment based on either:

(a) a written or electronic (each Central American Party and the Dominican Republic shall authorize importers to provide electronic certifications beginning no later than three years after the date of entry into force of this Agreement) certification by the importer, exporter, or producer; or

(b) the importer's knowledge that the good is an originating good, including reasonable reliance on information in the importer's possession that the good is an originating good (each Central American Party and the Dominican Republic shall implement subparagraph (b) no later than three years after the date of entry into force of this Agreement).

2. Each Party shall provide that a certification need not be made in a prescribed format, provided that the certification is in written or electronic form, including but not limited to the following elements:

3. Each Party shall provide that a certification by the producer or exporter of the good may be completed on the basis of:

(a) the producer's or exporter's knowledge that the good is originating; or

(b) in the case of an exporter, reasonable reliance on the producer's written or electronic certification that the good is originating. No Party may require an exporter or producer to provide a written or electronic certification to another person.

4. Each Party shall provide that a certification may apply to:

(a) a single shipment of a good into the territory of a Party; or

In the latter case, the customs authority of the importing Party may require the importer to submit a translation of the certification in the language of the importing Party.

#### Article 4.17: Exceptions

No Party may require a certification or information demonstrating that the good is originating where:

(a) the customs value of the importation does not exceed 1,500 U.S. dollars or the equivalent amount in the currency of the importing Party, or such higher amount as may be established by the importing Party, unless the importing Party considers the importation to be part of a series of importations carried out or planned for the purpose of evading compliance with the certification requirements; or

(b) it is a good for which the importing Party does not require the importer to present a certification or information demonstrating origin.

#### Article 4.18: Obligations Relating to Exportations

1. Each Party shall provide that:

(a) an exporter or a producer in its territory that has provided a written or electronic certification in accordance with Article 4.16 shall, on request, provide a copy to the appropriate authority of the Party;

(b) a false certification by an exporter or a producer in its territory that a good to be exported to the territory of another Party is originating shall be subject to penalties equivalent to those that would apply to an importer in its territory that makes a false statement or representation in connection with an importation, with appropriate modifications; and

(c) when an exporter or a producer in its territory has provided a certification and has reason to believe that the certification contains or is based on incorrect information, the exporter or producer shall promptly notify in writing every person to whom the exporter or producer provided the certification of any change that could affect the accuracy or validity of the certification.

2. No Party may impose penalties on an exporter or a producer for providing an incorrect certification if the exporter or producer voluntarily notifies in writing all persons to whom it has provided the certification that it was incorrect.

#### Article 4.19: Record Keeping Requirements

1. Each Party shall provide that an exporter or a producer in its territory that provides a certification in accordance with Article 4.16 shall maintain, for a minimum of five years from the date the certification was issued, all records and documents necessary to demonstrate that a good for which the producer or exporter provided a certification was an originating good, including records and documents concerning:

- (a) the purchase of, cost of, value of, and payment for, the exported good;
- (b) the purchase of, cost of, value of, and payment for, all materials, including indirect materials, used in the production of the exported good; and
- (c) the production of the good in the form in which it was exported.

2. Each Party shall provide that an importer claiming preferential tariff treatment for a good imported into the Party's territory shall maintain, for a minimum of five years from the date of importation of the good, all records and documents necessary to demonstrate the good qualified for the preferential tariff treatment.

#### Article 4.20: Verification

1. For purposes of determining whether a good imported into its territory from the territory of another Party is an originating good, each Party shall ensure that its customs authority or other competent authority may conduct a verification by means of:

- (a) written requests for information from the importer, exporter, or producer;
- (b) written questionnaires to the importer, exporter, or producer;
- (c) visits to the premises of an exporter or producer in the territory of the other Party, to review the records referred to in Article 4.19 or observe the facilities used in the production of the good, in accordance with the framework that the Parties develop pursuant to Article 4.21.2;
- (d) for a textile or apparel good, the procedures set out in Article 3.24 (Customs Cooperation); or
- (e) such other procedures to which the importing and exporting Parties may agree.

2. A Party may deny preferential tariff treatment to an imported good where:

- (a) the exporter, producer, or importer fails to respond to a written request for information or questionnaire within a reasonable period, as established in the importing Party's law;
- (b) after receipt of a written notification for a verification visit to which the importing and exporting Parties have agreed, the exporter or producer does not provide its written consent within a reasonable period, as established by the importing Party's law; or
- (c) the Party finds a pattern of conduct indicating that an importer, exporter, or producer has provided false or unsupported declarations that a good imported into its territory is an originating good.

3. Except as provided in Article 3.24.6(d) (Customs Cooperation), a Party conducting a verification shall provide the importer a determination, in writing, of whether the good is originating. The Party's determination shall include factual findings and the legal basis for the determination.

4. If an importing Party makes a determination under paragraph 3 that a good is not originating, the Party shall not apply that determination to an importation made before the date of the determination where:

- (a) the customs authority of the exporting Party issued an advance ruling regarding the tariff classification or valuation of one or more materials used in the good under Article

5.10 (Advance Rulings);

(b) the importing Party's determination is based on a tariff classification or valuation for such materials that is different than that provided for in the advance ruling referred to in subparagraph (a); and

(c) the customs authority issued the advance ruling before the importing Party's determination.

5. Where an importing Party determines through verification that an importer, exporter, or producer has engaged in a pattern of conduct in providing false or unsupported statements, declarations, or certifications that a good imported into its territory is originating the Party may suspend preferential tariff treatment to identical goods covered by subsequent statements, declarations, or certifications by that importer, exporter, or producer until the importing Party determines that the importer, exporter, or producer is in compliance with this Chapter.

#### Article 4.21: Common Guidelines

1. The Parties shall agree on and publish common guidelines for the interpretation, application, and administration of this Chapter and the relevant provisions of Chapter Three (National Treatment and Market Access for Goods) and shall endeavor to do so by the date of entry into force of this Agreement. The Parties may agree to modify the common guidelines.

## Chapter Eight

### Trade Remedies

#### Section A: Safeguards

##### Article 8.1: Imposition of a Safeguard Measure

1. A Party may apply a measure described in paragraph 2, during the transition period only, if as a result of the reduction or elimination of a duty pursuant to this Agreement, an originating good is being imported into the Party's territory in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to constitute a substantial cause of serious injury, or threat thereof, to a domestic industry producing a like or directly competitive good.
2. If the conditions in paragraph 1 are met, a Party may to the extent necessary to prevent or remedy serious injury, or threat thereof, and facilitate adjustment:
  - (a) suspend the further reduction of any rate of duty provided for under this Agreement on the good; or
  - (b) increase the rate of duty on the good to a level not to exceed the lesser of
    - (i) the most-favored-nation (MFN) applied rate of duty in effect at the time the measure is applied, and
    - (ii) the MFN applied rate of duty in effect on the day immediately preceding the date of entry into force of this Agreement (the Parties understand that neither tariff rate quotas nor quantitative restrictions would be a permissible form of safeguard measure).
3. (a) Except as provided in subparagraph (b), a Party shall apply a safeguard measure to imports of an originating good that are subject to a determination under paragraph 1 irrespective of their source.  
(b) A Party may exclude imports of an originating good of another Party from application of a safeguard measure if the Party accorded duty-free treatment to imports of the good from such other Party, pursuant to an agreement between those Parties, for the three-year period preceding the date of entry into force of this Agreement.
4. No Party may apply a safeguard measure against an originating good of another Party as long as the exporting Party's share of imports of the originating good in the importing Party does not exceed three percent, provided that Parties with less than three percent import share collectively account for not more than nine percent of total imports of such originating good.

##### Article 8.2: Standards for a Safeguard Measure

1. A Party may apply a safeguard measure, including any extension thereof, for no longer than four years. Regardless of its duration, such measure shall terminate at the end of the transition period.
2. Subject to paragraph 1, a Party may extend the period of a safeguard measure if the competent investigating authority determines, in conformity with the procedures set out in Article 8.3, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the domestic industry is adjusting.
3. In order to facilitate adjustment in a situation where the expected duration of a safeguard measure is over one year, the Party applying the measure shall progressively liberalize it at regular intervals during the period of application.
4. A Party may not apply a safeguard measure more than once on the same good.
5. On the termination of a safeguard measure, the rate of duty shall be no higher than the rate that, according to the Party's Schedule to Annex 3.3 (Tariff Elimination), would

have been in effect one year after the imposition of the measure. Beginning on January 1 of the year following the termination of the measure, the Party that has applied the measure shall:

- (a) apply the rate of duty set out in the Party's Schedule to Annex 3.3 (Tariff Elimination) as if the safeguard measure had never been applied; or
- (b) eliminate the tariff in equal annual stages ending on the date set out in the Party's Schedule to Annex 3.3 (Tariff Elimination) for the elimination of the tariff.

#### Article 8.3: Administration of Safeguard Proceedings

1. Each Party shall ensure the consistent, impartial, and reasonable administration of its laws, regulations, decisions, and rulings governing safeguard proceedings under this Chapter.
2. Each Party shall entrust determinations of serious injury, or threat thereof, in safeguard proceedings under this Chapter to a competent investigating authority, subject to review by judicial or administrative tribunals, to the extent provided by domestic law. Negative injury determinations shall not be subject to modification, except by such review. The competent investigating authority empowered under domestic law to conduct such proceedings should be provided with the necessary resources to enable it to fulfill its duties.
3. Each Party shall adopt or maintain equitable, timely, transparent, and effective procedures for safeguard proceedings under this Chapter, in accordance with the requirements set out in Annex 8.3.

#### Article 8.4: Notification and Consultation

1. A Party shall promptly notify the other Parties, in writing, on
  - (a) initiating a safeguard proceeding under this Chapter;
  - (b) making a finding of serious injury, or threat thereof, caused by increased imports under Article 8.1; and
  - (b) taking a decision to apply or extend a safeguard measure.
2. A Party shall provide to the other Parties a copy of the public version of the report of its competent investigating authority required under Annex 8.3.
3. On request of a Party whose good is subject to a safeguard proceeding under this Chapter, the Party conducting that proceeding shall enter into consultations with the requesting Party to review a notification under paragraph 1 or any public notice or report that the competent investigating authority has issued in connection with the proceeding.

#### Article 8.5: Compensation

1. A Party applying a safeguard measure shall, after consultations with each Party against whose good the measure is applied, provide to such Party or Parties mutually agreed trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the measure. The Party shall provide an opportunity for such consultations no later than 30 days after the application of the safeguard measure.
2. If the consultations under paragraph 1 do not result in an agreement on trade liberalizing compensation within 30 days, any Party against whose good the measure is applied may suspend the application of substantially equivalent concessions to the trade of the Party applying the safeguard measure.
3. A Party shall notify the Party applying the safeguard measure in writing at least 30

days before suspending concessions under paragraph 2.

4. The obligation to provide compensation under paragraph 1 and the right to suspend concessions under paragraph 2 shall terminate on the later of: (a) the termination of the safeguard measure, or (b) the date on which the rate of duty returns to the rate of duty set out in the Party's Schedule to Annex 3.3 (Tariff Elimination).

#### Article 8.6: Global Actions

1. Each Party retains its rights and obligations under Article XIX of the GATT 1994 and the Safeguards Agreement.

2. This Agreement does not confer any additional rights or obligations on the Parties with regard to actions taken pursuant to Article XIX of the GATT 1994 and the Safeguards Agreement, except that a Party taking such an action may exclude imports of an originating good of another Party if such imports are not a substantial cause of serious injury or threat thereof.

3. No Party may apply, with respect to the same good, at the same time:

(a) a safeguard measure; and

(b) a measure under Article XIX of the GATT 1994 and the Safeguards Agreement.

#### Article 8.7: Definitions

For purposes of this Section:

competent investigating authority means the "competent investigating authority" of a Party as defined in Annex 8.7;

domestic industry means, with respect to an imported good, the producers as a whole of the like or directly competitive good or those producers whose collective production of the like or directly competitive good constitutes a major proportion of the total domestic production of such good;

safeguard measure means a measure described in Article 8.1.2;

serious injury means a significant overall impairment in the position of a domestic industry;

substantial cause means a cause which is important and not less than any other cause;

threat of serious injury means serious injury that, on the basis of facts and not merely on allegation, conjecture, or remote possibility, is clearly imminent; and

transition period means the ten-year period beginning on the date of entry into force of this Agreement, except that for any good for which the Schedule to Annex 3.3 (Tariff Elimination) of the Party applying the measure provides for the Party to eliminate its tariffs on the good over a period of more than ten years, transition period means the tariff elimination period for the good set out in that Schedule.

#### Section B: Antidumping and Countervailing Duties

##### Article 8.8: Antidumping and Countervailing Duties

1. The United States shall continue to treat each other Party as a "beneficiary country" for purposes of 19 U.S.C. §§ 1677(7)(G)(ii)(III) and 1677(7)(H) and any successor provisions. No Party may have recourse to dispute settlement under this Agreement for any matter arising under this paragraph.

2. Except for paragraph 1, no provision of this Agreement, including the provisions of Chapter Twenty (Dispute Settlement), shall be construed as imposing any rights or obligations on the Parties with respect to antidumping or countervailing duty measures.

3. Each Party retains its rights and obligations under the WTO Agreement with regard to

the application of antidumping and countervailing duties.

### Annex 8.3

#### Administration of Safeguard Proceedings

##### Institution of a Proceeding

1. A safeguard proceeding under this Chapter may be instituted by a petition or complaint by entities specified in domestic law. The entity filing the petition or complaint shall demonstrate that it is representative of the domestic industry producing a good like or directly competitive with the imported good.

2. A Party may direct its competent investigating authority to institute a proceeding or the authority may institute a proceeding on its own motion.

##### Contents of a Petition or Complaint

3. Where the basis for an investigation is a petition or complaint filed by an entity representative of a domestic industry, the petitioning entity shall, in its petition or complaint, provide the following information to the extent that such information is publicly available from governmental or other sources, or best estimates and the basis therefor if such information is not available:

(a) product description: the name and description of the imported good concerned, the tariff subheading under which that good is classified, its current tariff treatment and the name and description of the like or directly competitive domestic good concerned;

(b) representativeness:

(i) the names and addresses of the entities filing the petition or complaint, and the locations of the establishments in which they produce the domestic good;

(ii) the percentage of domestic production of the like or directly competitive good that such entities account for and the basis for claiming that they are representative of an industry; and

(iii) the names and locations of all other domestic establishments in which the like or directly competitive good is produced;

(c) import data: import data for each of the five most recent full years that form the basis of the claim that the good concerned is being imported in increased quantities, either in absolute terms or relative to domestic production as appropriate;

(d) domestic production data: data on total domestic production of the like or directly competitive good for each of the five most recent full years;

(e) data showing injury: quantitative and objective data indicating the nature and extent of injury to the concerned industry, such as data showing changes in the level of sales, prices, production, productivity, capacity utilization, market share, profits and losses, and employment; and

(f) cause of injury: an enumeration and description of the alleged causes of the injury, or threat thereof, and a summary of the basis for the assertion that increased imports, either actual or relative to domestic production, of the imported good are causing or threatening to cause serious injury, supported by pertinent data.

4. Petitions or complaints, except to the extent that they contain confidential business information, shall promptly be made available for public inspection on being filed.

##### Notice Requirement

5. On instituting a safeguard proceeding under this Chapter, the competent investigating authority shall publish notice of the institution of the proceeding in the official journal of the Party. The notice shall identify the petitioner or other requester, the imported good that is the subject of the proceeding and its tariff subheading, the nature and timing of

the determination to be made, dates of deadlines for filing briefs, statements, and other documents, the place at which the petition and any other documents filed in the course of the proceeding may be inspected, and the name, address, and telephone number of the office to be contacted for more information.

6. With respect to a safeguard proceeding instituted on the basis of a petition or complaint filed by an entity asserting that it is representative of the domestic industry, the competent investigating authority shall not publish the notice required by paragraph 5 without first assessing carefully whether the petition or complaint meets the requirements of paragraph 3, including representativeness.

#### Public Hearing

7. In the course of each proceeding, the competent investigating authority shall:

- (a) hold a public hearing, after providing reasonable notice, including notice of the time and place of the hearing, to allow all interested parties, and any association whose purpose is to represent the interests of consumers in the territory of the Party instituting the proceeding, to appear in person or by counsel, to present evidence and to be heard on the questions of serious injury, or threat thereof, and the appropriate remedy; and

- (b) provide an opportunity to all interested parties and any such association appearing at the hearing to cross-question interested parties making presentations at that hearing.

#### Confidential Information

8. The competent investigating authority shall adopt or maintain procedures for the treatment of confidential information, protected under domestic law, that is provided in the course of a proceeding, including a requirement that interested parties and consumer associations providing such information furnish non-confidential written summaries thereof, or where they indicate that the information cannot be summarized, the reasons why a summary cannot be provided.

#### Evidence of Injury and Causation

9. In conducting its proceeding the competent investigating authority shall gather, to the best of its ability, all relevant information appropriate to the determination it must make. It shall evaluate all relevant factors of an objective and quantifiable nature having a bearing on the situation of that industry, including the rate and amount of the increase in imports of the good concerned, in absolute terms or relative to domestic production as appropriate, the share of the domestic market taken by increased imports, and changes in the level of sales, production, productivity, capacity utilization, profits and losses, and employment. In making its determination, the competent investigating authority may also consider other economic factors, such as changes in prices and inventories, and the ability of firms in the industry to generate capital.

10. The competent investigating authority shall not make an affirmative injury determination unless its investigation demonstrates, on the basis of objective evidence, the existence of a clear causal link between increased imports of the good concerned and serious injury, or threat thereof. Where factors other than increased imports are causing injury to the domestic industry at the same time, such injury shall not be attributed to increased imports.

#### Deliberation and Report

11. The competent investigating authority, before making an affirmative determination in a safeguard proceeding under this Chapter, shall allow sufficient time to gather and consider the relevant information, hold a public hearing, and provide an opportunity for all interested parties and consumer associations to prepare and submit their views.

12. The competent investigating authority shall publish promptly a report, including a summary thereof in the official journal of the Party, setting out its findings and reasoned conclusions on all pertinent issues of law and fact. The report shall describe the imported good and its tariff item number, the standard applied and the finding made. The statement of reasons shall set out the basis for the determination, including a description of:

- (a) the domestic industry seriously injured or threatened with serious injury;
- (b) information supporting a finding that imports are increasing, the domestic industry is seriously injured or threatened with serious injury, and increasing imports are causing or threatening serious injury; and
- (c) if provided for by domestic law, any finding or recommendation regarding the appropriate remedy and the basis therefor.

13. In its report, the competent investigating authority shall not disclose any confidential information provided pursuant to any undertaking concerning confidential information that may have been made in the course of the proceedings.

## Chapter Nine

### Government Procurement

#### Article 9.1: Scope and Coverage

1. This Chapter applies to any measure, including any act or guideline of a Party, regarding covered procurement.
2. For purposes of this Chapter, covered procurement means a procurement of goods, services, or both:
  - (a) by any contractual means, including purchase, rental, or lease, with or without an option to buy, build-operate-transfer contracts, and public works concession contracts;
  - (b) listed and subject to the conditions specified in:
    - (i) Annex 9.1.2(b)(i), which shall apply between the United States and each other Party;
    - (ii) Annex 9.1.2(b)(ii), which shall apply between the Central American Parties; and
    - (iii) Annex 9.1.2(b)(iii), which shall apply between each Central American Party and the Dominican Republic;
  - (c) that is conducted by a procuring entity; and
  - (d) that is not excluded from coverage.
3. This Chapter does not apply to:
  - (a) non-contractual agreements or any form of assistance that a Party or a state enterprise provides, including grants, loans, equity infusions, fiscal incentives, subsidies, guarantees, cooperative agreements, government provision of goods and services to persons or to state, regional, or local governments, and purchases for the direct purpose of providing foreign assistance;
  - (b) purchases funded by loans or grants made to a Party, including an entity of a Party by a person, international entities, associations, or another Party or a non-Party, to the extent that the conditions of such assistance are inconsistent with this Chapter;
  - (c) acquisition of fiscal agency or depository services, liquidation, and management services for regulated financial institutions, and sale and distribution services for government debt;
  - (d) hiring of government employees and related employment measures;
  - (e) any good or service component of any contract that is awarded by a procuring entity that is not listed in Sections A through C of Annexes 9.1.2(b)(i), 9.1.2(b)(ii), and 9.1.2(b)(iii); and
  - (f) purchases made under exceptionally advantageous conditions that only arise in the very short term, such as unusual disposals by companies that normally are not suppliers, or disposals of assets of businesses in liquidation or receivership.
4. Each Party shall ensure that its procuring entities comply with this Chapter in conducting any covered procurement.
5. Where a procuring entity awards a contract in a procurement that is not covered by this Chapter, nothing in this Chapter shall be construed to cover any good or service component of that contract.
6. No procuring entity may prepare, design, or otherwise structure or divide any procurement in order to avoid the obligations of this Chapter.
7. Nothing in this Chapter shall prevent a Party from developing new procurement policies, procedures, or contractual means, provided they are not inconsistent with this Chapter.

#### Article 9.2: General Principles

1. With respect to any measure covered by this Chapter, each Party shall accord to the goods and services of another Party, and to the suppliers of another Party of such goods and services, treatment no less favorable than the most favorable treatment the Party or procuring entity accords to its own goods, services, and suppliers.
2. With respect to any measure covered by this Chapter, no Party may:
  - (a) treat a locally established supplier less favorably than another locally established supplier on the basis of degree of foreign affiliation or ownership; or
  - (b) discriminate against a locally established supplier on the basis that the goods or services offered by that supplier for a particular procurement are goods or services of another Party.
3. For purposes of paragraphs 1 and 2, determination of the origin of goods shall be made in a manner consistent with Chapter Four (Rules of Origin and Origin Procedures).
4. With respect to covered procurement, a procuring entity shall not seek, take account of, or impose offsets in any stage of a procurement.
5. Paragraphs 1 and 2 do not apply to measures respecting customs duties or other charges of any kind imposed on or in connection with importation, the method of levying such duties or charges, other import regulations, including restrictions and formalities, or measures affecting trade in services other than measures specifically governing procurement covered by this Chapter.

#### Article 9.3: Publication of Procurement Measures

Each Party shall promptly:

- (a) publish any law or regulation, and any modification thereof, relating to procurement;
- (b) make publicly available any procedure, judicial decision, or administrative ruling of general application, relating to procurement; and
- (c) on request of a Party, provide to that Party a copy of a procedure, judicial decision, or administrative ruling of general application, relating to procurement.

#### Article 9.4: Publication of Notice of Intended Procurement

1. Subject to Article 9.9.2, a procuring entity shall publish in advance a notice inviting interested suppliers to submit tenders for each covered procurement.
2. The information in each such notice shall include, at a minimum, an indication that the procurement is covered by this Chapter, a description of the intended procurement, any conditions that suppliers must fulfill to participate in the procurement, the name of the procuring entity, the address where all documents relating to the procurement may be obtained, if applicable, any sum payable for the tender documentation, the time limits and address for submission of tenders, and the time for delivery of the goods or services being procured.
3. Each Party shall encourage its procuring entities to publish information regarding their future procurement plans as early as possible in each Party's fiscal year.

#### Article 9.5: Time Limits for the Tendering Process

1. A procuring entity shall provide suppliers sufficient time to prepare and submit responsive tenders, taking into account the nature and complexity of the procurement. In no case shall a procuring entity provide less than 40 days from the date of publication of a notice of intended procurement to the final date for submission of tenders.
2. Notwithstanding paragraph 1, where there are no qualification requirements for suppliers, a procuring entity may establish a period for tendering that is less than 40

days, but in no case less than 10 days, in the following circumstances:

- (a) where the procuring entity published a separate notice containing a description of the procurement, the approximate time limits for the submission of tenders or, where appropriate, conditions for participation in a procurement, and the address from which documents relating to the procurement may be obtained, at least 40 days and not more than 12 months before the final date for the submission of tenders;
- (b) where an entity procures commercial goods and services that are sold or offered for sale to, and customarily purchased and used by, non-governmental buyers for non-governmental purposes; or
- (c) where an unforeseen state of urgency that is duly substantiated by the procuring entity renders impracticable the time provided in paragraph 1.

#### Article 9.6: Tender Documentation

1. A procuring entity shall provide to interested suppliers tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders. The documentation shall include all criteria that the procuring entity will consider in awarding the contract, including all cost factors, and the weights or, where appropriate, the relative values, that the entity will assign to these criteria in evaluating tenders.

2. A procuring entity may satisfy paragraph 1 by publishing the documentation by electronic means accessible to all interested suppliers. Where a procuring entity does not publish tender documentation by electronic means accessible to all interested suppliers, the entity shall, on request of any supplier, promptly make the documentation available in written form to the supplier.

3. Where a procuring entity, in the course of a procurement, modifies the criteria referred to in paragraph 1, (each Central American Party and the Dominican Republic may make such modifications before tenders are opened. The United States may make such modifications before awarding the contract) it shall transmit all such modifications in writing:

- (a) to all suppliers that are participating in the procurement at the time the criteria are modified, if the identities of such suppliers are known, and in cases where the identities of suppliers participating are not known, in the same manner as the original information was transmitted; and
- (b) in adequate time to allow the suppliers to modify and re-submit their tenders, as appropriate.

#### Article 9.7: Technical Specifications

1. A procuring entity shall not prepare, adopt, or apply any technical specification with the purpose or the effect of creating unnecessary obstacles to trade between the Parties.

2. A procuring entity shall prescribe any technical specifications, where appropriate:

- (a) in terms of performance requirements rather than design or descriptive characteristics; and
- (b) based on international standards, where applicable, otherwise on recognized national standards.

3. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, design or type, specific origin or producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the

procurement requirements and provided that, in such cases, words such as “or equivalent” are included in the tender documentation.

4. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in that procurement.

5. For greater certainty, this Article is not intended to preclude a procuring entity from preparing, adopting, or applying technical specifications to promote the conservation of natural resources.

#### Article 9.8: Requirements and Conditions for Participating in Procurement

1. Where a procuring entity requires suppliers to satisfy registration, qualification, or any other requirements or conditions for participation (“conditions for participation”) in order to participate in a procurement, the procuring entity shall publish a notice inviting suppliers to apply for registration or qualification, or to satisfy any other conditions for participation. The procuring entity shall publish the notice sufficiently in advance to provide interested suppliers sufficient time to prepare and submit applications and for the entity to evaluate and make its determinations based on such applications.

2. Each procuring entity shall:

(a) limit any conditions for participation in a procurement to those that are essential to ensure that the supplier has the legal, technical, and financial abilities to fulfill the requirements and technical specifications of the procurement;

(b) recognize as qualified all suppliers of another Party that have met the requisite conditions for participation; and

(c) base qualification determinations solely on the conditions for participation that have been specified in advance in notices or tender documentation.

3. Procuring entities may establish publicly available lists of suppliers qualified to participate in procurements. Where a procuring entity requires suppliers to qualify for such a list as a condition for participation in a procurement, and a supplier that has not yet qualified applies for inclusion in the list, the procuring entity shall promptly start the qualification procedures and shall allow the supplier to submit a tender, if it is determined to be a qualifying supplier, provided there is sufficient time to fulfill the conditions for participation within the time period established for tendering.

4. No procuring entity may make it a condition for participation in a procurement that a supplier has previously been awarded one or more contracts by a procuring entity or that the supplier has prior work experience in the territory of a Party. A procuring entity shall evaluate the financial and technical abilities of a supplier on the basis of that supplier’s business activity outside the territory of the Party of the procuring entity, as well as activity, if any, in the territory of the Party of the procuring entity.

5. A procuring entity shall promptly communicate to any supplier that has applied for qualification its decision on whether that supplier is qualified. Where a procuring entity rejects an application for qualification or ceases to recognize a supplier as qualified, that entity shall, on request of the supplier, promptly provide a written explanation of the reasons for its action.

6. Nothing in this Article shall preclude a procuring entity from prohibiting a supplier from participating in a procurement on grounds such as bankruptcy or false declarations.

#### Article 9.9: Tendering Procedures

1. Subject to paragraph 2, a procuring entity shall award contracts by means of open tendering procedures.
2. Provided that the tendering procedure is not used to avoid competition or to protect domestic suppliers, a procuring entity may award contracts by means other than an open tendering procedure in the following circumstances:
  - (a) in the absence of tenders that conform to the essential requirements in the tender documentation provided in a prior notice of intended procurement or invitation to participate, including any conditions for participation, provided that the requirements of the initial notice or invitation are not substantially modified;
  - (b) where, for works of art, or for reasons connected with the protection of exclusive intellectual property rights, such as patents or copyrights, or proprietary information, or where there is an absence of competition for technical reasons, the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute exists;
  - (c) for additional deliveries by the original supplier that are intended either as replacement parts, extensions, or continuing services for existing equipment, software, services, or installations, where a change of supplier would compel the entity to procure goods or services not meeting requirements of interchangeability with existing equipment, software, services, or installations;
  - (d) for goods purchased on a commodity market;
  - (e) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study, or original development. When such contracts have been fulfilled, subsequent procurements of goods or services shall be subject to this Chapter;
  - (f) where additional construction services that were not included in the initial contract but that were within the objectives of the original tender documentation have, due to unforeseeable circumstances, become necessary to complete the construction services described therein. However, the total value of contracts awarded for additional construction services may not exceed 50 percent of the amount of the initial contract; or
  - (g) in so far as is strictly necessary where, for reasons of urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in time by means of an open tendering procedure and the use of an open tendering procedure would result in serious injury to the procuring entity, the entity's program responsibilities, or the Party.
3. A procuring entity shall maintain records or prepare written reports providing specific justification for any contract awarded under paragraph 2, in a manner consistent with Article 9.11.3.

#### Article 9.10: Awarding of Contracts

1. A procuring entity shall require that, in order to be considered for award, a tender must be submitted in writing and must, at the time it is submitted, conform to the essential requirements of the tender documentation that the procuring entity provided in advance to all participating suppliers, and be from a supplier that has complied with any conditions for participation that the procuring entity has communicated in advance to all participating suppliers.
2. Unless a procuring entity determines that it is not in the public interest to award a contract, the procuring entity shall award the contract to a supplier that the procuring

entity has determined to be fully capable of undertaking the contract and whose tender is determined to be the most advantageous in terms of the requirements and evaluation criteria set out in the tender documentation.

3. No procuring entity may cancel a procurement, or terminate or modify a contract it has awarded, in order to avoid the obligations of this Chapter.

#### Article 9.11: Information on Contract Awards

1. A procuring entity shall promptly inform participating suppliers of decisions on contract awards. A procuring entity shall, on request, provide a supplier whose tender was not selected for award the reasons for not selecting its tender and the relative advantages of the tender selected.

2. Promptly after awarding a contract in a covered procurement, a procuring entity shall publish a notice that includes at least the following information about the contract award:

- (a) the name of the entity;
- (b) a description of the goods or services included in the contract;
- (c) the name of the supplier awarded the contract;
- (d) the value of the contract award; and
- (e) where the entity did not use an open tendering procedure, an indication of the circumstances justifying the procedure used.

3. A procuring entity shall maintain records and reports relating to tendering procedures and contract awards in procurements covered by this Chapter, including the records and reports provided for in Article 9.9.3, for at least three years after the date a contract is awarded.

#### Article 9.12: Non-Disclosure of Information

1. A Party, its procuring entities, and its review authorities shall not disclose confidential information the disclosure of which would prejudice legitimate commercial interests of a particular person or might prejudice fair competition between suppliers, without the formal authorization of the person that provided the information to the Party.

2. Nothing in this Chapter shall prevent a Party or its procuring entities from withholding the release of information where release might:

- (a) impede law enforcement;
- (b) prejudice fair competition between suppliers;
- (c) prejudice the legitimate commercial interests of particular suppliers or entities, including the protection of intellectual property; or
- (d) otherwise be contrary to the public interest.

#### Article 9.13: Ensuring Integrity in Procurement Practices

Further to Article 18.8 (Anti-Corruption Measures), each Party shall adopt or maintain procedures to declare ineligible for participation in the Party's procurements, either indefinitely or for a specified time, suppliers that the Party has determined to have engaged in fraudulent or other illegal actions in relation to procurement. On request of another Party, a Party shall identify the suppliers determined to be ineligible under these procedures, and, where appropriate, exchange information regarding those suppliers or the fraudulent or illegal action.

#### Article 9.14: Exceptions

1. Provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between Parties where the same conditions prevail or a disguised restriction on trade between the Parties, nothing in this Chapter shall be construed to prevent a Party from adopting or maintaining measures:
  - (a) necessary to protect public morals, order, or safety;
  - (b) necessary to protect human, animal, or plant life or health;
  - (c) necessary to protect intellectual property; or
  - (d) relating to goods or services of handicapped persons, of philanthropic institutions, or of prison labor.
2. The Parties understand that paragraph 1(b) includes environmental measures necessary to protect human, animal, or plant life or health.

#### Article 9.15: Domestic Review of Supplier Challenges

1. Each Party shall establish or designate at least one impartial administrative or judicial authority, which shall be independent from its procuring entities, to receive and review challenges that suppliers submit relating to the obligations of the Party and its entities under this Chapter and to make appropriate findings and recommendations. In the event that a body other than such an impartial authority initially reviews a supplier's challenge, the Party shall ensure that the supplier may appeal the initial decision to an impartial administrative or judicial authority that is independent from the procuring entity that is the subject of the challenge.
2. Each Party shall provide that an authority established or designated under paragraph 1 may take prompt interim measures, pending the resolution of a challenge, to preserve the opportunity to correct potential breaches of this Chapter, including the suspension of the award of a contract or the performance of a contract already awarded.
3. Each Party shall ensure that its review procedures are publicly available in writing, and are timely, transparent, effective, and consistent with the principle of due process.
4. Each Party shall ensure that all documents related to a challenge to a procurement are available to any impartial authority established or designated under paragraph 1.
5. A procuring entity shall respond in writing to a supplier's complaint.
6. Each Party shall ensure that an impartial authority it establishes or designates under paragraph 1 provides to suppliers the following:
  - (a) a sufficient period to prepare and submit written challenges, which in no case shall be less than 10 days from the time when the basis of the complaint became known or reasonably should have become known to the supplier;
  - (b) an opportunity to review relevant documents and to be heard by the authority in a timely manner;
  - (c) an opportunity to reply to the procuring entity's response to the supplier's complaint; and
  - (d) prompt delivery in writing of its findings and recommendations relating to the challenge, with an explanation of the grounds for each decision.
7. Each Party shall ensure that a supplier's submission of a challenge does not prejudice the supplier's participation in ongoing or future procurements.

#### Article 9.16: Modifications and Rectifications to Coverage

1. A Party may make technical rectifications of a purely formal nature to its coverage under this Chapter, or minor amendments to its Schedules to Sections A through C of Annexes 9.1.2(b)(i), 9.1.2(b)(ii), and 9.1.2(b)(iii), provided that it notifies the other

Parties in writing and no other Party objects in writing within 30 days after the notification. A Party that makes such a rectification or minor amendment shall not be required to provide compensatory adjustments to the other Parties.

2. A Party may modify its coverage under this Chapter provided that it:

(a) notifies the other Parties in writing and no other Party objects in writing within 30 days after the notification; and

(b) except as provided in paragraph 3, offers within 30 days after notifying the other Parties acceptable compensatory adjustments to the other Parties to maintain a level of coverage comparable to that existing before the modification.

3. A Party need not provide compensatory adjustments in those circumstances where the proposed modification covers one or more procuring entities on which the Parties agree that government control or influence has been effectively eliminated. Where the Parties do not agree that such government control or influence has been effectively eliminated, the objecting Party or Parties may request further information or consultations with a view to clarifying the nature of any government control or influence and reaching agreement on the procuring entity's continued coverage under this Chapter.

4. The Commission shall modify the relevant section of Annexes 9.1.2(b)(i), 9.1.2(b)(ii), and 9.1.2(b)(iii) to reflect any agreed modification, technical rectification, or minor amendment.

$$T_0 \times (1 + (\Pi_i)) = T_1$$

The United States shall calculate adjustments of these thresholds based on an average of the daily conversion rates of the U.S. dollar in terms of SDRs, published by the IMF in its monthly "International Financial Statistics," for the two-year period preceding October 1 or November 1 of the year before the adjusted thresholds are to take effect:

- (a) 5 million SDRs for construction services;

- (b) promptly notify the other Parties of the value in its currency of the adjusted

(b) Article II of the New York Convention for an "agreement in writing;" and

(c) Article I of the Inter-American Convention for an "agreement."

#### Article 10.18: Conditions and Limitations on Consent of Each Party

1. No claim may be submitted to arbitration under this Section if more than three years have elapsed from the date on which the claimant first acquired, or should have first acquired, knowledge of the breach alleged under Article 10.16.1 and knowledge that the claimant (for claims brought under Article 10.16.1(a)) or the enterprise (for claims brought under Article 10.16.1(b)) has incurred loss or damage.

2. No claim may be submitted to arbitration under this Section unless:

(a) the claimant consents in writing to arbitration in accordance with the procedures set out in this Agreement; and

(b) the notice of arbitration is accompanied,

(i) for claims submitted to arbitration under Article 10.16.1(a), by the claimant's written waiver, and

(ii) for claims submitted to arbitration under Article 10.16.1(b), by the claimant's and the enterprise's written waivers of any right to initiate or continue before any

administrative tribunal or court under the law of any Party, or other dispute settlement procedures, any proceeding with respect to any measure alleged to constitute a breach referred to in Article 10.16.

3. Notwithstanding paragraph 2(b), the claimant (for claims brought under Article 10.16.1(a)) and the claimant or the enterprise (for claims brought under Article 10.16.1(b)) may initiate or continue an action that seeks interim injunctive relief and does not involve the payment of monetary damages before a judicial or administrative tribunal of the respondent, provided that the action is brought for the sole purpose of preserving the claimant's or the enterprise's rights and interests during the pendency of the arbitration.

4. No claim may be submitted to arbitration:

(a) for breach of an investment authorization under Article 10.16.1(a)(i)(B) or Article 10.16.1(b)(i)(B), or

(b) for breach of an investment agreement under Article 10.16.1(a)(i)(C) or Article 10.16.1(b)(i)(C), if the claimant (for claims brought under Article 10.16.1(a)) or the claimant or the enterprise (for claims brought under Article 10.16.1(b)) has previously submitted the same alleged breach to an administrative tribunal or court of the respondent, or to any other binding dispute settlement procedure, for adjudication or resolution.

#### Article 10.19: Selection of Arbitrators

1. Unless the disputing parties otherwise agree, the tribunal shall comprise three arbitrators, one arbitrator appointed by each of the disputing parties and the third, who shall be the presiding arbitrator, appointed by agreement of the disputing parties.

2. The Secretary-General shall serve as appointing authority for an arbitration under this Section.

3. If a tribunal has not been constituted within 75 days from the date that a claim is submitted to arbitration under this Section, the Secretary-General, on the request of a disputing party, shall appoint, in his or her discretion, the arbitrator or arbitrators not yet appointed.

4. For purposes of Article 39 of the ICSID Convention and Article 7 of Schedule C to the ICSID Additional Facility Rules, and without prejudice to an objection to an arbitrator on a ground other than nationality:

(a) the respondent agrees to the appointment of each individual member of a tribunal established under the ICSID Convention or the ICSID Additional Facility Rules;

(b) a claimant referred to in Article 10.16.1(a) may submit a claim to arbitration under this Section, or continue a claim, under the ICSID Convention or the ICSID Additional Facility Rules, only on condition that the claimant agrees in writing to the appointment of each individual member of the tribunal; and

(c) a claimant referred to in Article 10.16.1(b) may submit a claim to arbitration under this Section, or continue a claim, under the ICSID Convention or the ICSID Additional Facility Rules, only on condition that the claimant and the enterprise agree in writing to the appointment of each individual member of the tribunal.

#### Article 10.20: Conduct of the Arbitration

1. The disputing parties may agree on the legal place of any arbitration under the arbitral rules applicable under Article 10.16.3. If the disputing parties fail to reach agreement, the tribunal shall determine the place in accordance with the applicable arbitral rules,

provided that the place shall be in the territory of a State that is a party to the New York Convention.

2. A non-disputing Party may make oral and written submissions to the tribunal regarding the interpretation of this Agreement.

3. The tribunal shall have the authority to accept and consider amicus curiae submissions from a person or entity that is not a disputing party.

4. Without prejudice to a tribunal's authority to address other objections as a preliminary question, a tribunal shall address and decide as a preliminary question any objection by the respondent that, as a matter of law, a claim submitted is not a claim for which an award in favor of the claimant may be made under Article 10.26.

(a) Such objection shall be submitted to the tribunal as soon as possible after the tribunal is constituted, and in no event later than the date the tribunal fixes for the respondent to submit its counter-memorial (or, in the case of an amendment to the notice of arbitration, the date the tribunal fixes for the respondent to submit its response to the amendment).

(b) On receipt of an objection under this paragraph, the tribunal shall suspend any proceedings on the merits, establish a schedule for considering the objection consistent with any schedule it has established for considering any other preliminary question, and issue a decision or award on the objection, stating the grounds therefor.

(c) In deciding an objection under this paragraph, the tribunal shall assume to be true claimant's factual allegations in support of any claim in the notice of arbitration (or any amendment thereof) and, in disputes brought under the UNCITRAL Arbitration Rules, the statement of claim referred to in Article 18 of the UNCITRAL Arbitration Rules. The tribunal may also consider any relevant facts not in dispute.

(d) The respondent does not waive any objection as to competence or any argument on the merits merely because the respondent did or did not raise an objection under this paragraph or make use of the expedited procedure set out in paragraph 5.

5. In the event that the respondent so requests within 45 days after the tribunal is constituted, the tribunal shall decide on an expedited basis an objection under paragraph 4 and any objection that the dispute is not within the tribunal's competence. The tribunal shall suspend any proceedings on the merits and issue a decision or award on the objection(s), stating the grounds therefor, no later than 150 days after the date of the request. However, if a disputing party requests a hearing, the tribunal may take an additional 30 days to issue the decision or award. Regardless of whether a hearing is requested, a tribunal may, on a showing of extraordinary cause, delay issuing its decision or award by an additional brief period, which may not exceed 30 days.

6. When it decides a respondent's objection under paragraph 4 or 5, the tribunal may, if warranted, award to the prevailing disputing party reasonable costs and attorney's fees incurred in submitting or opposing the objection. In determining whether such an award is warranted, the tribunal shall consider whether either the claimant's claim or the respondent's objection was frivolous, and shall provide the disputing parties a reasonable opportunity to comment.

7. A respondent may not assert as a defense, counterclaim, right of set-off, or for any other reason that the claimant has received or will receive indemnification or other compensation for all or part of the alleged damages pursuant to an insurance or guarantee contract.

8. A tribunal may order an interim measure of protection to preserve the rights of a disputing party, or to ensure that the tribunal's jurisdiction is made fully effective,

including an order to preserve evidence in the possession or control of a disputing party or to protect the tribunal's jurisdiction. A tribunal may not order attachment or enjoin the application of a measure alleged to constitute a breach referred to in Article 10.16. For purposes of this paragraph, an order includes a recommendation.

9. (a) In any arbitration conducted under this Section, at the request of a disputing party, a tribunal shall, before issuing a decision or award on liability, transmit its proposed decision or award to the disputing parties and to the non-disputing Parties. Within 60 days after the tribunal transmits its proposed decision or award, the disputing parties may submit written comments to the tribunal concerning any aspect of its proposed decision or award. The tribunal shall consider any such comments and issue its decision or award not later than 45 days after the expiration of the 60-day comment period.

(b) Subparagraph (a) shall not apply in any arbitration conducted pursuant to this Section for which an appeal has been made available pursuant to paragraph 10 or Annex 10-F.

10. If a separate multilateral agreement enters into force as between the Parties that establishes an appellate body for purposes of reviewing awards rendered by tribunals constituted pursuant to international trade or investment arrangements to hear investment disputes, the Parties shall strive to reach an agreement that would have such appellate body review awards rendered under Article 10.26 in arbitrations commenced after the multilateral agreement enters into force as between the Parties.

#### Article 10.21: Transparency of Arbitral Proceedings

1. Subject to paragraphs 2 and 4, the respondent shall, after receiving the following documents, promptly transmit them to the non-disputing Parties and make them available to the public:

- (a) the notice of intent;
- (b) the notice of arbitration;
- (c) pleadings, memorials, and briefs submitted to the tribunal by a disputing party and any written submissions submitted pursuant to Article 10.20.2 and 10.20.3 and Article 10.25;
- (d) minutes or transcripts of hearings of the tribunal, where available; and
- (e) orders, awards, and decisions of the tribunal.

2. The tribunal shall conduct hearings open to the public and shall determine, in consultation with the disputing parties, the appropriate logistical arrangements. However, any disputing party that intends to use information designated as protected information in a hearing shall so advise the tribunal. The tribunal shall make appropriate arrangements to protect the information from disclosure.

3. Nothing in this Section requires a respondent to disclose protected information or to furnish or allow access to information that it may withhold in accordance with Article 21.2 (Essential Security) or Article 21.5 (Disclosure of Information).

4. Any protected information that is submitted to the tribunal shall be protected from disclosure in accordance with the following procedures:

- (a) Subject to subparagraph (d), neither the disputing parties nor the tribunal shall disclose to any non-disputing Party or to the public any protected information where the disputing party that provided the information clearly designates it in accordance with subparagraph (b);
- (b) Any disputing party claiming that certain information constitutes protected

information shall clearly designate the information at the time it is submitted to the tribunal;

(c) A disputing party shall, at the same time that it submits a document containing information claimed to be protected information, submit a redacted version of the document that does not contain the information. Only the redacted version shall be provided to the non-disputing Parties and made public in accordance with paragraph 1; and

(d) The tribunal shall decide any objection regarding the designation of information claimed to be protected information. If the tribunal determines that such information was not properly designated, the disputing party that submitted the information may (i) withdraw all or part of its submission containing such information, or (ii) agree to resubmit complete and redacted documents with corrected designations in accordance with the tribunal's determination and subparagraph (c). In either case, the other disputing party shall, whenever necessary, resubmit complete and redacted documents which either remove the information withdrawn under (i) by the disputing party that first submitted the information or redesignate the information consistent with the designation under (ii) of the disputing party that first submitted the information.

5. Nothing in this Section requires a respondent to withhold from the public information required to be disclosed by its laws.

#### Article 10.22: Governing Law

1. Subject to paragraph 3, when a claim is submitted under Article 10.16.1(a)(i)(A) or Article 10.16.1(b)(i)(A), the tribunal shall decide the issues in dispute in accordance with this Agreement and applicable rules of international law.

2. Subject to paragraph 3 and the other terms of this Section, when a claim is submitted under Article 10.16.1(a)(i)(B) or (C), or Article 10.16.1(b)(i)(B) or (C), the tribunal shall apply:

(a) the rules of law specified in the pertinent investment agreement or investment authorization, or as the disputing parties may otherwise agree; or

(b) if the rules of law have not been specified or otherwise agreed:

(i) the law of the respondent, including its rules on the conflict of laws; (the "law of the respondent" means the law that a domestic court or tribunal of proper jurisdiction would apply in the same case) and

(ii) such rules of international law as may be applicable.

3. A decision of the Commission declaring its interpretation of a provision of this Agreement under Article 19.1.3(c) (The Free Trade Commission) shall be binding on a tribunal established under this Section, and any decision or award issued by the tribunal must be consistent with that decision.

#### Article 10.23: Interpretation of Annexes

1. Where a respondent asserts as a defense that the measure alleged to be a breach is within the scope of Annex I or Annex II, the tribunal shall, on request of the respondent, request the interpretation of the Commission on the issue. The Commission shall submit in writing any decision declaring its interpretation under Article 19.1.3(c) (The Free Trade Commission) to the tribunal within 60 days of delivery of the request.

2. A decision issued by the Commission under paragraph 1 shall be binding on the tribunal, and any decision or award issued by the tribunal must be consistent with that decision. If the Commission fails to issue such a decision within 60 days, the tribunal

shall decide the issue.

#### Article 10.24: Expert Reports

Without prejudice to the appointment of other kinds of experts where authorized by the applicable arbitration rules, a tribunal, at the request of a disputing party or, unless the disputing parties disapprove, on its own initiative, may appoint one or more experts to report to it in writing on any factual issue concerning environmental, health, safety, or other scientific matters raised by a disputing party in a proceeding, subject to such terms and conditions as the disputing parties may agree.

#### Article 10.25: Consolidation

1. Where two or more claims have been submitted separately to arbitration under Article 10.16.1 and the claims have a question of law or fact in common and arise out of the same events or circumstances, any disputing party may seek a consolidation order in accordance with the agreement of all the disputing parties sought to be covered by the order or the terms of paragraphs 2 through 10.

2. A disputing party that seeks a consolidation order under this Article shall deliver, in writing, a request to the Secretary-General and to all the disputing parties sought to be covered by the order and shall specify in the request:

(a) the names and addresses of all the disputing parties sought to be covered by the order;

(b) the nature of the order sought; and

(c) the grounds on which the order is sought.

3. Unless the Secretary-General finds within 30 days after receiving a request under paragraph 2 that the request is manifestly unfounded, a tribunal shall be established under this Article.

4. Unless all the disputing parties sought to be covered by the order otherwise agree, a tribunal established under this Article shall comprise three arbitrators:

(a) one arbitrator appointed by agreement of the claimants;

(b) one arbitrator appointed by the respondent; and

(c) the presiding arbitrator appointed by the Secretary-General, provided, however, that the presiding arbitrator shall not be a national of any Party.

5. If, within 60 days after the Secretary-General receives a request made under paragraph 2, the respondent fails or the claimants fail to appoint an arbitrator in accordance with paragraph 4, the Secretary-General, on the request of any disputing party sought to be covered by the order, shall appoint the arbitrator or arbitrators not yet appointed. If the respondent fails to appoint an arbitrator, the Secretary-General shall appoint a national of the disputing Party, and if the claimants fail to appoint an arbitrator, the Secretary-General shall appoint a national of a Party of the claimants.

6. Where a tribunal established under this Article is satisfied that two or more claims that have been submitted to arbitration under Article 10.16.1 have a question of law or fact in common, and arise out of the same events or circumstances, the tribunal may, in the interest of fair and efficient resolution of the claims, and after hearing the disputing parties, by order:

(a) assume jurisdiction over, and hear and determine together, all or part of the claims;

(b) assume jurisdiction over, and hear and determine one or more of the claims, the determination of which it believes would assist in the resolution of the others; or

(c) instruct a tribunal previously established under Article 10.19 to assume jurisdiction

over, and hear and determine together, all or part of the claims, provided that

- (i) that tribunal, at the request of any claimant not previously a disputing party before that tribunal, shall be reconstituted with its original members, except that the arbitrator for the claimants shall be appointed pursuant to paragraphs 4(a) and 5; and
- (ii) that tribunal shall decide whether any prior hearing shall be repeated.

7. Where a tribunal has been established under this Article, a claimant that has submitted a claim to arbitration under Article 10.16.1 and that has not been named in a request made under paragraph 2 may make a written request to the tribunal that it be included in any order made under paragraph 6, and shall specify in the request:

- (a) the name and address of the claimant;
- (b) the nature of the order sought; and
- (c) the grounds on which the order is sought.

The claimant shall deliver a copy of its request to the Secretary-General.

8. A tribunal established under this Article shall conduct its proceedings in accordance with the UNCITRAL Arbitration Rules, except as modified by this Section.

9. A tribunal established under Article 10.19 shall not have jurisdiction to decide a claim, or a part of a claim, over which a tribunal established or instructed under this Article has assumed jurisdiction.

10. On application of a disputing party, a tribunal established under this Article, pending its decision under paragraph 6, may order that the proceedings of a tribunal established under Article 10.19 be stayed, unless the latter tribunal has already adjourned its proceedings.

#### Article 10.26: Awards

1. Where a tribunal makes a final award against a respondent, the tribunal may award, separately or in combination, only:

- (a) monetary damages and any applicable interest;
- (b) restitution of property, in which case the award shall provide that the respondent may pay monetary damages and any applicable interest in lieu of restitution.

A tribunal may also award costs and attorney's fees in accordance with this Section and the applicable arbitration rules.

2. Subject to paragraph 1, where a claim is submitted to arbitration under Article 10.16.1(b):

- (a) an award of restitution of property shall provide that restitution be made to the enterprise;
- (b) an award of monetary damages and any applicable interest shall provide that the sum be paid to the enterprise; and
- (c) the award shall provide that it is made without prejudice to any right that any person may have in the relief under applicable domestic law.

3. A tribunal is not authorized to award punitive damages.

4. An award made by a tribunal shall have no binding force except between the disputing parties and in respect of the particular case.

5. Subject to paragraph 6 and the applicable review procedure for an interim award, a disputing party shall abide by and comply with an award without delay.

6. A disputing party may not seek enforcement of a final award until:

- (a) in the case of a final award made under the ICSID Convention
  - (i) 120 days have elapsed from the date the award was rendered and no disputing party has requested revision or annulment of the award; or

- (ii) revision or annulment proceedings have been completed; and
- (b) in the case of a final award under the ICSID Additional Facility Rules or the UNCITRAL Arbitration Rules
  - (i) 90 days have elapsed from the date the award was rendered and no disputing party has commenced a proceeding to revise, set aside, or annul the award; or
  - (ii) a court has dismissed or allowed an application to revise, set aside, or annul the award and there is no further appeal.
- 7. Each Party shall provide for the enforcement of an award in its territory.
- 8. If the respondent fails to abide by or comply with a final award, on delivery of a request by the Party of the claimant, a panel shall be established under Article 20.6 (Request for an Arbitral Panel). The requesting Party may seek in such proceedings:
  - (a) a determination that the failure to abide by or comply with the final award is inconsistent with the obligations of this Agreement; and
  - (b) in accordance with Article 20.13 (Initial Report), a recommendation that the respondent abide by or comply with the final award.
- 9. A disputing party may seek enforcement of an arbitration award under the ICSID Convention, the New York Convention, or the Inter-American Convention regardless of whether proceedings have been taken under paragraph 8.
- 10. A claim that is submitted to arbitration under this Section shall be considered to arise out of a commercial relationship or transaction for purposes of Article I of the New York Convention and Article I of the Inter-American Convention.

##### Public Debt

The rescheduling of the debts of a Central American Party or the Dominican Republic, or of such Party's institutions owned or controlled through ownership interests by such Party, owed to the United States and the rescheduling of any of such Party's debts owed to creditors in general are not subject to any provision of Section A other than Articles 10.3 and 10.4.

#### Annex 10-B

##### Customary International Law

The Parties confirm their shared understanding that "customary international law" generally and as specifically referenced in Articles 10.5, 10.6, and Annex 10-C results from a general and consistent practice of States that they follow from a sense of legal obligation. With regard to Article 10.5, the customary international law minimum standard of treatment of aliens refers to all customary international law principles that protect the economic rights and interests of aliens.

#### Annex 10-C

##### Expropriation

The Parties confirm their shared understanding that:

1. Article 10.7.1 is intended to reflect customary international law concerning the obligation of States with respect to expropriation.
2. An action or a series of actions by a Party cannot constitute an expropriation unless it interferes with a tangible or intangible property right or property interest in an investment.
3. Article 10.7.1 addresses two situations. The first is direct expropriation, where an investment is nationalized or otherwise directly expropriated through formal transfer of

title or outright seizure.

4. The second situation addressed by Article 10.7.1 is indirect expropriation, where an action or series of actions by a Party has an effect equivalent to direct expropriation without formal transfer of title or outright seizure.

(a) The determination of whether an action or series of actions by a Party, in a specific fact situation, constitutes an indirect expropriation, requires a case-by-case, fact-based inquiry that considers, among other factors:

(i) the economic impact of the government action, although the fact that an action or series of actions by a Party has an adverse effect on the economic value of an investment, standing alone, does not establish that an indirect expropriation has occurred;

(ii) the extent to which the government action interferes with distinct, reasonable investment-backed expectations; and

(iii) the character of the government action.

(b) Except in rare circumstances, nondiscriminatory regulatory actions by a Party that are designed and applied to protect legitimate public welfare objectives, such as public health, safety, and the environment, do not constitute indirect expropriations.

#### Annex 10-D

##### Treatment in Case of Strife

1. No investor may submit to arbitration under Section B a claim alleging that Guatemala has breached Article 10.6.2 as a result of an armed movement or civil disturbance and that the investor or the investor's enterprise has incurred loss or damage by reason of or arising out of such movement or disturbance.

2. No investor of Guatemala may submit to arbitration under Section B a claim alleging that any other Party has breached Article 10.6.2(b).

3. The limitation set out in paragraph 1 is without prejudice to other limitations existing in Guatemala's law with respect to an investor's claim that Guatemala has breached Article 10.6.2.

#### Annex 10-E

##### Submission of a Claim to Arbitration

1. An investor of the United States may not submit to arbitration under Section B a claim that a Central American Party or the Dominican Republic has breached an obligation under Section A either:

(a) on its own behalf under Article 10.16.1(a), or

(b) on behalf of an enterprise of a Central American Party or the Dominican Republic that is a juridical person that the investor owns or controls directly or indirectly under Article 10.16.1(b), if the investor or the enterprise, respectively, has alleged that breach of an obligation under Section A in proceedings before a court or administrative tribunal of a Central American Party or the Dominican Republic.

2. For greater certainty, if an investor of the United States elects to submit a claim of the type described in paragraph 1 to a court or administrative tribunal of a Central American Party or the Dominican Republic, that election shall be definitive, and the investor may not thereafter submit the claim to arbitration under Section B.

3. Notwithstanding Article 10.18, an investor of the United States may not submit to arbitration under Section B a claim relating to an investment in sovereign debt instruments with a maturity of less than one year unless one year has elapsed from the

date of the events giving rise to the claim.

#### Annex 10-F

##### Appellate Body or Similar Mechanism

1. Within three months of the date of entry into force of this Agreement, the Commission shall establish a Negotiating Group to develop an appellate body or similar mechanism to review awards rendered by tribunals under this Chapter. Such appellate body or similar mechanism shall be designed to provide coherence to the interpretation of investment provisions in the Agreement. The Commission shall direct the Negotiating Group to take into account the following issues, among others:

- (a) the nature and composition of an appellate body or similar mechanism;
- (b) the applicable scope and standard of review;
- (c) transparency of proceedings of an appellate body or similar mechanism;
- (d) the effect of decisions by an appellate body or similar mechanism;
- (e) the relationship of review by an appellate body or similar mechanism to the arbitral rules that may be selected under Articles 10.16 and 10.25; and
- (f) the relationship of review by an appellate body or similar mechanism to existing domestic laws and international law on the enforcement of arbitral awards.

2. The Commission shall direct the Negotiating Group to provide to the Commission, within one year of establishment of the Negotiating Group, a draft amendment to the Agreement that establishes an appellate body or similar mechanism. On approval of the draft amendment by the Parties, in accordance with Article 22.2 (Amendments), the Agreement shall be so amended.

## Chapter Eleven

### Cross-Border Trade in Services

#### Article 11.1: Scope and Coverage

1. This Chapter applies to measures adopted or maintained by a Party affecting cross border trade in services by service suppliers of another Party. Such measures include measures affecting:

- (a) the production, distribution, marketing, sale, and delivery of a service;
- (b) the purchase or use of, or payment for, a service;
- (c) the access to and use of distribution, transport, or telecommunications networks and services in connection with the supply of a service;
- (d) the presence in its territory of a service supplier of another Party; and
- (e) the provision of a bond or other form of financial security as a condition for the supply of a service.

2. For purposes of this Chapter, “measures adopted or maintained by a Party” means measures adopted or maintained by:

- (a) central, regional, or local governments and authorities; and
- (b) non-governmental bodies in the exercise of powers delegated by central, regional, or local governments or authorities.

3. Articles 11.4, 11.7, and 11.8 also apply to measures by a Party affecting the supply of a service in its territory by an investor of another Party as defined in Article 10.28 (Definitions) or a covered investment. (The Parties understand that nothing in this Chapter, including this paragraph, is subject to investor-state dispute settlement pursuant to Section B of Chapter Ten (Investment)).

4. This Chapter does not apply to:

- (a) financial services, as defined in Article 12.20 (Definitions), except as provided in paragraph 3;
- (b) air services, including domestic and international air transportation services, whether scheduled or non-scheduled, and related services in support of air services, other than:
  - (i) aircraft repair and maintenance services during which an aircraft is withdrawn from service, and
  - (ii) specialty air services;
- (c) procurement; or
- (d) subsidies or grants provided by a Party, including government-supported loans, guarantees and insurance.

5. This Chapter does not impose any obligation on a Party with respect to a national of another Party seeking access to its employment market, or employed on a permanent basis in its territory, and does not confer any right on that national with respect to that access or employment.

6. This Chapter does not apply to services supplied in the exercise of governmental authority. A “service supplied in the exercise of governmental authority” means any service that is supplied neither on a commercial basis, nor in competition with one or more service suppliers.

#### Article 11.2: National Treatment

1. Each Party shall accord to service suppliers of another Party treatment no less favorable than that it accords, in like circumstances, to its own service suppliers.

2. The treatment to be accorded by a Party under paragraph 1 means, with respect to a regional level of government, treatment no less favorable than the most favorable

treatment accorded, in like circumstances, by that regional level of government to service suppliers of the Party of which it forms a part.

#### Article 11.3: Most-Favored-Nation Treatment

Each Party shall accord to service suppliers of another Party treatment no less favorable than that it accords, in like circumstances, to service suppliers of any other Party or a non-Party.

#### Article 11.4: Market Access

No Party may adopt or maintain, either on the basis of a regional subdivision or on the basis of its entire territory, measures that:

(a) impose limitations on:

(i) the number of service suppliers whether in the form of numerical quotas, monopolies, exclusive service suppliers, or the requirement of an economic needs test,

(ii) the total value of service transactions or assets in form of numerical quotas or the requirement of an economic needs test,

(iii) the total number of service operations or on the total quantity of services output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test, (this clause does not cover measures of a Party that limit inputs for the supply of services) or

(iv) the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test; or

(b) restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service.

#### Article 11.5: Local Presence

No Party may require a service supplier of another Party to establish or maintain a representative office or any form of enterprise, or to be resident, in its territory as a condition for the cross-border supply of a service.

#### Article 11.6: Non-conforming Measures

1. Articles 11.2, 11.3, 11.4, and 11.5 do not apply to:

(a) any existing non-conforming measure that is maintained by a Party at:

(i) the central level of government, as set out by that Party in its Schedule to Annex I;

(ii) a regional level of government, as set out by that Party in its Schedule to Annex I; or

(iii) a local level of government;

(b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or

(c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Articles 11.2, 11.3, 11.4, and 11.5.

2. Articles 11.2, 11.3, 11.4, and 11.5 do not apply to any measure that a Party adopts or maintains with respect to sectors, sub-sectors or activities as set out in its Schedule to Annex II.

#### Article 11.7: Transparency in Developing and Applying Regulations (For greater

certainty, “regulations” includes regulations establishing or applying to licensing authorization or criteria)

Further to Chapter Eighteen (Transparency):

- (a) each Party shall maintain or establish appropriate mechanisms for responding to inquiries from interested persons regarding its regulations relating to the subject matter of this Chapter;
- (b) at the time it adopts final regulations relating to the subject matter of this Chapter, each Party shall, to the extent possible, including on request, address in writing substantive comments received from interested persons with respect to the proposed regulations; and
- (c) to the extent possible, each Party shall allow a reasonable time between publication of final regulations and their effective date.

#### Article 11.8: Domestic Regulation

1. Where a Party requires authorization for the supply of a service, the Party's competent authorities shall, within a reasonable time after the submission of an application considered complete under its laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the Party's competent authorities shall provide, without undue delay, information concerning the status of the application. This obligation shall not apply to authorization requirements that are within the scope of Article 11.6.2.
2. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards, and licensing requirements do not constitute unnecessary barriers to trade in services, each Party shall endeavor to ensure, as appropriate for individual sectors, that any such measures that it adopts or maintains are:
  - (a) based on objective and transparent criteria, such as competence and the ability to supply the service;
  - (b) not more burdensome than necessary to ensure the quality of the service; and
  - (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.
3. If the results of the negotiations related to Article VI:4 of the GATS (or the results of any similar negotiations undertaken in other multilateral fora in which the Parties participate) enter into effect for each Party, this Article shall be amended, as appropriate, after consultations between the Parties, to bring those results into effect under this Agreement. The Parties will coordinate on such negotiations as appropriate.

#### Article 11.9: Mutual Recognition

1. For the purposes of the fulfillment, in whole or in part, of its standards or criteria for the authorization, licensing, or certification of services suppliers, and subject to the requirements of paragraph 4, a Party may recognize the education or experience obtained, requirements met, or licenses or certifications granted in a particular country, including another Party and a non-Party. Such recognition, which may be achieved through harmonization or otherwise, may be based upon an agreement or arrangement with the country concerned or may be accorded autonomously.
2. Where a Party recognizes, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of another Party or a non-Party, nothing in Article 11.3 shall be

construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licenses or certifications granted in the territory of any other Party.

3. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for another Party, if that other Party is interested, to negotiate its accession to such an agreement or arrangement or to negotiate a comparable one with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for another Party to demonstrate that education, experience, licenses, or certifications obtained or requirements met in that other Party's territory should be recognized.

4. No Party may accord recognition in a manner that would constitute a means of discrimination between countries in the application of its standards or criteria for the authorization, licensing, or certification of services suppliers, or a disguised restriction on trade in services.

5. Annex 11.9 applies to measures adopted or maintained by a Party relating to the licensing or certification of professional service suppliers as set out in that Annex.

#### Article 11.10: Transfers and Payments

1. Each Party shall permit all transfers and payments relating to the cross-border supply of services to be made freely and without delay into and out of its territory.

2. Each Party shall permit such transfers and payments relating to the cross-border supply of services to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.

3. Notwithstanding paragraphs 1 and 2, a Party may prevent a transfer or payment through the equitable, non-discriminatory, and good faith application of its laws relating to:

- (a) bankruptcy, insolvency, or the protection of the rights of creditors;
- (b) issuing, trading, or dealing in securities, futures, options, or derivatives;
- (c) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities;
- (d) criminal or penal offenses; or
- (e) ensuring compliance with orders or judgments in judicial or administrative proceedings.

#### Article 11.11: Implementation

The Parties shall consult annually, or as otherwise agreed, to review the implementation of this Chapter and consider other issues of mutual interest.

#### Article 11.12: Denial of Benefits

1. A Party may deny the benefits of this Chapter to a service supplier of another Party if the service is being supplied by an enterprise owned or controlled by persons of a non-Party, and the denying Party:

- (a) does not maintain diplomatic relations with the non-Party; or
- (b) adopts or maintains measures with respect to the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise.

2. Subject to Articles 18.3 (Notification and Provision of Information) and 20.4 (Consultations), a Party may deny the benefits of this Chapter to a service supplier of

another Party that is an enterprise of such other Party if the enterprise has no substantial business activities in the territory of any Party, other than the denying Party, and persons of a non-Party, or the denying Party, own or control the enterprise.

#### Article 11.13: Specific Commitments

##### 1. Express Delivery Services:

(a) The Parties affirm that measures affecting express delivery services are subject to this Agreement.

(b) For purposes of this Agreement, express delivery services means the collection, transport, and delivery, of documents, printed matter, parcels, goods, or other items on an expedited basis, while tracking and maintaining control of these items throughout the supply of the service. Express delivery services do not include

(i) air transport services,

(ii) services supplied in the exercise of governmental authority, or

(iii) maritime transport services (For greater certainty, for the United States, express delivery services do not include delivery of letters subject to the Private Express Statutes (18 U.S.C. § 1693 et seq., 39 U.S.C. § 601 et seq.), but do include delivery of letters subject to the exceptions to, or suspensions promulgated under, those statutes, which permit private delivery of extremely urgent letters).

(c) The Parties express their desire to maintain at least the level of market openness they provided for express delivery services existing on the date this Agreement is signed.

(d) Neither a Central American Party nor the Dominican Republic may adopt or maintain any restriction on express delivery services that is not in existence on the date this Agreement is signed. Each such Party confirms that it does not intend to direct revenues from its postal monopoly to benefit express delivery services as defined in subparagraph (b). Under title 39 of the United States Code, an independent government agency determines whether postal rates meet the requirement that each class of mail or type of mail service bear the direct and indirect postal costs attributable to that class or type plus that portion of all other costs of the U.S. Postal Service reasonably assignable to such class or type.

(e) Each Party shall ensure that, where its monopoly supplier of postal services competes, either directly or through an affiliated company, in the supply of express delivery services outside the scope of its monopoly rights, such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with the Party's obligations under Articles 11.2, 11.3, 11.4, 10.3 (National Treatment), or 10.4 (Most-Favored-Nation Treatment). The Parties also reaffirm their obligations under Article VIII of the GATS (or greater certainty, the Parties reaffirm that nothing in this Article is subject to investor-state dispute settlement pursuant to Section B of Chapter Ten (Investment)).

2. A Party's Section of Annex 11.13 sets out specific commitments by that Party.

#### Article 11.14: Definitions

For purposes of this Chapter:

cross-border trade in services or cross-border supply of services means the supply of a service:

(a) from the territory of one Party into the territory of another Party;

(b) in the territory of one Party by a person of that Party to a person of another Party;

or

(c) by a national of a Party in the territory of another Party; but does not include the supply of a service in the territory of a Party by an investor of another Party as defined in Article 10.28 (Definitions) or a covered investment;

specialty air services means any non-transportation air services, such as aerial fire fighting, sightseeing, spraying, surveying, mapping, photography, parachute jumping, glider towing, and helicopter-lift for logging and construction, and other airborne agricultural, industrial, and inspection services.

#### Annex 11.9

##### Professional Services

##### Development of Professional Standards

1. The Parties shall encourage the relevant bodies in their respective territories to develop mutually acceptable standards and criteria for licensing and certification of professional service suppliers and to provide recommendations on mutual recognition to the Commission.
2. The standards and criteria referred to in paragraph 1 may be developed with regard to the following matters:
  - (a) education – accreditation of schools or academic programs;
  - (b) examinations – qualifying examinations for licensing, including alternative methods of assessment such as oral examinations and interviews;
  - (c) experience – length and nature of experience required for licensing;
  - (d) conduct and ethics – standards of professional conduct and the nature of disciplinary action for non-conformity with those standards;
  - (e) professional development and re-certification – continuing education and ongoing requirements to maintain professional certification;
  - (f) scope of practice – extent of, or limitations on, permissible activities;
  - (g) local knowledge – requirements for knowledge of such matters as local laws, regulations, language, geography, or climate; and
  - (h) consumer protection – alternatives to residency requirements, including bonding, professional liability insurance, and client restitution funds, to provide for the protection of consumers.
3. On receipt of a recommendation referred to in paragraph 1, the Commission shall review the recommendation within a reasonable time to determine whether it is consistent with this Agreement. Based on the Commission’s review, each Party shall

encourage its respective competent authorities, where appropriate, to implement the recommendation within a mutually agreed time.

#### Temporary licensing

4. Where the Parties agree, each Party shall encourage the relevant bodies in its territory to develop procedures for the temporary licensing of professional service suppliers of another Party.

#### Review

5. The Commission shall review the implementation of this Annex at least once every three years.

### Annex 11.13

#### Specific Commitments

##### Section A: Costa Rica

1. Costa Rica shall repeal articles 2 and 9 of Law No. 6209, entitled Ley de Protección al Representante de Casas Extranjeras, dated 9 March 1978, and its regulation, and item b) of article 361 of the Código de Comercio, Law No. 3284 of 24 April 1964, effective on the date of entry into force of this Agreement.

2. Subject to paragraph 1, Costa Rica shall enact a new legal regime that shall become applicable to contracts of representation, distribution, or production, and:

(a) shall apply principles of general contract law to such contracts;

(b) shall be consistent with the obligations of this Agreement and the principle of freedom of contract;

(c) shall treat such contracts as establishing an exclusive relationship only if the contract explicitly states that the relationship is exclusive;

(d) shall provide that the termination of such contracts either on their termination dates or in the circumstances described in subparagraph (e) is just cause for a goods or service supplier of another Party to terminate the contract or allow the contract to expire without renewal; and

(e) will allow contracts with no termination date to be terminated by any of the parties by giving ten months advance termination notice.

3. The absence of an express provision for settlement of disputes in a contract of representation, distribution, or production shall give rise to a presumption that the parties intended to settle any disputes through binding arbitration. Such arbitration may take place in Costa Rica. However, the presumption of an intent to submit to arbitration shall not apply where any of the parties objects to arbitration.

4. The United States and Costa Rica shall encourage parties to existing contracts of representation, distribution, or production to renegotiate such contracts so as to make them subject to the new legal regime enacted in accordance with paragraph 2.

5. In any case, the repeal of articles 2 and 9 of Law No. 6209 shall not impair any vested right, when applicable, derived from that legislation and recognized under Article 34 of the Constitución Política de la República de Costa Rica.

6. Costa Rica shall, to the maximum extent possible, encourage and facilitate the use of arbitration for the settlement of disputes in contracts of representation, distribution, or production. To this end, Costa Rica shall endeavor to facilitate the operation of arbitration centers and other effective means of alternative resolution of claims arising pursuant to Law No. 6209 or the new legal regime enacted in accordance with paragraph 2, and shall encourage the development of rules for such arbitrations that provide, to the greatest extent possible, for the prompt, low-cost, and fair resolution of such claims.

7. For purposes of this Section:

- (a) contract of representation, distribution, or production has the same meaning as under Law No. 6209; and
- (b) termination date means the date provided in the contract for the contract to end, or the end of a contract extension period agreed upon by the parties to the contract.

#### Section B: The Dominican Republic

1. The Dominican Republic shall not apply Law No. 173 to any covered contract signed after the date of entry into force of this Agreement unless the contract explicitly provides for the application of Law No. 173 and in place of Law No. 173 shall:

- (a) apply principles of the Código Civil of the Dominican Republic to the covered contract;
- (b) treat the covered contract in a manner consistent with the obligations of this Agreement and the principle of freedom of contract;
- (c) treat the termination of the covered contract, either on its termination date or pursuant to subparagraph (d), as just cause for a goods or service supplier to terminate the contract or allow the contract to expire without renewal;
- (d) if the covered contract has no termination date, allow it to be terminated by any of the parties by giving six months advance termination notice;
- (e) provide that after the termination of the covered contract or the decision not to renew it:
  - (i) if the covered contract contains an indemnification provision, including a provision providing for no indemnification, the indemnification shall be based on such provision;
  - (ii) if the covered contract contains no such provision, any indemnification shall be based on actual economic damages and not on a statutory formula;
  - (iii) the principal shall honor any pending warranties; and
  - (iv) the principal shall compensate the distributor for the value of any inventory that the distributor is unable to sell by reason of the termination or decision not to renew the contract. The value of inventory shall include any customs duties, surcharges, freight expenses, internal movement costs, and inventory carrying costs paid by the distributor;
- (f) allow disputes arising from the covered contract to be resolved through binding arbitration; and
- (g) allow the parties to the covered contract to establish in the contract the mechanisms and forums that will be available in the case of disputes.

Nothing in subparagraph (c) shall prevent parties from demanding indemnification, when appropriate, in the form, type, and amount agreed in the contract.

2. If Law No. 173 applies to a covered contract, either because the contract was signed before the entry into force of this Agreement or the contract explicitly provides for the application of Law No. 173, and the contract is registered with the Banco Central in accordance with Article 10 of Law No. 173, the Dominican Republic shall provide, consistent with articles 46 and 47 of the Constitución de la República Dominicana, that:

- (a) the amount of an indemnity for termination of a covered contract based on the factors listed in Article 3 of Law No. 173 shall be no greater than would be available to the claimant under the Código Civil of the Dominican Republic;
- (b) during or after the conciliation process under Article 7 of Law No. 173, the parties to a contract may agree to resolve the dispute through binding arbitration; and
- (c) the Government of the Dominican Republic and the conciliation authorities shall take all appropriate steps to encourage the resolution of disputes arising under covered

contracts through binding arbitration.

3. For all covered contracts,

(a) a goods or service supplier shall not be required to pay damages or an indemnity for terminating a covered contract for just cause or allowing such a contract to expire without renewal for just cause; and

(b) a contract shall be interpreted as establishing an exclusive distributorship only to the extent that the terms of the contract explicitly state that the distributor has exclusive rights to distribute a product or service.

4. The requirement that the parties to a contract seek a negotiated settlement of any dispute through conciliation, and all other provisions of Law No. 173, shall retain all their validity and force for all contractual relations not subject to paragraph 1.

5. For purposes of this Section:

(a) covered contract means a concession contract, as defined in Law No. 173, to which a goods or service supplier of the United States or any enterprise controlled by such supplier is a party;

(b) Law No. 173 means Law No. 173, entitled "Ley sobre Protección a los Agentes Importadores de Mercancías y Productos," dated April 6, 1966, and its modifications; and

(c) termination date means the date provided in the contract, or the end of a period of extension of a contract agreed upon by the parties to the contract.

#### Section C: El Salvador

1. Articles 394 through 399-B of the Código de Comercio shall apply only to contracts that were entered into after such Articles entered into force.

2. Articles 394 through 399-B of the Código de Comercio shall not apply to any distribution contract that a person of the United States enters into after the date of entry into force of this Agreement, as long as the contract so provides.

3. Parties to a distribution contract shall be permitted to establish in the contract the mechanisms and forums that will be available in the case of disputes.

4. If a distribution contract makes specific provision for indemnification, including a provision providing for no indemnification, Article 397 of the Código de Comercio shall not apply to that contract.

5. Under Salvadoran law, a distribution contract shall be treated as exclusive only if the contract states so expressly.

6. El Salvador shall encourage parties to distribution contracts made after the date of entry into force of this Agreement to include provisions providing for binding arbitration of disputes and specifying methods for determining any indemnity.

7. For purposes of this Section, distribution contract has the same meaning as under Articles 394 through 399-B of the Código de Comercio.

#### Section D: Guatemala

1. The Parties recognize that Guatemala, through Decree 8-98 of the Congreso de la República, which reformed the Código de Comercio de Guatemala, repealed Decree 78 71, which regulated contracts of agency, distribution, or representation, and created a new regime for agents of commerce, distributors, and representatives.

2. During the year following the date of entry into force of this Agreement, the United States and Guatemala shall encourage parties to contracts without a fixed termination date that remain subject to Decree 78-71 to renegotiate such contracts. The new

contracts shall be based on the terms and conditions established by mutual agreement of the parties and on the provisions of the Código de Comercio de Guatemala, which shall regulate the activities of agents of commerce, distributors, and representatives. The United States and Guatemala shall also encourage parties to other contracts of agency, distribution, or representation that remain subject to Decree 78-71 to renegotiate such contracts so as to make them subject to the new regime referenced in paragraph 1.

3. The absence of an express provision for settlement of disputes in a contract of agency, distribution, or representation shall, to the extent consistent with the Constitución Política de la República de Guatemala, give rise to a rebuttable presumption that the parties intended to settle any disputes through binding arbitration.

4. The United States and Guatemala shall encourage the parties to contracts of agency, distribution, or representation to settle any disputes through binding arbitration. In particular, if the amount and form of any indemnification payment is not established in the contract and a party wishes to terminate the contract, the parties may agree to arbitration to establish the amount, if any, of the indemnity.

5. For purposes of this Section:

(a) termination date means the date provided in the contract for the contract to end, or the end of a contract extension period agreed upon by the parties to the contract; and

(b) contract of agency, distribution, or representation has the same meaning as under Decree 78-71.

#### Section E: Honduras

1. The obligations set out in paragraphs 2, 3, and 4 shall not apply to:

(a) express conditions included in a contract of representation, distribution, or agency; or

(b) to contractual relations entered into before the date of entry into force of this Agreement.

2. Honduras may not require a goods or service supplier of another Party:

(a) to supply such goods or services in Honduras by means of a representative, agent, or distributor, except as otherwise provided by law for reasons of health, safety, or consumer protection;

(b) to offer or introduce goods or services in the territory of Honduras through existing concessionaires for such goods or services unless a contract between them requires an exclusive relationship; or

(d) to pay damages or an indemnity for terminating a contract of representation, or agency for just cause or allowing such a contract to expire without renewal for just cause.

3. Honduras may not require that a representative, agent, or distributor be a national of Honduras or an enterprise controlled by nationals of Honduras;

4. Honduras shall provide that:

(a) the fact that a contract of representation, distribution, or agency has reached its termination date shall be considered just cause for a goods or service supplier of another Party to terminate the contract or allow the contract to expire without renewal; and

(b) any damages or indemnity for terminating a contract of representation, distribution, or agency, or allowing it to expire without renewal, without just cause shall be based on the general law of contracts.

Nothing in subparagraph (b) shall be construed to require Honduras to adopt any

measure that affects the right of the parties to demand indemnification, when appropriate, in the form, type, and amount agreed in the contract.

5. Honduras shall provide that:

(a) if the amount and form of any indemnification payment is not established in a contract of representation, distribution, or agency and a party wishes to terminate the contract;

(i) the parties may agree to resolve any dispute regarding such payment in the Center for Conciliation and Arbitration of Honduras, or if the parties agree otherwise, to another arbitration center; and

(ii) in such proceeding general principles of contract law will be applied;

(b) Decree Law No. 549 shall apply to a contract only if:

(i) the representative, distributor, or agent has registered with the Secretaría de Estado en los Despachos de Industria y Comercio, which shall be possible only if it is party to a written contract of representation, distribution, or agency; and

(ii) the contract was entered into while such law was in effect; and

(c) in any decision awarding an indemnity calculated under Article 14 of Decree Law No. 549, the amount shall be calculated as of the date of entry into force of this Agreement, expressed in terms of Honduran lempiras as of that date, and converted into U.S. dollars at the exchange rate in effect on the date of the decision.

6. Under Honduran law, a contract of representation, distribution, or agency is exclusive only if the contract states so expressly.

7. For purposes of this Section:

(a) termination date means the date provided in the contract for the contract to end, at 12:00 p.m. on that day, or the end of a contract extension period agreed upon by the parties to the contract; and

(b) contract of representation, distribution, or agency has the same meaning as under Decree Law No. 549.

## Chapter Twelve

### Financial Services

#### Article 12.1: Scope and Coverage

1. This Chapter applies to measures adopted or maintained by a Party relating to:

- (a) financial institutions of another Party;
- (b) investors of another Party, and investments of such investors, in financial institutions in the Party's territory; and
- (c) cross-border trade in financial services.

2. Chapters Ten (Investment) and Eleven (Cross-Border Trade in Services) apply to measures described in paragraph 1 only to the extent that such Chapters or Articles of such Chapters are incorporated into this Chapter.

(a) Articles 10.7 (Expropriation and Compensation), 10.8 (Transfers), 10.11 (Investment and Environment), 10.12 (Denial of Benefits), 10.14 (Special Formalities and Information Requirements), and 11.12 (Denial of Benefits) are hereby incorporated into and made a part of this Chapter.

(b) Section B of Chapter Ten (Investor-State Dispute Settlement) is hereby incorporated into and made a part of this Chapter solely for claims that a Party has breached Article 10.7, 10.8, 10.12, or 10.14, as incorporated into this Chapter.

(c) Article 11.10 (Transfers and Payments) is incorporated into and made a part of this Chapter to the extent that cross-border trade in financial services is subject to obligations pursuant to Article 12.5.

3. This Chapter does not apply to measures adopted or maintained by a Party relating to:

(a) activities or services forming part of a public retirement plan or statutory system of social security; or

(b) activities or services conducted for the account or with the guarantee or using the financial resources of the Party, including its public entities, except that this Chapter shall apply if a Party allows any of the activities or services referred to in subparagraph (a) or (b) to be conducted by its financial institutions in competition with a public entity or a financial institution.

4. (a) Subject to subparagraph (c), for two years beginning on the date of entry into force of this Agreement, this Chapter shall not apply to:

#### Unbundling of Network Elements

4. (a) Each Party shall provide its telecommunications regulatory body the authority to require major suppliers in its territory to offer access to network elements on an unbundled basis on terms, conditions, and at cost-oriented rates that are reasonable, non-discriminatory, and transparent for the supply of public telecommunications services.

- (iii) of a quality no less favorable than that provided by such major suppliers for their own like services, for like services of non-affiliated service suppliers, or for their subsidiaries or other affiliates;
- (iv) in a timely fashion, on terms, conditions (including technical standards and specifications), and, subject to Annex 13.4.5, cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the suppliers need not pay for network components or facilities that they do not require for the service to be provided; and
- (v) on request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

### (b) Options for Interconnecting with Major Suppliers

Each Party shall ensure that suppliers of public telecommunications services of another Party may interconnect their facilities and equipment with those of major suppliers in its territory pursuant to at least one of the following options:

- (i) a reference interconnection offer or another standard interconnection offer containing the rates, terms, and conditions that the major suppliers offer generally to suppliers of public telecommunications services; or
- (ii) the terms and conditions of an interconnection agreement in force or through negotiation of a new interconnection agreement.

(b) Where physical co-location is not practical for technical reasons or because of space limitations, each Party shall ensure that major suppliers in its territory:

(i) provide an alternative solution, or

(ii) facilitate virtual co-location in its territory, on terms, conditions, and at cost-oriented rates that are reasonable, non-discriminatory, and transparent.

(c) Each Party may specify in its law or regulations which premises are subject to subparagraphs (a) and (b).

1. No Party may require an enterprise in its territory that it classifies (for purposes of applying this provision, each Party may, through its telecommunications regulatory body, classify which services in its territory are information services) as a supplier of information services and that supplies such services over facilities that it does not own to:

(a) supply such services to the public generally;

2. Notwithstanding paragraph 1, a Party may take the actions described in subparagraphs (a) through (e) to remedy a practice of a supplier of information services that the Party has found in a particular case to be anti-competitive under its law or regulations, or to otherwise promote competition or safeguard the interests of consumers.

Article 13.7: Independent Regulatory Bodies (Each Party shall endeavor to ensure that its telecommunications regulatory body has adequate resources to carry out its

functions) and Government-Owned Telecommunications Suppliers

1. Each Party shall ensure that its telecommunications regulatory body is separate from, and not accountable to, any supplier of public telecommunications services. To this end, each Party shall ensure that its telecommunications regulatory body does not hold a financial interest or maintain an operating role in any such supplier.
2. Each Party shall ensure that the decisions and procedures of its telecommunications regulatory body are impartial with respect to all interested persons. To this end, each Party shall ensure that any financial interest that it holds in a supplier of public telecommunications services does not influence the decisions and procedures of its telecommunications regulatory body.
3. No Party may accord more favorable treatment to a supplier of public telecommunications services or to a supplier of information services than that accorded to a like supplier of another Party on the ground that the supplier receiving more favorable treatment is owned, wholly or in part, by the national government of the Party.

#### Article 13.8: Universal Service

Each Party shall administer any universal service obligation that it maintains in a transparent, non-discriminatory, and competitively neutral manner and shall ensure that its universal service obligation is not more burdensome than necessary for the kind of universal service that it has defined.

#### Article 13.10: Allocation and Use of Scarce Resources

1. Each Party shall administer its procedures for the allocation and use of scarce telecommunications resources, including frequencies, numbers, and rights-of-way, in an objective, timely, transparent, and non-discriminatory manner.
2. Each Party shall make publicly available the current state of allocated frequency bands but shall not be required to provide detailed identification of frequencies allocated for specific government uses.
3. For greater certainty, a Party's measures regarding the allocation and assignment of spectrum and regarding frequency management are not measures that are per se inconsistent with Article 11.4 (Market Access), which is applied to Chapter Ten (Investment) through Article 11.1.3 (Scope and Coverage). Accordingly, each Party retains the right to establish and apply its spectrum and frequency management policies, which may limit the number of suppliers of public telecommunications services, provided that it does so in a manner that is consistent with this Agreement. Each Party also retains the right to allocate frequency bands taking into account present and future

needs.

#### Article 13.11: Enforcement

Each Party shall provide its competent authority with the authority to establish and enforce the Party's measures relating to the obligations set out in Articles 13.2 through 13.5. Such authority shall include the ability to impose effective sanctions, which may include financial penalties, injunctive relief (on an interim or final basis), or the modification, suspension, and revocation of licenses or other authorizations.

#### Article 13.12: Resolution of Domestic Telecommunications Disputes

Further to Articles 18.4 (Administrative Proceedings) and 18.5 (Review and Appeal), each Party shall ensure the following:

##### Recourse to Telecommunications Regulatory Bodies

(a) (i) Each Party shall ensure that enterprises of another Party may seek review by a telecommunications regulatory body or other relevant body to resolve disputes regarding the Party's measures relating to a matter set out in Articles 13.2 through 13.5.

(ii) Each Party shall ensure that suppliers of public telecommunications services of another Party that have requested interconnection with a major supplier in the Party's territory may seek review, within a reasonable and publicly available period of time after the supplier requests interconnection, by a telecommunications regulatory body (in the United States, this body may be a state regulatory authority) to resolve disputes regarding the terms, conditions, and rates for interconnection with such major supplier.

##### Reconsideration

(b) Each Party shall ensure that any enterprise that is aggrieved or whose interests are adversely affected by a determination or decision of the Party's telecommunications regulatory body may petition the body to reconsider that determination or decision. No Party may permit such a petition to constitute grounds for non-compliance with the determination or decision of the telecommunications regulatory body unless an appropriate authority stays such determination or decision.

##### Judicial Review

(c) Each Party shall ensure that any enterprise that is aggrieved or whose interests are adversely affected by a determination or decision of the Party's telecommunications regulatory body may obtain judicial review of such determination or decision by an independent judicial authority.

#### Article 13.13: Transparency

Further to Articles 18.2 (Publication) and 18.3 (Notification and Provision of Information), each Party shall ensure that:

(a) rulemakings, including the basis for such rulemakings, of its telecommunications regulatory body and end-user tariffs filed with its telecommunications regulatory body are promptly published or otherwise made publicly available;

(b) interested persons are provided with adequate advance public notice of, and the opportunity to comment on, any rulemaking that its telecommunications regulatory body proposes; and

No Party may prevent suppliers of public telecommunications services from having the flexibility to choose the technologies that they use to supply their services, including commercial mobile wireless services, subject to requirements necessary to satisfy legitimate public policy interests.

#### Article 13.15: Forbearance

The Parties recognize the importance of relying on market forces to achieve wide choices in the supply of telecommunications services. To this end, each Party may forbear from applying a regulation to a service that the Party classifies as a public telecommunications service, if its telecommunications regulatory body determines that:

- (a) enforcement of such regulation is not necessary to prevent unreasonable or discriminatory practices;
- (b) enforcement of such regulation is not necessary for the protection of consumers; and
- (c) forbearance is consistent with the public interest, including promoting and enhancing competition between suppliers of public telecommunications services.

## II. Modernization of ICE

Costa Rica shall enact a new legal framework to strengthen ICE, through its appropriate modernization, no later than December 31, 2004.

## III. Selective and Gradual Market Opening Commitments

### 1. Market Access Standstill

(a) As provided in Annex I, Costa Rica shall allow telecommunications services providers of another Party, on a non-discriminatory basis, to effectively compete to supply directly to the customer, through the technology of their choice, the following telecommunications services in its territory: (If Costa Rica requires a license for the provision of a listed service, Costa Rica shall make licenses available within the timeframes specified in this subparagraph)

(i) private network services, (Private network services (closed-user group services) mean networks provided for communications with no interconnection to the public switched telecommunications network at either end. Nothing in this Annex shall be construed to prevent Costa Rica from prohibiting persons operating private networks from using their networks to supply public telecommunications networks or services to third parties) no later than January 1, 2006;

(ii) Internet services, (Internet services shall include electronic mail, retrieval and processing of on-line information and databases and electronic data exchange services, and offering the ability to access the Internet) no later than January 1, 2006; and

## IV. Regulatory Principles (For greater certainty, this section does not create market access rights or obligations)

The regulatory framework on telecommunications services that the Government of Costa Rica shall have in force as of January 1, 2006, shall conform, among others, to the following provisions:

### 1. Universal Service

Costa Rica has the right to define the kind of universal service obligations it wishes to maintain. Such obligations will not be regarded as anti-competitive per se, provided they are administered in a transparent, non-discriminatory, and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined.

### 2. Independence of the Regulatory Authority

Costa Rica shall establish or maintain a regulatory authority for telecommunications services, which shall be separate from and not accountable to any supplier of telecommunications services. Costa Rica shall ensure that its telecommunications regulatory authority is authorized to impose effective sanctions to enforce domestic measures relating to the obligations set out in this Annex. The decisions and the procedures of the regulatory authority shall be impartial with respect to all market participants.

### 3. Transparency

Costa Rica shall ensure that applicable procedures for interconnection to a major supplier and either its interconnection agreements or referenced interconnection offers are made publicly available. Costa Rica shall also make publicly available all licensing or authorization criteria and procedures required for telecommunications service suppliers, and the terms and conditions of all licenses or authorizations issued.

### 4. Allocation and Use of Scarce Resources

Costa Rica shall ensure that procedures for the allocation and use of limited resources, including frequencies, numbers, and rights of way, are administered in an objective, timely, transparent, and non-discriminatory manner by a competent domestic authority. (The competent domestic authority shall be separate from and not accountable to any supplier of telecommunications services). The Republic of Costa Rica shall issue licenses for use of spectrum directly to the service providers, in accordance with article 121, item 14 of the Constitución Política de la República de Costa Rica.

### 5. Regulated Interconnection

(a) Costa Rica shall ensure that public telecommunications services suppliers of another Party are provided interconnection with a major supplier in a timely fashion, under non-discriminatory terms, conditions, (for purposes of subparagraph (a), conditions include technical regulations and specifications, as well as the quality of interconnection) and cost-oriented rates that are transparent, reasonable, and having regard to economic feasibility.

(b) Costa Rica shall also ensure that a service supplier requesting interconnection with a major supplier has recourse to an independent domestic body, (the independent domestic body shall be separate from and not accountable to any supplier of telecommunications services) which may be the regulatory authority referred to in paragraph 2, to resolve disputes regarding appropriate terms, conditions, and rates for interconnection within a reasonable time.

### 6. Access to and Use of the Network

- (ii) provide services to individual or multiple end-users over leased or owned circuits;
  - (iii) connect owned or leased circuits with public telecommunications networks and services in its territory, or across Costa Rica's borders or with circuits leased or owned by another person;
  - (iv) perform switching, signaling, processing, and conversion functions, and use operating protocols of their choice; and
  - (v) use public telecommunications services for the movement of information contained in databases or otherwise stored in machine-readable form in the territory of any Party.
- (b) Notwithstanding subparagraph (a), Costa Rica may take such measures as are necessary to ensure the security and confidentiality of messages or to protect the privacy of non-public personal data of subscribers to public telecommunications services, subject to the requirement that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination or disguised restriction on trade in services.
- (c) Costa Rica shall also ensure that no condition is imposed on access to and use of public telecommunications networks or services, other than that necessary to safeguard the public service responsibilities of providers of public telecommunications networks or services, in particular their ability to make their networks or services available to the public generally, or protect the technical integrity of public telecommunications networks or services.

#### 7. Provision of Information Services

- (a) Costa Rica may not require an enterprise of another Party in its territory that it classifies (the telecommunications regulatory authority will have the competence within its territory to classify the services included in the information services category) as a supplier of information services and that supplies such services over facilities that it does not own to:
- (i) supply such services to the public generally;
  - (ii) cost-justify rates for such services;
  - (iii) file tariffs for such services;
  - (iv) interconnect its networks with any particular customer for the supply of such services; or
  - (v) conform to any particular standard or technical regulation for interconnection other than that for interconnection to a public telecommunications network.
- (b) Notwithstanding subparagraph (a), Costa Rica may take any action referred to in clauses (i) through (v) to remedy a practice of a supplier of information services that it has found in a particular case to be anti-competitive under its law or regulations, or to otherwise promote competition or safeguard the interests of consumers.

#### 8. Competition

Costa Rica shall maintain appropriate measures for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in anti-competitive practices, such as not making available, on a timely basis, to suppliers of public telecommunications services, technical information about essential facilities and commercially relevant information that is necessary for them to provide public telecommunications services.

#### 9. Submarine Cable Systems

Costa Rica shall ensure reasonable and non-discriminatory treatment for access to submarine cable systems (including landing facilities) in its territory, where a supplier is authorized to operate such submarine cable system as a public telecommunications service.

## 10. Flexibility in the Choice of Technologies

Costa Rica may not prevent suppliers of public telecommunications services from having the flexibility to choose the technologies that they use to supply their services, subject to requirements necessary to satisfy legitimate public policy interests.

### Annex 13.3

#### Rural Telephone Suppliers

1. A state regulatory authority in the United States may exempt a rural local exchange carrier, as defined in section 251(f)(2) of the Communications Act of 1934, as amended, from the obligations contained in paragraphs 2 through 4 of Article 13.3 and from the obligations contained in Article 13.4.
2. Article 13.4 does not apply to rural telephone companies in the United States, as defined in section 3(37) of the Communications Act of 1934, as amended, unless a state regulatory authority orders otherwise.
3. El Salvador, Guatemala, Honduras, and Nicaragua may designate and exempt a rural telephone company in its territory from paragraphs 2 through 4 of Article 13.3 and from Article 13.4, provided that the rural telephone company supplies public telecommunications services to fewer than two percent of the subscriber lines installed in the Party's territory. The number of subscriber lines supplied by a rural telephone company includes all subscriber lines supplied by the company, and by its owners, subsidiaries, and affiliates.
4. Nothing in this Annex shall be construed to preclude a Party from imposing the requirements set out in Article 13.4 on rural telephone companies.

### Annex 13.4.5

#### Interconnection

1. For any Party that does not have an existing commitment under the GATS to ensure that a major supplier in its territory provides interconnection at cost-oriented rates, the obligation under Article 13.4.5 to ensure the provision of cost-oriented interconnection shall become effective:
  - (a) two years after the date of entry into force of this Agreement; or
  - (b) January 1, 2007, whichever is earlier.
2. During the transition period, each such Party shall ensure that major suppliers of public telecommunications services in its territory:
  - (a) do not charge interconnection rates above the rates charged on December 31, 2003; and
  - (b) proportionally reduce interconnection rates as necessary to ensure that a cost oriented interconnection rate has been achieved by the end of the transition period.

### Annex 13.4.8

#### Access to Rights-of-Way

Article 13.4.8 shall apply with respect to El Salvador beginning when its law provides that poles, ducts, conducts, and rights-of-way constitute essential resources.

provides, the importance of avoiding barriers to its use and development, and the applicability of WTO rules to measures affecting electronic commerce.

2. For greater certainty, nothing in this Chapter shall be construed to prevent a Party from imposing internal taxes, directly or indirectly, on digital products, provided they are imposed in a manner consistent with this Agreement.

#### Article 14.2: Electronic Supply of Services

For greater certainty, the Parties affirm that measures affecting the supply of a service using electronic means fall within the scope of the obligations contained in the relevant provisions of Chapters Ten (Investment), Eleven (Cross-Border Trade in Services), and Twelve (Financial Services), subject to any exceptions or non-conforming measures set out in this Agreement, which are applicable to such obligations.

3. No Party may accord less favorable treatment to some digital products transmitted electronically than it accords to other like digital products transmitted electronically:

(a) on the basis that

(i) the digital products receiving less favorable treatment are created, produced, published, stored, transmitted, contracted for, commissioned, or first made available on commercial terms outside its territory; or

(ii) the author, performer, producer, developer, or distributor of such digital products is a person of another Party or non-Party,

or

(b) so as otherwise to afford protection to the other like digital products that are created, produced, published, stored, transmitted, contracted for, commissioned, or first made available on commercial terms in its territory. (For greater certainty, this paragraph does not provide any right to a non-Party or a person of a non-Party).

4. No Party may accord less favorable treatment to digital products transmitted electronically:

(a) that are created, produced, published, stored, transmitted, contracted for, commissioned, or first made available on commercial terms in the territory of another Party than it accords to like digital products transmitted electronically that are created, produced, published, stored, transmitted, contracted for, commissioned, or first made available on commercial terms in the territory of a non-Party; or

(b) whose author, performer, producer, developer, or distributor is a person of another Party than it accords to like digital products transmitted electronically whose author, performer, producer, developer, or distributor is a person of a non-Party.

5. Paragraphs 3 and 4 do not apply to any non-conforming measure described in Articles 10.13 (Non-Conforming Measures), 11.6 (Non-Conforming Measures), or 12.9 (Non-Conforming Measures).

## Chapter Fifteen

### Intellectual Property Rights

#### Article 15.1: General Provisions

1. Each Party shall, at a minimum, give effect to this Chapter. A Party may, but shall not be obliged to, implement in its domestic law more extensive protection and enforcement of intellectual property rights than is required under this Chapter, provided that such protection and enforcement does not contravene this Chapter.

2. Each Party shall ratify or accede to the following agreements by the date of entry into force of this Agreement:

(a) the WIPO Copyright Treaty (1996); and

(b) the WIPO Performances and Phonograms Treaty (1996).

3. Each Party shall ratify or accede to the following agreements by January 1, 2006:

(a) the Patent Cooperation Treaty, as revised and amended (1970); and

(b) the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure (1980).

4. Each Party shall ratify or accede to the following agreements by January 1, 2008:

(a) the Convention Relating to the Distribution of Programme-Carrying Signals Transmitted by Satellite (1974); and

(b) the Trademark Law Treaty (1994).

5. (a) Each Party shall ratify or accede to the International Convention for the Protection of New Varieties of Plants (1991) (UPOV Convention 1991). (The Parties recognize that the UPOV Convention 1991 contains exceptions to the breeder's right, including for acts done privately and for non-commercial purposes, such as private and non-commercial acts of farmers. Further, the Parties recognize that the UPOV Convention 1991 provides for restrictions to the exercise of a breeder's right for reasons of public interest, provided that the Parties take all measures necessary to ensure that the breeder receives equitable remuneration. The Parties also understand that each Party may avail itself of these exceptions and restrictions. Finally, the Parties understand that there is no conflict between the UPOV Convention 1991 and a Party's ability to protect and conserve its genetic resources). Nicaragua shall do so by January 1, 2010. Costa Rica shall do so by June 1, 2007. All other Parties shall do so by January 1, 2006.

(b) Subparagraph (a) shall not apply to any Party that provides effective patent protection for plants by the date of entry into force of this Agreement. Such Parties shall make all reasonable efforts to ratify or accede to the UPOV Convention 1991.

6. Each Party shall make all reasonable efforts to ratify or accede to the following agreements:

(a) the Patent Law Treaty (2000);

(b) the Hague Agreement Concerning the International Registration of Industrial Designs (1999); and

(c) the Protocol Relating to the Madrid Agreement Concerning the International Registration of Marks (1989).

7. Further to Article 1.3 (Relation to Other Agreements), the Parties affirm their existing rights and obligations under the TRIPS Agreement and intellectual property agreements concluded or administered under the auspices of the World Intellectual Property Organization (WIPO) and to which they are party.

8. In respect of all categories of intellectual property covered in this Chapter, each Party shall accord to nationals (for purposes of Articles 15.1.8, 15.1.9, 15.4.2, and 15.7.1, a national of a Party shall also mean, in respect of the relevant right, an entity located in

that Party that would meet the criteria for eligibility for protection provided for in the agreements listed in Article 15.1.2 through 15.1.6 and the TRIPS Agreement) of the other Parties treatment no less favorable than it accords to its own nationals with regard to the protection (for purposes of this paragraph, “protection” shall include matters affecting the availability, acquisition, scope, maintenance, and enforcement of intellectual property rights as well as matters affecting the use of intellectual property rights specifically covered by this Chapter. Further, for purposes of this paragraph, “protection” shall also include the prohibition on circumvention of effective technological measures set out in Article 15.5.7 and the rights and obligations concerning rights management information set out in Article 15.5.8) and enjoyment of such intellectual property rights and any benefits derived from such rights.

9. A Party may derogate from paragraph 8 in relation to its judicial and administrative procedures, including any procedure requiring a national of another Party to designate for service of process an address in its territory or to appoint an agent in its territory, provided that such derogation:

(a) is necessary to secure compliance with laws and regulations that are not inconsistent with this Chapter; and

(b) is not applied in a manner that would constitute a disguised restriction on trade.

10. Paragraph 8 does not apply to procedures provided in multilateral agreements to which the Parties are party concluded under the auspices of WIPO in relation to the acquisition or maintenance of intellectual property rights.

11. Except as it provides otherwise, this Chapter gives rise to obligations in respect of all subject matter existing on the date of entry into force of this Agreement that is protected on that date in the Party where protection is claimed, or that meets or comes subsequently to meet the criteria for protection under this Chapter.

12. Except as otherwise provided in this Chapter, a Party shall not be required to restore protection to subject matter that on the date of entry into force of this Agreement has fallen into the public domain in the Party where the protection is claimed.

13. This Chapter does not give rise to obligations in respect of acts that occurred before the date of entry into force of this Agreement.

14. Each Party shall ensure that all laws, regulations, and procedures concerning the protection or enforcement of intellectual property rights shall be in writing and shall be published, (a Party may satisfy the requirement for publication by making the measure available to the public on the Internet) or where such publication is not practicable, made publicly available, in a national language in such a manner as to enable governments and right holders to become acquainted with them, with the object of making the protection and enforcement of intellectual property rights transparent.

15. Nothing in this Chapter shall be construed to prevent a Party from adopting measures necessary to prevent anticompetitive practices that may result from the abuse of the intellectual property rights set out in this Chapter, provided that such measures are consistent with this Chapter.

16. Recognizing the Parties’ commitment to trade capacity building as reflected in the establishment of the Committee on Trade Capacity Building under Article 19.4 (Committee on Trade Capacity Building) and the importance of trade capacity building activities, the Parties shall cooperate through that Committee in the following initial capacity-building priority activities, on mutually agreed terms and conditions, and subject to the availability of appropriated funds:

(a) educational and dissemination projects on the use of intellectual property as a

research and innovation tool, as well as on the enforcement of intellectual property rights;

(b) appropriate coordination, training, specialization courses, and exchange of information between the intellectual property offices and other institutions of the Parties; and

(c) enhancing the knowledge, development, and implementation of the electronic systems used for the management of intellectual property.

#### Article 15.2: Trademarks

1. Each Party shall provide that trademarks shall include collective, certification, and sound marks, and may include geographical indications and scent marks. A geographical indication is capable of constituting a mark to the extent that the geographical indication consists of any sign, or any combination of signs, capable of identifying a good or service as originating (for purposes of this Chapter, “originating” does not have the meaning ascribed to that term in Article 2.1 (Definitions of General Application)) in the territory of a Party, or a region or locality in that territory, where a given quality, reputation, or other characteristic of the good or service is essentially attributable to its geographical origin.

2. In view of the obligations of Article 20 of the TRIPS Agreement, each Party shall ensure that measures mandating the use of the term customary in common language as the common name for a good or service (“common name”) including, inter alia, requirements concerning the relative size, placement, or style of use of the trademark in relation to the common name, do not impair the use or effectiveness of trademarks used in relation to such goods.

3. Each Party shall provide that the owner of a registered trademark shall have the exclusive right to prevent all third parties not having the owner’s consent from using in the course of trade identical or similar signs, including geographical indications, for goods or services that are related to those goods or services in respect of which the owner’s trademark is registered, where such use would result in a likelihood of confusion. In case of the use of an identical sign, including a geographical indication, for identical goods or services, a likelihood of confusion shall be presumed.

4. Each Party may provide limited exceptions to the rights conferred by a trademark, such as fair use of descriptive terms, provided that such exceptions take account of the legitimate interest of the owner of the trademark and of third parties.

5. Article 6bis of the Paris Convention for the Protection of Industrial Property (1967) (Paris Convention) shall apply, mutatis mutandis, to goods or services that are not identical or similar to those identified by a well-known trademark, (in determining whether a trademark is well known, the reputation of the trademark need not extend beyond the sector of the public that normally deals with the relevant goods or services) whether registered or not, provided that use of that trademark in relation to those goods or services would indicate a connection between those goods or services and the owner of the trademark, and provided that the interests of the owner of the trademark are likely to be damaged by such use.

6. Each Party shall provide a system for the registration of trademarks, which shall include:

(a) providing to the applicant a communication in writing, which may be electronic, of the reasons for any refusal to register a trademark;

(b) an opportunity for the applicant to respond to communications from the trademark

authorities, to contest an initial refusal, and to appeal judicially a final refusal to register;  
(c) an opportunity for interested parties to petition to oppose a trademark application or to seek cancellation of a trademark after it has been registered; and  
(d) a requirement that decisions in opposition or cancellation proceedings be reasoned and in writing.

7. Each Party shall provide, to the maximum degree practical, a system for the electronic application, processing, registration, and maintenance of trademarks, and work to provide, to the maximum degree practical, a publicly available electronic database – including an on-line database – of trademark applications and registrations.

8. (a) Each Party shall provide that each registration or publication that concerns a trademark application or registration and that indicates goods or services shall indicate the goods or services by their common names, grouped according to the classes of the classification established by the Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks (1979), as revised and amended (Nice Classification).

(b) Each Party shall provide that goods or services may not be considered as being similar to each other solely on the ground that, in any registration or publication, they appear in the same class of the Nice Classification. Conversely, each Party shall provide that goods or services may not be considered as being dissimilar from each other solely on the ground that, in any registration or publication, they appear in different classes of the Nice Classification.

9. Each Party shall provide that initial registration and each renewal of registration of a trademark shall be for a term of no less than ten years.

10. No Party may require recordal of trademark licenses to establish the validity of the license, to assert any rights in a trademark, or for other purposes. (A Party may establish a means to allow licensees to record licenses for the purpose of providing notice to the public as to the existence of the license. However, no Party may make notice to the public a requirement for asserting any rights under the license).

### Article 15.3: Geographical Indications

#### Definition

1. For purposes of this Article, geographical indications are indications that identify a good as originating in the territory of a Party, or a region or locality in that territory, where a given quality, reputation, or other characteristic of the good is essentially attributable to its geographical origin. Any sign or combination of signs, in any form whatsoever, shall be eligible to be a geographical indication.

#### Procedures with Respect to Geographical Indications

2. Each Party shall provide the legal means to identify (for purposes of this paragraph, legal means to identify means a system that permits applicants to provide information on the quality, reputation, or other characteristics of the asserted geographical indication) and protect geographical indications of the other Parties that meet the criteria of paragraph 1. Each Party shall provide the means for persons of another Party to apply for protection or petition for recognition of geographical indications. Each Party shall accept applications and petitions from persons of another Party without the requirement for intercession by that Party on behalf of its persons.

3. Each Party shall process applications or petitions, as the case may be, for geographical indications with a minimum of formalities.

4. Each Party shall make its regulations governing filing of such applications or petitions,

as the case may be, readily available to the public.

5. Each Party shall ensure that applications or petitions, as the case may be, for geographical indications are published for opposition, and shall provide procedures for opposing geographical indications that are the subject of applications or petitions. Each Party shall also provide procedures to cancel any registration resulting from an application or a petition.

6. Each Party shall ensure that measures governing the filing of applications or petitions, as the case may be, for geographical indications set out clearly the procedures for these actions. Each Party shall make available contact information sufficient to allow (a) the general public to obtain guidance concerning the procedures for filing applications or petitions and the processing of those applications or petitions in general; and (b) applicants, petitioners, or their representatives to ascertain the status of, and to obtain procedural guidance concerning, specific applications and petitions.

#### Relationship between Trademarks and Geographical Indications

7. Each Party shall ensure that grounds for refusing protection or recognition of a geographical indication include the following:

(a) the geographical indication is likely to be confusingly similar to a trademark that is the subject of a good-faith pending application or registration; and

(b) the geographical indication is likely to be confusingly similar to a pre-existing trademark, the rights to which have been acquired in accordance with the Party's law.

(For purposes of this paragraph, the Parties understand that each Party has already established grounds for refusing protection of a trademark under its law, including that (a) the trademark is likely to be confusingly similar to a geographical indication that is the subject of a registration; and (b) the trademark is likely to be confusingly similar to a pre-existing geographical indication, the rights to which have been acquired in accordance with the Party's law).

#### Article 15.4: Domain Names on the Internet

1. In order to address trademark cyber-piracy, each Party shall require that the management of its country-code top-level domain (ccTLD) provides an appropriate procedure for the settlement of disputes based on the principles established in the Uniform Domain-Name Dispute- Resolution Policy.

2. Each Party shall require that the management of its ccTLD provides on-line public access to a reliable and accurate database of contact information for domain-name registrants. In determining the appropriate contact information, the management of a Party's ccTLD may give due regard to the Party's laws protecting the privacy of its nationals.

#### Article 15.5: Obligations Pertaining to Copyright and Related Rights

1. Each Party shall provide that authors, performers, and producers of phonograms (references in this Chapter to "authors, performers, and producers of phonograms" include any successors in interest) have the right (with respect to copyrights and related rights in this Chapter, a right to authorize or prohibit or a right to authorize means an exclusive right) to authorize or prohibit all reproductions of their works, performances, or phonograms, in any manner or form, permanent or temporary (including temporary storage in electronic form). (The Parties understand that the reproduction right as set out in this paragraph and in Article 9 of the Berne Convention for the Protection of Literary and Artistic Works (1971) (Berne Convention) and the exceptions permitted

under the Berne Convention and Article 15.5.10(a) fully apply in the digital environment, in particular to the use of works in digital form).

2. Each Party shall provide to authors, performers, and producers of phonograms the right to authorize the making available to the public of the original and copies of their works, performances, and phonograms (with respect to copyright and related rights in this Chapter, a “performance” refers to a performance fixed in a phonogram, unless otherwise specified) through sale or other transfer of ownership.

3. In order to ensure that no hierarchy is established between rights of authors, on the one hand, and rights of performers and producers of phonograms, on the other hand, each Party shall establish that in cases where authorization is needed from both the author of a work embodied in a phonogram and a performer or producer owning rights in the phonogram, the need for the authorization of the author does not cease to exist because the authorization of the performer or producer is also required. Likewise, each Party shall establish that in cases where authorization is needed from both the author of a work embodied in a phonogram and of a performer or producer owning rights in the phonogram, the need for the authorization of the performer or producer does not cease to exist because the authorization of the author is also required.

4. Each Party shall provide that, where the term of protection of a work (including a photographic work), performance, or phonogram is to be calculated:

(a) on the basis of the life of a natural person, the term shall be not less than the life of the author and 70 years after the author’s death; and

(b) on a basis other than the life of a natural person, the term shall be:

(i) not less than 70 years from the end of the calendar year of the first authorized publication of the work, performance, or phonogram, or

(ii) failing such authorized publication within 50 years from the creation of the work, performance, or phonogram, not less than 70 years from the end of the calendar year of the creation of the work, performance, or phonogram.

5. Each Party shall apply the provisions of Article 18 of the Berne Convention and Article 14.6 of the TRIPS Agreement, mutatis mutandis, to the subject matter, rights, and obligations provided for in this Article and Articles 15.6 and 15.7.

6. Each Party shall provide that for copyright and related rights:

(a) any person acquiring or holding any economic right in a work, performance, or phonogram may freely and separately transfer such right by contract; and

(b) any person acquiring or holding any such economic right by virtue of a contract, including contracts of employment underlying the creation of works and performances, and production of phonograms, shall be able to exercise such right in that person’s own name and enjoy fully the benefits derived from such right.

7. (a) In order to provide adequate legal protection and effective legal remedies against the circumvention of effective technological measures that authors, performers, and producers of phonograms use in connection with the exercise of their rights and that restrict unauthorized acts in respect of their works, performances, and phonograms, each Party shall provide that any person who:

(i) circumvents without authority any effective technological measure that controls access to a protected work, performance, phonogram, or other subject matter; or

(ii) manufactures, imports, distributes, offers to the public, provides, or otherwise traffics in devices, products, or components, or offers to the public or provides services, that:

(A) are promoted, advertised, or marketed for the purpose of circumvention of any

effective technological measure; or

(B) have only a limited commercially significant purpose or use other than to circumvent any effective technological measure; or

(C) are primarily designed, produced, or performed for the purpose of enabling or facilitating the circumvention of any effective technological measure, shall be liable and subject to the remedies provided for in Article 15.11.14. Each Party shall provide for criminal procedures and penalties to be applied when any person, other than a nonprofit library, archive, educational institution, or public non-commercial broadcasting entity, is found to have engaged willfully and for purposes of commercial advantage or private financial gain in any of the foregoing activities.

(b) In implementing subparagraph (a), no Party shall be obligated to require that the design of, or the design and selection of parts and components for, a consumer electronics, telecommunications, or computing product provide for a response to any particular technological measure, so long as the product does not otherwise violate any measures implementing subparagraph (a).

(c) Each Party shall provide that a violation of a measure implementing this paragraph is a separate civil cause of action or criminal offense, independent of any infringement that might occur under the Party's law on copyright and related rights.

(d) Each Party shall confine exceptions to any measures implementing the prohibition in subparagraph (a)(ii) on technology, products, services, or devices that circumvent effective technological measures that control access to, and, in the case of clause (i), that protect any of the exclusive rights of copyright or related rights in, a protected work, performance, or phonogram referred to in subparagraph (a)(ii), to the following activities, provided that they do not impair the adequacy of legal protection or the effectiveness of legal remedies against the circumvention of effective technological measures:

(i) noninfringing reverse engineering activities with regard to a lawfully obtained copy of a computer program, carried out in good faith with respect to particular elements of that computer program that have not been readily available to the person engaged in those activities, for the sole purpose of achieving interoperability of an independently created computer program with other programs;

(ii) noninfringing good faith activities, carried out by an appropriately qualified researcher who has lawfully obtained a copy, unfixed performance or display of a work, performance, or phonogram, and who has made a good faith effort to obtain authorization for such activities, to the extent necessary for the sole purpose of identifying and analyzing flaws and vulnerabilities of technologies for scrambling and descrambling of information;

(iii) the inclusion of a component or part for the sole purpose of preventing the access of minors to inappropriate on-line content in a technology, product, service, or device that itself is not prohibited under the measures implementing subparagraph (a)(ii); and

(iv) noninfringing good faith activities that are authorized by the owner of a computer, computer system, or computer network for the sole purpose of testing, investigating, or correcting the security of that computer, computer system, or computer network.

(e) Each Party shall confine exceptions to any measures implementing the prohibition referred to in subparagraph (a)(i) to the activities listed in subparagraph (d) and the following activities, provided that they do not impair the adequacy of legal protection or the effectiveness of legal remedies against the circumvention of effective technological measures:

- (i) access by a nonprofit library, archive, or educational institution to a work, performance, or phonogram, not otherwise available to it, for the sole purpose of making acquisition decisions;
  - (ii) noninfringing activities for the sole purpose of identifying and disabling a capability to carry out undisclosed collection or dissemination of personally identifying information reflecting the on-line activities of a natural person in a way that has no other effect on the ability of any person to gain access to any work; and
  - (iii) noninfringing uses of a work, performance, or phonogram, in a particular class of works, performances, or phonograms, when an actual or likely adverse impact on those noninfringing uses is demonstrated in a legislative or administrative proceeding by substantial evidence; provided that in order for any such exception to remain in effect for more than four years, a Party must conduct a review before the expiration of the four-year period and at intervals of at least every four years thereafter, pursuant to which it is demonstrated in such a proceeding by substantial evidence that there is a continuing actual or likely adverse impact on the particular noninfringing use.
- (f) Each Party may provide exceptions to any measures implementing the prohibitions referred to in subparagraph (a) for lawfully authorized activities carried out by government employees, agents, or contractors for law enforcement, intelligence, essential security, or similar governmental purposes.
- (g) Effective technological measure means any technology, device, or component that, in the normal course of its operation, controls access to a protected work, performance, phonogram, or other protected subject matter, or protects any copyright or any rights related to copyright.

8. In order to provide adequate legal protection and effective legal remedies to protect rights management information:

- (a) Each Party shall provide that any person who, without authority, and knowing, or, with respect to civil remedies, having reasonable grounds to know, that it would induce, enable, facilitate, or conceal an infringement of any copyright or related right,
- (i) knowingly removes or alters any rights management information;
  - (ii) distributes or imports for distribution rights management information knowing that the rights management information has been removed or altered without authority; or
  - (iii) distributes, imports for distribution, broadcasts, communicates or makes available to the public copies of works, performances, or phonograms, knowing that rights management information has been removed or altered without authority, shall be liable and subject to the remedies provided for in Article 15.11.14. Each Party shall provide for criminal procedures and penalties to be applied when any person, other than a nonprofit library, archive, educational institution, or public non-commercial broadcasting entity, is found to have engaged willfully and for purposes of commercial advantage or private financial gain in any of the foregoing activities.
- (b) Each Party shall confine exceptions to measures implementing subparagraph (a) to lawfully authorized activities carried out by government employees, agents, or contractors for law enforcement, intelligence, national defense, essential security, or similar governmental purposes.
- (c) Rights management information means:
- (i) information that identifies a work, performance, or phonogram, the author of the work, the performer of the performance, or the producer of the phonogram, or the owner of any right in the work, performance, or phonogram; or
  - (ii) information about the terms and conditions of the use of the work, performance, or

phonogram; or

(iii) any numbers or codes that represent such information, when any of these items is attached to a copy of the work, performance, or phonogram or appears in connection with the communication or making available of a work, performance, or phonogram to the public. Nothing in this paragraph shall obligate a Party to require the owner of any right in the work, performance, or phonogram to attach rights management information to copies of the work, performance, or phonogram, or to cause rights management information to appear in connection with a communication of the work, performance, or phonogram to the public.

9. In order to confirm that all agencies at the central level of government use computer software only as authorized, each Party shall issue appropriate laws, orders, regulations, or decrees to actively regulate the acquisition and management of software for such use. These measures may take the form of procedures such as preparing and maintaining inventories of software on agency computers and inventories of software licenses.

10. (a) With respect to Articles 15.5, 15.6, and 15.7, each Party shall confine limitations or exceptions to exclusive rights to certain special cases that do not conflict with a normal exploitation of the work, performance, or phonogram, and do not unreasonably prejudice the legitimate interests of the right holder.

(b) Notwithstanding subparagraph (a) and Article 15.7.3(b), no Party may permit the retransmission of television signals (whether terrestrial, cable, or satellite) on the Internet without the authorization of the right holder or right holders of the content of the signal and, if any, of the signal.

#### Article 15.6: Obligations Pertaining Specifically to Copyright

Without prejudice to Articles 11(1)(ii), 11bis(1)(i) and (ii), 11ter(1)(ii), 14(1)(ii), and 14bis(1) of the Berne Convention, each Party shall provide to authors the exclusive right to authorize or prohibit the communication to the public of their works, directly or indirectly, by wire or wireless means, including the making available to the public of their works in such a way that members of the public may access these works from a place and at a time individually chosen by them.

#### Article 15.7: Obligations Pertaining Specifically to Related Rights

1. Each Party shall accord the rights provided for in this Chapter with respect to performers and producers of phonograms to the performers and producers of phonograms who are nationals of another Party and to performances or phonograms first published or fixed in the territory of a Party. A performance or phonogram shall be considered first published in the territory of a Party in which it is published within 30 days of its original publication. (For purposes of this Article, fixation includes the finalization of the master tape or its equivalent).

2. Each Party shall provide to performers the right to authorize or prohibit:

(a) the broadcasting and communication to the public of their unfixed performances except where the performance is already a broadcast performance; and

(b) the fixation of their unfixed performances.

3. (a) Each Party shall provide to performers and producers of phonograms the right to authorize or prohibit the broadcasting or any communication to the public of their performances or phonograms, by wire or wireless means, including the making available to the public of those performances and phonograms in such a way that members of the

public may access them from a place and at a time individually chosen by them.

(b) Notwithstanding subparagraph (a) and Article 15.5.10, the application of this right to traditional free over-the-air noninteractive broadcasting, and exceptions or limitations to this right for such broadcasting, shall be a matter of domestic law.

(c) Each Party may adopt limitations to this right in respect of other noninteractive transmissions in accordance with Article 15.5.10, provided that the limitations do not prejudice the right of the performer or producer of phonograms to obtain equitable remuneration.

4. No Party may subject the enjoyment and exercise of the rights of performers and producers of phonograms provided for in this Chapter to any formality.

5. For purposes of this Article and Article 15.5, the following definitions apply with respect to performers and producers of phonograms:

(a) performers means actors, singers, musicians, dancers, and other persons who act, sing, deliver, declaim, play in, interpret, or otherwise perform literary or artistic works or expressions of folklore;

(b) phonogram means the fixation of the sounds of a performance or of other sounds, or of a representation of sounds, other than in the form of a fixation incorporated in a cinematographic or other audiovisual work;

(c) fixation means the embodiment of sounds, or of the representations thereof, from which they can be perceived, reproduced, or communicated through a device;

(d) producer of a phonogram means the person, or the legal entity, who or which takes the initiative and has the responsibility for the first fixation of the sounds of a performance or other sounds, or the representations of sounds;

(e) publication of a performance or a phonogram means the offering of copies of the fixed performance or the phonogram to the public, with the consent of the right holder, and provided that copies are offered to the public in reasonable quantity;

(f) broadcasting means the transmission by wireless means or satellite to the public of sounds or sounds and images, or of the representations thereof, including wireless transmission of encrypted signals where the means for decrypting are provided to the public by the broadcasting organization or with its consent; and

(g) communication to the public of a performance or a phonogram means the transmission to the public by any medium, otherwise than by broadcasting, of sounds of a performance or the sounds or the representations of sounds fixed in a phonogram. For purposes of paragraph 3, "communication to the public" includes making the sounds or representations of sounds fixed in a phonogram audible to the public.

#### Article 15.8: Protection of Encrypted Program-Carrying Satellite Signals

1. Each Party shall make it a criminal offense:

(a) to manufacture, assemble, modify, import, export, sell, lease, or otherwise distribute a tangible or intangible device or system, knowing or having reason to know that the device or system is primarily of assistance in decoding an encrypted program-carrying satellite signal without the authorization of the lawful distributor of such signal; and

(b) willfully to receive and further distribute a program-carrying signal that originated as an encrypted satellite signal knowing that it has been decoded without the authorization of the lawful distributor of the signal.

2. Each Party shall provide for civil remedies, including compensatory damages, for any person injured by any activity described in paragraph 1, including any person that holds an interest in the encrypted programming signal or its content.

#### Article 15.9: Patents

1. Each Party shall make patents available for any invention, whether a product or a process, in all fields of technology, provided that the invention is new, involves an inventive step, and is capable of industrial application. For purposes of this Article, a Party may treat the terms “inventive step” and “capable of industrial application” as being synonymous with the terms “non-obvious” and “useful,” respectively.
2. Nothing in this Chapter shall be construed to prevent a Party from excluding inventions from patentability as set out in Articles 27.2 and 27.3 of the TRIPS Agreement. Notwithstanding the foregoing, any Party that does not provide patent protection for plants by the date of entry into force of this Agreement shall undertake all reasonable efforts to make such patent protection available. Any Party that provides patent protection for plants or animals on or after the date of entry into force of this Agreement shall maintain such protection.
3. A Party may provide limited exceptions to the exclusive rights conferred by a patent, provided that such exceptions do not unreasonably conflict with a normal exploitation of the patent and do not unreasonably prejudice the legitimate interests of the patent owner, taking account of the legitimate interests of third parties.
4. Without prejudice to Article 5.A(3) of the Paris Convention, each Party shall provide that a patent may be revoked or cancelled only on grounds that would have justified a refusal to grant the patent. However, a Party may also provide that fraud, misrepresentation, or inequitable conduct may be the basis for revoking, canceling, or holding a patent unenforceable.
5. Consistent with paragraph 3, if a Party permits a third person to use the subject matter of a subsisting patent to generate information necessary to support an application for marketing approval of a pharmaceutical or agricultural chemical product, that Party shall provide that any product produced under such authority shall not be made, used, or sold in the territory of that Party other than for purposes related to generating information to meet requirements for approval to market the product once the patent expires, and if the Party permits exportation, the product shall only be exported outside the territory of that Party for purposes of meeting marketing approval requirements of that Party.
6. (a) Each Party, at the request of the patent owner, shall adjust the term of a patent to compensate for unreasonable delays that occur in granting the patent. For purposes of this paragraph, an unreasonable delay shall at least include a delay in the issuance of the patent of more than five years from the date of filing of the application in the territory of the Party, or three years after a request for examination of the application has been made, whichever is later, provided that periods attributable to actions of the patent applicant need not be included in the determination of such delays.  
(b) With respect to any pharmaceutical product that is covered by a patent, each Party shall make available a restoration of the patent term to compensate the patent owner for unreasonable curtailment of the effective patent term resulting from the marketing approval process related to the first commercial marketing of the product in that Party.
7. Each Party shall disregard information contained in public disclosures used to determine if an invention is novel or has an inventive step if the public disclosure (a) was made or authorized by, or derived from, the patent applicant, and (b) occurred within 12 months prior to the date of filing of the application in the territory of the Party.
8. Each Party shall provide patent applicants with at least one opportunity to submit

amendments, corrections, and observations in connection with their applications.

9. Each Party shall provide that a disclosure of a claimed invention shall be considered to be sufficiently clear and complete if it provides information that allows the invention to be made and used by a person skilled in the art, without undue experimentation, as of the filing date.

10. Each Party shall provide that a claimed invention is sufficiently supported by its disclosure if the disclosure reasonably conveys to a person skilled in the art that the applicant was in possession of the claimed invention as of the filing date.

11. Each Party shall provide that a claimed invention is industrially applicable if it has a specific, substantial, and credible utility.

#### Article 15.10: Measures Related to Certain Regulated Products

1. (a) If a Party requires, as a condition of approving the marketing of a new pharmaceutical or agricultural chemical product, the submission of undisclosed data concerning safety or efficacy, the Party shall not permit third persons, without the consent of the person who provided the information, to market a product on the basis of (1) the information, or (2) the approval granted to the person who submitted the information for at least five years for pharmaceutical products and ten years for agricultural chemical products from the date of approval in the Party. (Where a Party, on the date it implemented the TRIPS Agreement, had in place a system for protecting pharmaceutical or agricultural chemical products not involving new chemical entities from unfair commercial use that conferred a period of protection shorter than that specified in paragraph 1, that Party may retain such system notwithstanding the obligations of paragraph 1).

(b) If a Party permits, as a condition of approving the marketing of a new pharmaceutical or agricultural chemical product, third persons to submit evidence concerning the safety or efficacy of a product that was previously approved in another territory, such as evidence of prior marketing approval, the Party shall not permit third persons, without the consent of the person who previously obtained such approval in the other territory, to obtain authorization or to market a product on the basis of (1) evidence of prior marketing approval in the other territory, or

(2) information concerning safety or efficacy that was previously submitted to obtain marketing approval in the other territory, for at least five years for pharmaceutical products and ten years for agricultural chemical products from the date approval was granted in the Party's territory to the person who received approval in the other territory. In order to receive protection under this subparagraph, a Party may require that the person providing the information in the other territory seek approval in the territory of the Party within five years after obtaining marketing approval in the other territory.

(c) For purposes of this paragraph, a new product is one that does not contain a chemical entity that has been previously approved in the territory of the Party.

(d) For purposes of this paragraph, each Party shall protect such undisclosed information against disclosure except where necessary to protect the public, and no Party may consider information accessible within the public domain as undisclosed data.

Notwithstanding the foregoing, if any undisclosed information concerning safety and efficacy submitted to a Party, or an entity acting on behalf of a Party, for purposes of obtaining marketing approval is disclosed by such entity, the Party is still required to protect such information from unfair commercial use in the manner set forth in this

Article.

2. Where a Party permits, as a condition of approving the marketing of a pharmaceutical product, persons, other than the person originally submitting safety or efficacy information, to rely on evidence or information concerning the safety and efficacy of a product that was previously approved, such as evidence of prior marketing approval in the territory of a Party or in another country, that Party:

(a) shall implement measures in its marketing approval process to prevent such other persons from marketing a product covered by a patent claiming the previously approved product or its approved use during the term of that patent, unless by consent or acquiescence of the patent owner; and

(b) shall provide that the patent owner shall be informed of the request and the identity of any such other person who requests approval to enter the market during the term of a patent identified as claiming the approved product or its approved use.

#### Article 15.11: Enforcement of Intellectual Property Rights

##### General Obligations

1. Each Party understands that procedures and remedies required under this Article for enforcement of intellectual property rights are established in accordance with:

(a) the principles of due process that each Party recognizes; and

(b) the foundations of its own legal system.

2. This Article does not create any obligation:

(a) to put in place a judicial system for the enforcement of intellectual property rights distinct from that for the enforcement of law in general; or

(b) with respect to the distribution of resources for the enforcement of intellectual property rights and the enforcement of law in general.

The Parties understand that the decisions that a Party makes on the distribution of enforcement resources shall not excuse that Party from complying with this Chapter.

3. Each Party shall provide that final judicial decisions or administrative rulings of general applicability pertaining to the enforcement of intellectual property rights shall be in writing and shall state any relevant findings of fact and the reasoning or the legal basis on which the decisions and rulings are based. Each Party shall provide that such decisions or rulings shall be published, (a Party may satisfy the requirement for publication by making the document available to the public on the Internet) or where such publication is not practicable, otherwise made publicly available, in a national language in such a manner as to enable governments and right holders to become acquainted with them.

4. Each Party shall publicize information that it may collect on its efforts to provide effective enforcement of intellectual property rights in its civil, administrative, and criminal system, including any statistical information.

5. In civil, administrative, and criminal proceedings involving copyright or related rights, each Party shall provide that:

(a) the person whose name is indicated as the author, producer, performer, or publisher of the work, performance, or phonogram in the usual manner, shall, in the absence of proof to the contrary, be presumed to be the designated right holder in such work, performance, or phonogram; and

(b) it shall be presumed, in the absence of proof to the contrary, that the copyright or related right subsists in such subject matter.

##### Civil and Administrative Procedures and Remedies

6. Each Party shall make available to right holders (for the purpose of this Article, the term “right holder” shall include federations and associations as well as exclusive licensees and other duly authorized licensees, as appropriate, having the legal standing and authority to assert such rights. The term “licensee” shall include the licensee of any one or more of the exclusive intellectual property rights encompassed in a given intellectual property) civil judicial procedures concerning the enforcement of any intellectual property right.

7. Each Party shall provide that:

(a) in civil judicial proceedings concerning the enforcement of intellectual property rights, its judicial authorities shall have the authority to order the infringer to pay the right holder:

(i) damages adequate to compensate for the injury the right holder has suffered as a result of the infringement; and

(ii) at least in the case of copyright or related rights infringement and trademark counterfeiting, the profits of the infringer that are attributable to the infringement and are not taken into account in computing the amount of the damages referred to in clause (i); and

(b) in determining damages for infringement of intellectual property rights, its judicial authorities shall consider, inter alia, the value of the infringed-upon good or service based on the suggested retail price or other legitimate measure of value that the right holder presents.

8. In civil judicial proceedings, each Party shall, at least with respect to civil judicial proceedings concerning copyright or related rights infringement and trademark counterfeiting, establish or maintain pre-established damages as an alternative to actual damages. Such pre-established damages shall be set out in domestic law and determined by the judicial authorities in an amount sufficient to compensate the right holder for the harm caused by the infringement and constitute a deterrent to future infringements.

9. Each Party shall provide that its judicial authorities, except in exceptional circumstances, shall have the authority to order, at the conclusion of civil judicial proceedings concerning copyright or related rights infringement and trademark counterfeiting, that the prevailing party shall be awarded payment of court costs or fees and reasonable attorney’s fees by the losing party. Further, each Party shall provide that its judicial authorities, at least in exceptional circumstances, shall have the authority to order, at the conclusion of civil judicial proceedings concerning patent infringement, that the prevailing party be awarded payment of reasonable attorney’s fees by the losing party.

10. In civil judicial proceedings concerning copyright or related right infringement and trademark counterfeiting, each Party shall provide that its judicial authorities shall have the authority to order the seizure of suspected infringing goods, any related materials and implements, and, at least for trademark counterfeiting, documentary evidence relevant to the infringement.

11. Each Party shall provide that:

(a) its judicial authorities shall have the authority to order, at their discretion, the destruction of the goods that have been found to be pirated or counterfeit;

(b) its judicial authorities shall have the authority to order that materials and implements that have been used in the manufacture or creation of such pirated or counterfeit goods be, without compensation of any sort, promptly destroyed or, in

exceptional circumstances, without compensation of any sort, disposed of outside the channels of commerce in such a manner as to minimize the risks of further infringements. In considering requests for such destruction, the Party's judicial authorities may take into account, inter alia, the gravity of the infringement, as well as the interests of third parties holding ownership, possessory, contractual, or secured interests;

(c) the charitable donation of counterfeit trademark goods and goods that infringe copyright and related rights shall not be ordered by the judicial authorities without the authorization of the right holder, except that counterfeit trademark goods may in appropriate cases be donated to charity for use outside the channels of commerce when the removal of the trademark eliminates the infringing characteristic of the good and the good is no longer identifiable with the removed trademark. In no case shall the simple removal of the trademark unlawfully affixed be sufficient to permit the release of goods into the channels of commerce.

12. Each Party shall provide that in civil judicial proceedings concerning the enforcement of intellectual property rights, its judicial authorities shall have the authority to order the infringer to provide any information that the infringer possesses regarding any person involved in any aspect of the infringement and regarding the means of production or distribution channel for the infringing goods or services, including the identification of third persons that are involved in their production and distribution and their distribution channels, and to provide this information to the right holder. Each Party shall provide that its judicial authorities shall have the authority to impose sanctions, in appropriate cases, on a party to a proceeding that fails to abide by valid orders issued by such authorities.

13. To the extent that any civil remedy can be ordered as a result of administrative procedures on the merits of a case, each Party shall provide that such procedures conform to principles equivalent in substance to those provided for in this Chapter.

14. Each Party shall provide for civil remedies against the acts described in Article 15.5.7 and 15.5.8. Available civil remedies shall include at least:

(a) provisional measures, including seizure of devices and products suspected of being involved in the prohibited activity;

(b) actual damages (plus any profits attributable to the prohibited activity not taken into account in computing the actual damages) or pre-established damages as provided in paragraph 8;

(c) payment to the prevailing right holder, at the conclusion of civil judicial proceedings, of court costs and fees and reasonable attorney's fees by the party engaged in the prohibited conduct; and

(d) destruction of devices and products found to be involved in the prohibited activity, at the discretion of the judicial authorities, as provided in subparagraphs (a) and (b) of paragraph 11.

No Party may make damages available against a nonprofit library, archives, educational institution, or public broadcasting entity that sustains the burden of proving that it was not aware and had no reason to believe that its acts constituted a prohibited activity.

15. In civil judicial proceedings concerning the enforcement of intellectual property rights, each Party shall provide that its judicial authorities shall have the authority to order a party to desist from an infringement, inter alia, to prevent the entry into the channels of commerce in their jurisdiction of imported goods that involve the infringement of an intellectual property right, immediately after customs clearance of

such goods or to prevent their exportation.

16. In the event that a Party's judicial or other authorities appoint technical or other experts in civil proceedings concerning the enforcement of intellectual property rights and require that the parties bear the costs of such experts, the Party should seek to ensure that such costs are closely related, inter alia, to the quantity and nature of work to be performed and do not unreasonably deter recourse to such proceedings.

#### Provisional Measures

17. Each Party shall act on requests for relief *inaudita altera parte* and execute such requests expeditiously, in accordance with its rules of judicial procedure.

18. Each Party shall provide that its judicial authorities shall have the authority to require the plaintiff to provide any reasonably available evidence in order to satisfy themselves with a sufficient degree of certainty that the plaintiff's right is being infringed or that such infringement is imminent, and to order the plaintiff to provide a reasonable security or equivalent assurance set at a level sufficient to protect the defendant and to prevent abuse, and so as not to unreasonably deter recourse to such procedures.

19. In proceedings concerning the grant of provisional measures in relation to enforcement of a patent, each Party shall provide for a rebuttable presumption that the patent is valid.

#### Special Requirements Related to Border Measures

20. Each Party shall provide that any right holder initiating procedures for its competent authorities to suspend the release of suspected counterfeit or confusingly similar trademark goods, or pirated copyright goods (for purposes of paragraphs 20 through 25:

counterfeit trademark goods means any goods, including packaging, bearing without authorization a trademark which is identical to the trademark validly registered in respect of such goods, or which cannot be distinguished in its essential aspects from such a trademark, and which thereby infringes the rights of the owner of the trademark in question under the law of the country of importation; and

pirated copyright goods means any goods which are copies made without the consent of the right holder or person duly authorized by the right holder in the country of production and which are made directly or indirectly from an article where the making of that copy would have constituted an infringement of a copyright or a related right under the law of the country of importation) into free circulation is required to provide adequate evidence to satisfy the competent authorities that, under the laws of the country of importation, there is *prima facie* an infringement of the right holder's intellectual property right and to supply sufficient information that may reasonably be expected to be within the right holder's knowledge to make the suspected goods reasonably recognizable by the competent authorities. The requirement to provide sufficient information shall not unreasonably deter recourse to these procedures.

21. Each Party shall provide that its competent authorities shall have the authority to require a right holder initiating procedures for suspension to provide a reasonable security or equivalent assurance sufficient to protect the defendant and the competent authorities and to prevent abuse. Such security or equivalent assurance shall not unreasonably deter recourse to these procedures. Each Party shall provide that such security may take a form of an instrument issued by a financial services provider to hold the importer or owner of the imported merchandise harmless from any loss or damage resulting from any suspension of the release of goods in the event the competent authorities determine that the article is not an infringing good.

22. Where its competent authorities have made a determination that goods are counterfeit or pirated, a Party shall grant its competent authorities the authority to inform the right holder of the names and addresses of the consignor, the importer, and the consignee, and of the quantity of the goods in question.

23. Each Party shall provide that its competent authorities may initiate border measures ex officio, with respect to imported, exported, or in-transit merchandise suspected of infringing an intellectual property right, without the need for a formal complaint from a private party or right holder.

24. Each Party shall provide that goods that have been determined to be pirated or counterfeit by its competent authorities shall be destroyed, pursuant as appropriate to judicial order, unless the right holder consents to an alternate disposition, except that counterfeit trademark goods may in appropriate cases be donated to charity for use outside the channels of commerce, when the removal of the trademark eliminates the infringing characteristic of the good and the good is no longer identifiable with the removed trademark. In regard to counterfeit trademark goods, the simple removal of the trademark unlawfully affixed shall not be sufficient to permit the release of the goods into the channels of commerce. In no event shall the competent authorities be authorized to permit the exportation of counterfeit or pirated goods or to permit such goods to be subject to other customs procedures, except in exceptional circumstances.

25. Each Party shall provide that where an application fee or merchandise storage fee is assessed in connection with border measures to enforce an intellectual property right, the fee shall not be set at an amount that unreasonably deters recourse to such measures.

#### Criminal Procedures and Remedies

26. (a) Each Party shall provide for criminal procedures and penalties to be applied at least in cases of willful trademark counterfeiting or copyright or related rights piracy on a commercial scale. Willful copyright or related rights piracy on a commercial scale includes significant willful infringements of copyright or related rights, for purposes of commercial advantage or private financial gain, as well as willful infringements that have no direct or indirect motivation of financial gain, provided that there is more than a de minimis financial harm. Each Party shall treat willful importation or exportation of counterfeit or pirated goods as unlawful activities and provide for criminal penalties to the same extent as the trafficking or distribution of such goods in domestic commerce. (A Party may comply with this subparagraph in relation to exportation through its measures concerning distribution or trafficking).

(b) Specifically, each Party shall provide:

- (i) remedies that include sentences of imprisonment or monetary fines, or both, sufficient to provide a deterrent to future acts of infringement. Each Party shall establish policies or guidelines that encourage penalties to be imposed by judicial authorities at levels sufficient to provide a deterrent to future infringements;
- (ii) that its judicial authorities shall have the authority to order the seizure of suspected counterfeit or pirated goods, any related materials and implements that have been used in the commission of the offense, any assets traceable to the infringing activity, and any documentary evidence relevant to the offense. Each Party shall provide that items that are subject to seizure pursuant to any such judicial order need not be individually identified so long as they fall within general categories specified in the order;
- (iii) that its judicial authorities shall have the authority to order, among other measures, (1) the forfeiture of any assets traceable to the infringing activity, (2) the forfeiture and

destruction of all counterfeit or pirated goods, without compensation of any kind to the defendant, in order to prevent the re-entry of counterfeit and pirated goods into channels of commerce, and (3) with respect to willful copyright or related rights piracy, the forfeiture and destruction of materials and implements that have been used in the creation of the infringing goods; and

(iv) that its authorities may, at least in cases of suspected trademark counterfeiting or copyright piracy, conduct investigations or exercise other enforcement measures ex officio, without the need for a formal complaint by a private party or right holder, at least for the purpose of preserving evidence or preventing the continuation of the infringing activity.

#### Limitations on Liability for Service Providers

27. For the purpose of providing enforcement procedures that permit effective action against any act of infringement of copyright (for purposes of this paragraph, "copyright" shall also include related rights) covered under this Chapter, including expeditious remedies to prevent infringements, and criminal and civil remedies that constitute a deterrent to further infringements, each Party shall provide, consistent with the framework set out in this Article:

(a) legal incentives for service providers to cooperate with copyright owners in deterring the unauthorized storage and transmission of copyrighted materials; and  
(b) limitations in its law regarding the scope of remedies available against service providers for copyright infringements that they do not control, initiate or direct, and that take place through systems or networks controlled or operated by them or on their behalf, as set out in this subparagraph. (The Parties understand that this subparagraph is without prejudice to the availability of defenses to copyright infringement that are of general applicability).

(i) These limitations shall preclude monetary relief and provide reasonable restrictions on court-ordered relief to compel or restrain certain actions for the following functions and shall be confined to those functions:

(A) transmitting, routing, or providing connections for material without modification of its content, or the intermediate and transient storage of such material in the course thereof;

(B) caching carried out through an automatic process;

(C) storage at the direction of a user of material residing on a system or network controlled or operated by or for the service provider; and

(D) referring or linking users to an on-line location by using information location tools, including hyperlinks and directories.

(ii) These limitations shall apply only where the service provider does not initiate the chain of transmission of the material and does not select the material or its recipients (except to the extent that a function described in clause (i)(D) in itself entails some form of selection).

(iii) Qualification by a service provider for the limitations as to each function in clauses (i)(A) through (D) shall be considered separately from qualification for the limitations as to each other function, in accordance with the conditions for qualification set forth in clauses (iv) through (vii).

(iv) With respect to the function referred to in clause (i)(B), the limitations shall be conditioned on the service provider:

(A) permitting access to cached material in significant part only to users of its system or network who have met conditions on user access to that material;

(B) complying with rules concerning the refreshing, reloading, or other updating of the cached material when specified by the person making the material available on-line in accordance with a generally accepted industry standard data communications protocol for the system or network through which that person makes the material available;

(C) not interfering with technology consistent with industry standards accepted in the Party's territory used at the originating site to obtain information about the use of the material, and not modifying its content in transmission to subsequent users; and

(D) expeditiously removing or disabling access, on receipt of an effective notification of claimed infringement, to cached material that has been removed or access to which has been disabled at the originating site.

(v) With respect to functions referred to in clauses (i)(C) and (D), the limitations shall be conditioned on the service provider:

(A) not receiving a financial benefit directly attributable to the infringing activity, in circumstances where it has the right and ability to control such activity;

(B) expeditiously removing or disabling access to the material residing on its system or network on obtaining actual knowledge of the infringement or becoming aware of facts or circumstances from which the infringement was apparent, such as through effective notifications of claimed infringement in accordance with clause (ix); and

(C) publicly designating a representative to receive such notifications.

(vi) Eligibility for the limitations in this subparagraph shall be conditioned on the service provider:

(A) adopting and reasonably implementing a policy that provides for termination in appropriate circumstances of the accounts of repeat infringers; and

(B) accommodating and not interfering with standard technical measures accepted in the Party's territory that protect and identify copyrighted material, that are developed through an open, voluntary process by a broad consensus of copyright owners and service providers, that are available on reasonable and nondiscriminatory terms, and that do not impose substantial costs on service providers or substantial burdens on their systems or networks.

(vii) Eligibility for the limitations in this subparagraph may not be conditioned on the service provider monitoring its service, or affirmatively seeking facts indicating infringing activity, except to the extent consistent with such technical measures.

(viii) If the service provider qualifies for the limitations with respect to the function referred to in clause (i)(A), court-ordered relief to compel or restrain certain actions shall be limited to terminating specified accounts, or to taking reasonable steps to block access to a specific, non-domestic on-line location. If the service provider qualifies for the limitations with respect to any other function in clause (i), court-ordered relief to compel or restrain certain actions shall be limited to removing or disabling access to the infringing material, terminating specified accounts, and other remedies that a court may find necessary provided that such other remedies are the least burdensome to the service provider among comparably effective forms of relief. Each Party shall provide that any such relief shall be issued with due regard for the relative burden to the service provider and harm to the copyright owner, the technical feasibility and effectiveness of the remedy and whether less burdensome, comparably effective enforcement methods are available. Except for orders ensuring the preservation of evidence, or other orders having no material adverse effect on the operation of the service provider's communications network, each Party shall provide that such relief shall be available only where the service provider has received notice and an opportunity to appear before the

Party's judicial authority.

(ix) For purposes of the notice and take down process for the functions referred to in clauses (i)(C) and (D), each Party shall establish appropriate procedures for effective notifications of claimed infringement, and effective counter-notifications by those whose material is removed or disabled through mistake or misidentification. At a minimum, each Party shall require that an effective notification of claimed infringement be a written communication, physically or electronically signed by a person who represents, under penalty of perjury or other criminal penalty, that he is an authorized representative of a right holder in the material that is claimed to have been infringed, and containing information that is reasonably sufficient to enable the service provider to identify and locate material that the complaining party claims in good faith to be infringing and to contact that complaining party. At a minimum, each Party shall require that an effective counter-notification contain the same information, mutatis mutandis, as a notification of claimed infringement, and contain a statement that the subscriber making the counter-notification consents to the jurisdiction of the courts of the Party. Each Party shall also provide for monetary remedies against any person who makes a knowing material misrepresentation in a notification or counter-notification that causes injury to any interested party as a result of a service provider relying on the misrepresentation.

(x) If the service provider removes or disables access to material in good faith based on claimed or apparent infringement, each Party shall provide that the service provider shall be exempted from liability for any resulting claims, provided that, in the case of material residing on its system or network, it takes reasonable steps promptly to notify the person making the material available on its system or network that it has done so and, if such person makes an effective counter-notification and is subject to jurisdiction in an infringement suit, to restore the material on-line unless the person giving the original effective notification seeks judicial relief within a reasonable time.

(xi) Each Party shall establish an administrative or judicial procedure enabling copyright owners who have given effective notification of claimed infringement to obtain expeditiously from a service provider information in its possession identifying the alleged infringer.

(xii) Service provider means:

(A) for purposes of the function referred to in clause (i)(A), a provider of transmission, routing, or connections for digital on-line communications without modification of their content between or among points specified by the user of material of the user's choosing; and

Procedures and Remedies Concerning Broadcast or Cable Transmissions or Retransmissions in the Dominican Republic

1. The Dominican Republic reaffirms its commitments under Chapter 15 to the application of administrative, civil, and criminal procedures and remedies in the case of broadcast or cable transmissions or retransmissions that are made without the authorization of the right holder or right holders of the content of the signal and, if any, of the signal.

2. The Dominican Republic shall provide that procedures and remedies are set out in its law for the temporary suspension of concessions or operating licenses, or both, for broadcast or cable transmissions or retransmissions in cases where the Oficina Nacional de Derecho de Autor (ONDA) or its other competent authorities determine that transmissions or retransmissions that are the subject of the concession or operating license have been made without the permission of the right holder or right holders of the content of the signal and, if any, of the signal. Such procedures shall conform to the requirements of Article 15.11 applicable to administrative enforcement, and shall include:

(a) an opportunity for right holders to make written requests to ONDA or other competent authorities for the temporary or permanent closure of establishments transmitting the unauthorized broadcast or cable transmissions (pursuant to Article 187 of the Ley sobre Derecho de Autor, No. 65-00, August 21, 2000, as implemented by Articles 116.4 and 116.5 of the Reglamento de Aplicación, No. 362-01, March 14, 2001), and for other sanctions available under its law, and to submit evidence in support of such requests;

(b) a requirement that holders of such concessions or operating licenses cooperate with ONDA or other competent authorities so that investigations and inspections concerning such a request can take place without delay, including by providing access to all documents relating to the transmissions or retransmissions; and

(c) a requirement that an administrative decision concerning such a request be rendered expeditiously and not later than 60 days after the date of the request. Such decisions shall be in writing and shall state the reasons on which they are based. Any closure shall become effective immediately following a decision requiring such closure. Temporary closure shall continue in effect for up to 30 days. Failure to cease transmission or retransmission following closure shall be considered a violation classified under Article 105(d) of the Ley General de Telecomunicaciones, No. 153-98, May 27, 1998, and shall be subject to all available sanctions authorized by that law.

The Dominican Republic shall further provide that ONDA or other competent authorities may initiate procedures for the temporary or permanent closure of establishments transmitting the unauthorized broadcast or cable transmissions and other sanctions available under national law ex officio, without the need for a written request from a private party or right holder.

3. The Dominican Republic shall provide that ONDA and its other competent authorities shall have sufficient resources to carry out the actions described in paragraph 2, and hereby reaffirms its obligations under Article 15.11.2(b).

4. INDOTEL shall exercise the powers conferred on it by the Ley General de Telecomunicaciones No. 153-98 to address copyright infringement in appropriate cases, consistent with the INDOTEL Resolution of January 30, 2004, sanctioning holders of cable transmission service authorizations who transmitted signals containing protected works or retransmitted signals issued by the entity originating the transmission without

authorization. If the level of sanctions imposed in the INDOTEL Resolution of January 30, 2004 is not effective in eliminating the problem, then INDOTEL shall increase sanctions to an effective level.

5. The Dominican Republic shall provide quarterly reporting of progress made in all judicial actions concerning television broadcasting piracy consistent with the understanding set out in an exchange of letters between the Dominican Republic and the United States on the date of signature of this Agreement.

## Chapter Sixteen

### Labor

#### Article 16.1: Statement of Shared Commitment

1. The Parties reaffirm their obligations as members of the International Labor Organization (ILO) and their commitments under the ILO Declaration on Fundamental Principles and Rights at Work and its Follow-Up (1998) (ILO Declaration). (The Parties recall that paragraph 5 of the ILO Declaration states that labor standards should not be used for protectionist trade purposes) Each Party shall strive to ensure that such labor principles and the internationally recognized labor rights set forth in Article 16.8 are recognized and protected by its law.
2. The Parties affirm their full respect for their Constitutions. Recognizing the right of each Party to establish its own domestic labor standards, and to adopt or modify accordingly its labor laws, each Party shall strive to ensure that its laws provide for labor standards consistent with the internationally recognized labor rights set forth in Article 16.8 and shall strive to improve those standards in that light.

#### Article 16.2: Enforcement of Labor Laws

1. (a) A Party shall not fail to effectively enforce its labor laws, through a sustained or recurring course of action or inaction, in a manner affecting trade between the Parties, after the date of entry into force of this Agreement.  
(b) Each Party retains the right to exercise discretion with respect to investigatory, prosecutorial, regulatory, and compliance matters and to make decisions regarding the allocation of resources to enforcement with respect to other labor matters determined to have higher priorities. Accordingly, the Parties understand that a Party is in compliance with subparagraph (a) where a course of action or inaction reflects a reasonable exercise of such discretion, or results from a bona fide decision regarding the allocation of resources.
2. The Parties recognize that it is inappropriate to encourage trade or investment by weakening or reducing the protections afforded in domestic labor laws. Accordingly, each Party shall strive to ensure that it does not waive or otherwise derogate from, or offer to waive or otherwise derogate from, such laws in a manner that weakens or reduces adherence to the internationally recognized labor rights referred to in Article 16.8 as an encouragement for trade with another Party, or as an encouragement for the establishment, acquisition, expansion, or retention of an investment in its territory.
3. Nothing in this Chapter shall be construed to empower a Party's authorities to undertake labor law enforcement activities in the territory of another Party.

#### Article 16.3: Procedural Guarantees and Public Awareness

1. Each Party shall ensure that persons with a legally recognized interest under its law in a particular matter have appropriate access to tribunals for the enforcement of the Party's labor laws. Such tribunals may include administrative, quasi-judicial, judicial, or labor tribunals, as provided in the Party's domestic law.
2. Each Party shall ensure that proceedings before such tribunals for the enforcement of its labor laws are fair, equitable, and transparent and, to this end, each Party shall ensure that:
  - (a) such proceedings comply with due process of law;
  - (b) any hearings in such proceedings are open to the public, except where the administration of justice otherwise requires;

(c) the parties to such proceedings are entitled to support or defend their respective positions, including by presenting information or evidence; and  
(d) such proceedings do not entail unreasonable charges or time limits or unwarranted delays.

3. Each Party shall provide that final decisions on the merits of the case in such proceedings are:

(a) in writing and state the reasons on which the decisions are based;  
(b) made available without undue delay to the parties to the proceedings and, consistent with its law, to the public; and  
(c) based on information or evidence in respect of which the parties were offered the opportunity to be heard.

4. Each Party shall provide, as appropriate, that parties to such proceedings have the right to seek review and, where warranted, correction of final decisions issued in such proceedings.

5. Each Party shall ensure that tribunals that conduct or review such proceedings are impartial and independent and do not have any substantial interest in the outcome of the matter.

6. Each Party shall provide that the parties to such proceedings may seek remedies to ensure the enforcement of their rights under its labor laws. Such remedies may include measures such as orders, fines, penalties, or temporary workplace closures, as provided in the Party's laws.

7. Each Party shall promote public awareness of its labor laws, including by:

(a) ensuring the availability of public information related to its labor laws and enforcement and compliance procedures; and  
(b) encouraging education of the public regarding its labor laws.

8. For greater certainty, decisions or pending decisions by each Party's administrative, quasi-judicial, judicial, or labor tribunals, as well as related proceedings, shall not be subject to revision or be reopened under the provisions of this Chapter.

#### Article 16.4: Institutional Arrangements

1. The Parties hereby establish a Labor Affairs Council, comprising cabinet-level or equivalent representatives of the Parties, or their designees.

2. The Council shall meet within the first year after the date of entry into force of this Agreement and thereafter as often as it considers necessary to oversee the implementation of and review progress under this Chapter, including the activities of the Labor Cooperation and Capacity Building Mechanism established under Article 16.5, and to pursue the labor objectives of this Agreement. Unless the Parties otherwise agree, each meeting of the Council shall include a session at which members of the Council have an opportunity to meet with the public to discuss matters relating to the implementation of this Chapter.

3. Each Party shall designate an office within its labor ministry that shall serve as a contact point with the other Parties, and with the public, for purposes of carrying out the work of the Council, including coordination of the Labor Cooperation and Capacity Building Mechanism. Each Party's contact point shall provide for the submission, receipt, and consideration of communications from persons of a Party on matters related to the provisions of this Chapter, and shall make such communications available to the other Parties and, as appropriate, to the public. Each Party shall review such communications, as appropriate, in accordance with domestic procedures. The Council shall develop

general guidelines for considering such communications.

4. Each Party may convene a new, or consult an existing, national labor advisory or consultative committee, comprising members of its public, including representatives of its labor and business organizations, to provide views on any issues related to this Chapter.

5. All decisions of the Council shall be taken by consensus. All decisions of the Council shall be made public, unless otherwise provided in this Agreement, or unless the Council otherwise decides.

6. The Council may prepare reports on matters related to the implementation of this Chapter, and shall make such reports public.

#### Article 16.5: Labor Cooperation and Capacity Building Mechanism

1. Recognizing that cooperation on labor issues can play an important role in advancing development in the territory of the Parties and in providing opportunities to improve labor standards, and to further advance common commitments regarding labor matters, including the principles embodied in the ILO Declaration and ILO Convention No. 182 Concerning the Prohibition and Immediate Action for the Elimination of the Worst Forms of Child Labour (1999) (ILO Convention 182), the Parties hereby establish a Labor Cooperation and Capacity Building Mechanism, as set out in Annex 16.5. The Mechanism shall operate in a manner that respects each Party's law and sovereignty.

2. While endeavoring to strengthen each Party's institutional capacity to fulfill the common goals of the Agreement, the Parties shall strive to ensure that the objectives of the Labor Cooperation and Capacity Building Mechanism, and the activities undertaken through that Mechanism:

- (a) are consistent with each Party's national programs, development strategies, and priorities;
- (b) provide opportunities for public participation in the development and implementation of such objectives and activities; and
- (c) take into account each Party's economy, culture, and legal system.

#### Article 16.6: Cooperative Labor Consultations

1. A Party may request consultations with another Party regarding any matter arising under this Chapter by delivering a written request to the contact point that the other Party has designated under Article 16.4.3.

2. The consultations shall begin promptly after delivery of the request. The request shall contain information that is specific and sufficient to enable the Party receiving the request to respond.

3. The consulting Parties shall make every attempt to arrive at a mutually satisfactory resolution of the matter, taking into account opportunities for cooperation relating to the matter, and may seek advice or assistance from any person or body they deem appropriate in order to fully examine the matter at issue.

4. If the consulting Parties fail to resolve the matter pursuant to paragraph 3, a consulting Party may request that the Council be convened to consider the matter by delivering a written request to the contact point of each of the other Parties. (For purposes of paragraphs 4, 5, and 6, the Council shall consist of the cabinet-level representatives of the consulting Parties or their high-level designees).

5. The Council shall promptly convene and shall endeavor to resolve the matter, including, where appropriate, by consulting outside experts and having recourse to such

procedures as good offices, conciliation, or mediation.

6. If the matter concerns whether a Party is conforming to its obligations under Article 16.2.1(a), and the consulting Parties have failed to resolve the matter within 60 days of a request under paragraph 1, the complaining Party may request consultations under Article 20.4 (Consultations) or a meeting of the Commission under Article 20.5 (Commission – Good Offices, Conciliation, and Mediation) and, as provided in Chapter Twenty (Dispute Settlement), thereafter have recourse to the other provisions of that Chapter. The Council may, as appropriate, provide information to the Commission on consultations held on the matter.

7. No Party may have recourse to dispute settlement under this Agreement for any matter arising under any provision of this Chapter other than Article 16.2.1(a).

8. No Party may have recourse to dispute settlement under this Agreement for a matter arising under Article 16.2.1(a) without first pursuing resolution of the matter in accordance with this Article.

9. In cases where the consulting Parties agree that a matter arising under this Chapter would be more appropriately addressed under another agreement to which the consulting Parties are party, they shall refer the matter for appropriate action in accordance with that agreement.

#### Article 16.7: Labor Roster

1. The Parties shall establish within six months after the date of entry into force of this Agreement and maintain a roster of up to 28 individuals who are willing and able to serve as panelists in disputes arising under Article 16.2.1(a). Unless the Parties otherwise agree, up to three members of the roster shall be nationals of each Party, and up to seven members of the roster shall be selected from among individuals who are not nationals of any Party. Labor roster members shall be appointed by consensus, and may be reappointed. Once established, a roster shall remain in effect for a minimum of three years, and shall remain in effect thereafter until the Parties constitute a new roster. The Parties may appoint a replacement where a roster member is no longer available to serve.

1. The Parties hereby establish an Environmental Affairs Council comprising cabinet-level or equivalent representatives of the Parties, or their designees. Each Party shall designate an office in its appropriate ministry that shall serve as a contact point for carrying out the work of the Council.
2. The Council shall meet within the first year after the date of entry into force of this Agreement, and annually thereafter unless the Parties otherwise agree, to oversee the implementation of and review progress under this Chapter and to consider the status of cooperation activities developed under the Dominican Republic – Central America – United States – Environmental Cooperation Agreement (“ECA”). Unless the Parties otherwise agree, each meeting of the Council shall include a session in which members of the Council have an opportunity to meet with the public to discuss matters relating to the implementation of this Chapter.
3. The Council shall set its own agenda. In setting the agenda, each Party shall seek views from its public concerning possible issues for discussion.
4. In order to share innovative approaches for addressing environmental issues of interest to the public, the Council shall ensure a process for promoting public participation in its work, including by engaging in a dialogue with the public on those issues.
5. The Council shall seek appropriate opportunities for the public to participate in the development and implementation of cooperative environmental activities, including through the ECA.
6. All decisions of the Council shall be taken by consensus, except as provided in Article 17.8. All decisions of the Council shall be made public, unless otherwise provided in this Agreement, or unless the Council otherwise decides.

#### Article 17.6: Opportunities for Public Participation

Each Party shall promptly make available to the other Parties and to its public all communications it receives and shall review and respond to them in accordance with its domestic procedures.

#### Article 17.7: Submissions on Enforcement Matters

1. Any person of a Party may file a submission asserting that a Party is failing to effectively enforce its environmental laws. Such submissions shall be filed with a

secretariat or other appropriate body (“secretariat”) that the Parties designate. (The Parties shall designate the secretariat and provide for related arrangements through an exchange of letters or other form of agreement between the Parties).

2. The secretariat may consider a submission under this Article if the secretariat finds that the submission:

- (a) is in writing in either English or Spanish;
- (b) clearly identifies the person making the submission;
- (c) provides sufficient information to allow the secretariat to review the submission, including any documentary evidence on which the submission may be based;
- (d) appears to be aimed at promoting enforcement rather than at harassing industry;
- (e) indicates that the matter has been communicated in writing to the relevant authorities of the Party and indicates the Party’s response, if any; and
- (f) is filed by a person of a Party.

3. The Parties recognize that the North American Agreement on Environmental Cooperation (“NAAEC”) provides that a person or organization residing or established in the territory of the United States may file a submission under that agreement with the Secretariat of the NAAEC Commission for Environmental Cooperation asserting that the United States is failing to effectively enforce its environmental laws. (Arrangements will be made for the United States to make available in a timely manner to the other Parties all such submissions, U.S. written responses, and factual records developed in connection with those submissions. At the request of any Party, the Council shall discuss such documents) In light of the availability of that procedure, a person of the United States who considers that the United States is failing to effectively enforce its environmental laws may not file a submission under this Article. For greater certainty, a person of a Party other than the United States who considers that the United States is failing to effectively enforce its environmental laws may file a submission with the secretariat.

4. Where the secretariat determines that a submission meets the criteria set out in paragraph 2, the secretariat shall determine whether the submission merits requesting a response from the Party. In deciding whether to request a response, the secretariat shall be guided by whether:

- (a) the submission is not frivolous and alleges harm to the person making the submission;
- (b) the submission, alone or in combination with other submissions, raises matters whose further study in this process would advance the goals of this Chapter and the ECA, taking into account guidance regarding those goals provided by the Council and the Environmental Cooperation Commission established under the ECA;
- (c) private remedies available under the Party’s law have been pursued; and
- (d) the submission is drawn exclusively from mass media reports.

Where the secretariat makes such a request, it shall forward to the Party a copy of the submission and any supporting information provided with the submission.

5. The Party shall advise the secretariat within 45 days or, in exceptional circumstances and on notification to the secretariat, within 60 days of delivery of the request:

- (a) whether the precise matter at issue is the subject of a pending judicial or administrative proceeding, in which case the secretariat shall proceed no further; and
- (b) of any other information the Party wishes to submit, such as:
  - (i) whether the matter was previously the subject of a judicial or administrative proceeding;
  - (ii) whether private remedies in connection with the matter are available to the person

making the submission and whether they have been pursued; or  
(iii) information concerning relevant capacity-building activities under the ECA.

#### Article 17.8: Factual Records and Related Cooperation

1. If the secretariat considers that the submission, in light of any response provided by the Party, warrants developing a factual record, the secretariat shall so inform the Council and provide its reasons.
2. The secretariat shall prepare a factual record if the Council, by a vote of any Party, instructs it to do so.
3. The preparation of a factual record by the secretariat pursuant to this Article shall be without prejudice to any further steps that may be taken with respect to any submission.
4. In preparing a factual record, the secretariat shall consider any information furnished by a Party and may consider any relevant technical, scientific, or other information:
  - (a) that is publicly available;
  - (b) submitted by interested persons;
  - (c) submitted by national advisory or consultative committees;
  - (d) developed by independent experts; or
  - (e) developed under the ECA.
5. The secretariat shall submit a draft factual record to the Council. Any Party may provide comments on the accuracy of the draft within 45 days thereafter.
6. The secretariat shall incorporate, as appropriate, any such comments in the final factual record and submit it to the Council.
7. The Council may, by a vote of any Party, make the final factual record publicly available, normally within 60 days following its submission.
8. The Council shall consider the final factual record in light of the objectives of this Chapter and the ECA. The Council shall, as appropriate, provide recommendations to the Environmental Cooperation Commission related to matters addressed in the factual record, including recommendations related to the further development of the Party's mechanisms for monitoring its environmental enforcement.

#### Article 17.9: Environmental Cooperation

4. The Parties have negotiated an ECA. The Parties have identified certain priority areas of cooperation for environmental activities as reflected in Annex 17.9 and as set out in the ECA. The Parties also have established an Environmental Cooperation Commission through the ECA that is responsible for developing, and periodically revising and updating, a work program that reflects each Party's priorities for cooperative environmental programs, projects, and activities.

5. The Parties also recognize the continuing importance of current and future environmental cooperation activities in other fora.

#### Article 17.10: Collaborative Environmental Consultations

1. A Party may request consultations with another Party regarding any matter arising under this Chapter by delivering a written request to the contact point that the other Party has designated under Article 17.5.1.
2. The consultations shall begin promptly after delivery of the request. The request shall contain information that is specific and sufficient to enable the Party receiving the request to respond.
3. The consulting Parties shall make every attempt to arrive at a mutually satisfactory resolution of the matter, taking into account opportunities for cooperation relating to the matter and information exchanged by the consulting Parties, and may seek advice or assistance from any person or body they deem appropriate in order to fully examine the matter at issue.
4. If the consulting Parties fail to resolve the matter pursuant to paragraph 3, a consulting Party may request that the Council be convened to consider the matter by delivering a written request to the contact point of each of the other Parties. (For purposes of paragraphs 4, 5, and 6, the Council shall consist of cabinet-level representatives of the consulting Parties or their designees).
5. The Council shall promptly convene and shall endeavor to resolve the matter, including, where appropriate, by consulting outside experts and having recourse to such procedures as good offices, conciliation, or mediation.
6. If the matter concerns whether a Party is conforming to its obligations under Article 17.2.1(a), and the consulting Parties have failed to resolve the matter within 60 days of a request under paragraph 1, the complaining Party may request consultations under Article 20.4 (Consultations) or a meeting of the Commission under Article 20.5 (Commission – Good Offices, Conciliation, and Mediation) and, as provided in Chapter Twenty (Dispute Settlement), thereafter have recourse to the other provisions of that Chapter. The Council may, as appropriate, provide information to the Commission regarding any consultations held on the matter.
7. No Party may have recourse to dispute settlement under this Agreement for any matter arising under any provision of this Chapter other than Article 17.2.1(a).
8. No Party may have recourse to dispute settlement under this Agreement for a matter arising under Article 17.2.1(a) without first pursuing resolution of the matter in accordance with this Article.
9. In cases where the consulting Parties agree that a matter arising under this Chapter would be more appropriately addressed under another agreement to which the consulting Parties are party, they shall refer the matter for appropriate action in accordance with that agreement.

#### Article 17.11: Environmental Roster

1. The Parties shall establish within six months after the date of entry into force of this Agreement and maintain a roster of up to 28 individuals who are willing and able to serve as panelists in disputes arising under Article 17.2.1(a). Unless the Parties otherwise agree, up to three members of the roster shall be nationals of each Party, and up to seven members of the roster shall be selected from among individuals who are not nationals of any Party. Environment roster members shall be appointed by consensus,

and may be reappointed. Once established, a roster shall remain in effect for a minimum of three years, and shall remain in effect thereafter until the Parties constitute a new roster. The Parties may appoint a replacement where a roster member is no longer available to serve.

#### Article 17.12: Relationship to Environmental Agreements

1. The Parties recognize that multilateral environmental agreements to which they are all party play an important role in protecting the environment globally and domestically and that their respective implementation of these agreements is critical to achieving the environmental objectives of these agreements. The Parties further recognize that this Chapter and the ECA can contribute to realizing the goals of those agreements.

Accordingly, the Parties shall continue to seek means to enhance the mutual supportiveness of multilateral environmental agreements to which they are all party and trade agreements to which they are all party.

2. The Parties may consult, as appropriate, with respect to ongoing negotiations in the WTO regarding multilateral environmental agreements.

#### Article 17.13: Definitions

For greater certainty, environmental law does not include any statute or regulation, or provision thereof, the primary purpose of which is managing the commercial harvest or exploitation, or subsistence or aboriginal harvesting, of natural resources.

For purposes of the definition of “environmental law,” the primary purpose of a particular statutory or regulatory provision shall be determined by reference to its primary purpose, rather than to the primary purpose of the statute or regulation of which it is part.

(b) an international dispute resolution proceeding to which the Party is a party.

2. Recognizing the benefits that would be derived from a framework to facilitate effective cooperation, the Parties negotiated the ECA. The Parties expect that the ECA will enhance their cooperative relationship, noting the existence of differences in the Parties' respective natural endowments, climatic and geographical conditions, and economic, technological, and infrastructure capabilities.

3. As set forth in Article V of the ECA, the Parties have identified the following priorities for environmental cooperation activities:

same basis as the Party providing the information.

6. In consultations under this Article, a consulting Party may request another consulting Party to make available personnel of its government agencies or other regulatory bodies who have expertise in the matter subject to consultations. (A consulting Party receiving such a request shall strive to accommodate it).

1. If the consulting Parties fail to resolve a matter pursuant to Article 20.4 within:

- (a) 60 days of delivery of a request for consultations;
- (b) 15 days of delivery of a request for consultations in matters regarding perishable goods; or

(c) such other period as they may agree, any such Party may request in writing a meeting of the Commission. (For purposes of this paragraph and paragraphs 2 and 4, the Commission shall consist of the cabinet-level representatives of the consulting Parties, as set out in Annex 19.1 (The Free Trade Commission), or their designees).

2. A consulting Party may also request in writing a meeting of the Commission where consultations have been held pursuant to Article 16.6 (Cooperative Labor Consultations), Article 17.10 (Collaborative Environmental Consultations), or Article 7.8 (Committee on Technical Barriers to Trade).

3. The requesting Party shall deliver the request to the other Parties, and shall set out the reasons for the request, including identification of the actual or proposed measure or other matter at issue and an indication of the legal basis for the complaint.

4. Unless it decides otherwise, the Commission shall convene within ten days of delivery of the request and shall endeavor to resolve the dispute promptly. The Commission may:

- (a) call on such technical advisers or create such working groups or expert groups as it deems necessary;
- (b) have recourse to good offices, conciliation, mediation, or such other dispute resolution procedures; or
- (c) make recommendations, as may assist the consulting Parties to reach a mutually satisfactory resolution of the dispute.

5. Unless it decides otherwise, the Commission shall consolidate two or more proceedings before it pursuant to this Article regarding the same measure or matter. The Commission may consolidate two or more proceedings regarding other matters before it pursuant to this Article that it determines are appropriate to be considered jointly. (For purposes of this paragraph, the Commission shall consist of the cabinet level representatives of the consulting Parties in the relevant proceedings, as set out in Annex 19.1 (The Free Trade Commission), or their designees).

#### Article 20.6: Request for an Arbitral Panel

1. If the consulting Parties fail to resolve a matter within:

- (a) 30 days after the Commission has convened pursuant to Article 20.5;
- (b) 30 days after the Commission has convened in respect of the matter most recently referred to it, where proceedings have been consolidated pursuant to Article 20.5.5;
- (c) 30 days after a Party has delivered a request for consultations under Article 20.4 in a matter regarding perishable goods, if the Commission has not convened pursuant to Article 20.5.4;
- (d) 75 days after a Party has delivered a request for consultations under Article 20.4, if

- the Commission has not convened pursuant to Article 20.5.4; or
- (e) such other period as the consulting Parties may agree, any consulting Party that requested a meeting of the Commission with regard to the measure or other matter in accordance with Article 20.5 may request in writing the establishment of an arbitral panel to consider the matter. The requesting Party shall deliver the request to the other Parties, and shall set out the reasons for the request, including identification of the measure or other matter at issue and an indication of the legal basis for the complaint.
2. An arbitral panel shall be established upon delivery of a request.
3. A Party that is eligible under paragraph 1 to request the establishment of a panel and considers it has a substantial interest in the matter may join the arbitral panel proceedings as a complaining Party on delivery of written notice to the other Parties. The notice shall be delivered at the earliest possible time, and in any event no later than seven days after the date of delivery of the request by the Party for the establishment of a panel.
4. If a Party does not join as a complaining Party in accordance with paragraph 3, it normally shall refrain thereafter from initiating or continuing:
- (a) a dispute settlement procedure under this Agreement; or
  - (b) a dispute settlement proceeding under the WTO Agreement or under another free trade agreement to which it and the Party complained against are party, on grounds that are substantially equivalent to those available to it under this Agreement, regarding the same matter in the absence of a significant change in economic or commercial circumstances.
5. Unless otherwise agreed by the disputing Parties, the panel shall be established and perform its functions in a manner consistent with the provisions of this Chapter.
6. An arbitral panel may not be established to review a proposed measure.

#### Article 20.7: Roster

1. The Parties shall establish within six months of the date of entry into force of this Agreement and maintain a roster of up to 70 individuals who are willing and able to serve as panelists. Unless the Parties otherwise agree, up to eight members of the roster shall be nationals of each Party, and up to 14 members of the roster shall be selected from among individuals who are not nationals of any Party. The roster members shall be appointed by consensus, and may be reappointed. Once established, a roster shall remain in effect for a minimum of three years, and shall remain in effect thereafter until the Parties constitute a new roster. The Parties may appoint a replacement where a roster member is no longer available to serve.
2. Roster members shall:
- (a) have expertise or experience in law, international trade, other matters covered by this Agreement, or the resolution of disputes arising under international trade agreements;
  - (b) be chosen strictly on the basis of objectivity, reliability, and sound judgment;

1. The Parties shall apply the following procedures in selecting a panel:
  - (a) the panel shall comprise three members;
  - (b) the disputing Parties shall endeavor to agree on the chair of the panel within 15 days of the delivery of the request for the establishment of the panel. If the disputing Parties are unable to agree on the chair within this period, the chair shall be selected by lot within three days from among the roster members who are not nationals of a disputing Party;
  - (c) within 15 days of selection of the chair, the complaining Party or Parties shall select one panelist and the Party complained against shall select one panelist;
  - (d) if the complaining Party or Parties or the Party complained against fail to select a panelist within this period, the panelist shall be selected by lot within three days from among the roster members who are nationals of such Party or Parties, as the case may be; and
  - (e) each disputing Party shall endeavor to select panelists who have expertise or experience relevant to the subject matter of the dispute, as appropriate.
2. Panelists shall normally be selected from the roster. Any disputing Party may exercise a peremptory challenge against any individual not on the roster who is proposed as a panelist by a disputing Party within 15 days after the individual has been proposed.
3. If a disputing Party believes that a panelist is in violation of the code of conduct, the disputing Parties shall consult and if they agree, the panelist shall be removed and a new panelist shall be selected in accordance with this Article.

##### Article 20.10: Rules of Procedure

1. The Commission shall establish by the date of entry into force of this Agreement Model Rules of Procedure, which shall ensure:
  - (a) a right to at least one hearing before the panel, which, subject to subparagraph (e), shall be open to the public;
  - (b) an opportunity for each disputing Party to provide initial and rebuttal written submissions;
  - (c) that each participating Party's written submissions, written versions of its oral statement, and written responses to a request or questions from the panel shall be public, subject to subparagraph (e);
  - (d) that the panel will consider requests from non-governmental entities in the disputing Parties' territories to provide written views regarding the dispute that may assist the panel in evaluating the submissions and arguments of the disputing Parties; and
  - (e) the protection of confidential information.
2. Unless the disputing Parties otherwise agree, the panel shall conduct its proceedings in accordance with the Model Rules of Procedure.
3. The Commission may modify the Model Rules of Procedure.
4. Unless the disputing Parties otherwise agree within 20 days from the date of the delivery of the request for the establishment of the panel, the terms of reference shall be: "To examine, in the light of the relevant provisions of this Agreement, the matter referenced in the panel request and to make findings, determinations, and recommendations as provided in Articles 20.10.6 and 20.13.3 and to deliver the written reports referred to in Articles 20.13 and 20.14."

5. If a complaining Party in its panel request has identified that a measure has nullified or impaired benefits, in the sense of Annex 20.2, the terms of reference shall so indicate.
6. If a disputing Party wishes the panel to make findings as to the degree of adverse trade effects on any Party of a Party's failure to conform with the obligations of this Agreement or of a Party's measure found to have caused nullification or impairment in the sense of Annex 20.2, the terms of reference shall so indicate.

#### Article 20.11: Third Party Participation

A Party that is not a disputing Party, on delivery of a written notice to the disputing Parties, shall be entitled to attend all hearings, to make written and oral submissions to the panel, and to receive written submissions of the disputing Parties in accordance with the Model Rules of Procedure. Those submissions shall be reflected in the final report of the panel.

#### Article 20.12: Role of Experts

On request of a disputing Party, or on its own initiative, the panel may seek information and technical advice from any person or body that it deems appropriate, provided that the disputing Parties so agree and subject to such terms and conditions as such Parties may agree.

#### Article 20.13: Initial Report

1. Unless the disputing Parties otherwise agree, the panel shall base its report on the relevant provisions of this Agreement, the submissions and arguments of the disputing Parties, and on any information before it pursuant to Article 20.12.
2. If the disputing Parties request, the panel may make recommendations for resolution of the dispute.
3. Unless the disputing Parties otherwise agree, the panel shall, within 120 days after the last panelist is selected or such other period as the Model Rules of Procedure established pursuant to Article 20.10 may provide, present to the disputing Parties an initial report containing:
  - (a) findings of fact, including any findings pursuant to a request under Article 20.10.6;
  - (b) its determination as to whether a disputing Party has not conformed with its obligations under this Agreement or that a Party's measure is causing nullification or impairment in the sense of Annex 20.2, or any other determination requested in the terms of reference; and
  - (c) its recommendations, if the disputing Parties have requested them, for resolution of the dispute.
4. When the panel considers that it cannot provide its report within 120 days, it shall inform the disputing Parties in writing of the reasons for the delay together with an estimate of the period within which it will provide its report. In no case should the period to provide the report exceed 180 days. The panel shall inform the disputing Parties of any determination under this paragraph no later than seven days after the initial written submission of the complaining Party or Parties and shall adjust the remainder of the schedule accordingly.
5. Panelists may furnish separate opinions on matters not unanimously agreed.
6. A disputing Party may submit written comments to the panel on its initial report within 14 days of presentation of the report or within such other period as the disputing Parties may agree.

7. After considering any written comments on the initial report, the panel may reconsider its report and make any further examination it considers appropriate.

#### Article 20.14: Final Report

1. The panel shall present a final report to the disputing Parties, including any separate opinions on matters not unanimously agreed, within 30 days of presentation of the initial report, unless the disputing Parties otherwise agree. The disputing Parties shall release the final report to the public within 15 days thereafter, subject to the protection of confidential information.

2. No panel may, either in its initial report or its final report, disclose which panelists are associated with majority or minority opinions.

#### Article 20.15: Implementation of Final Report

1. On receipt of the final report of a panel, the disputing Parties shall agree on the resolution of the dispute, which normally shall conform with the determinations and recommendations, if any, of the panel.

2. If, in its final report, the panel determines that a disputing Party has not conformed with its obligations under this Agreement or that a disputing Party's measure is causing nullification or impairment in the sense of Annex 20.2, the resolution, whenever possible, shall be to eliminate the non-conformity or the nullification or impairment.

(Compensation, the payment of monetary assessments, and the suspension of benefits are intended as temporary measures pending the elimination of any non-conformity or nullification or impairment that the panel has found).

3. Where appropriate, the disputing Parties may agree on a mutually satisfactory action plan to resolve the dispute, which normally shall conform with the determinations and recommendations, if any, of the panel. If the disputing Parties agree on such an action plan, a complaining Party may have recourse to Article 20.16.2 or Article 20.17.1, as the case may be, only if it considers that the Party complained against has failed to carry out the action plan. (For greater certainty, as part of an action plan the disputing Parties may undertake, modify, or enhance cooperation activities).

#### Article 20.16: Non-Implementation – Suspension of Benefits

1. If a panel has made a determination of the type described in Article 20.15.2, and the disputing Parties are unable to reach agreement on a resolution pursuant to Article 20.15 within 45 days of receiving the final report, or such other period as the disputing Parties agree, the Party complained against shall enter into negotiations with the complaining Party or Parties with a view to developing mutually acceptable compensation.

2. If the disputing Parties:

(a) are unable to agree on compensation within 30 days after the period for developing such compensation has begun; or

(b) have agreed on compensation or on a resolution pursuant to Article 20.15 and a complaining Party considers that the Party complained against has failed to observe the terms of the agreement, any such complaining Party may at any time thereafter provide written notice to the Party complained against that it intends to suspend the application to the Party complained against of benefits of equivalent effect. The notice shall specify the level of benefits that the Party proposes to suspend. Subject to paragraph 6, the complaining Party may begin suspending benefits 30 days after the later of the date on

which it provides notice under this paragraph or the panel issues its determination under paragraph 3, as the case may be.

3. If the Party complained against considers that:

(a) the level of benefits proposed to be suspended is manifestly excessive; or  
(b) it has eliminated the non-conformity or the nullification or impairment that the panel has found, it may, within 30 days after the complaining Party provides notice under paragraph 2, request that the panel be reconvened to consider the matter. The Party complained against shall deliver its request in writing to the complaining Party. The panel shall reconvene as soon as possible after delivery of the request and shall present its determination to the disputing Parties within 90 days after it reconvenes to review a request under subparagraph (a) or (b), or within 120 days for a request under subparagraphs (a) and (b). If the panel determines that the level of benefits proposed to be suspended is manifestly excessive, it shall determine the level of benefits it considers to be of equivalent effect.

4. The complaining Party may suspend benefits up to the level the panel has determined under paragraph 3 or, if the panel has not determined the level, the level the complaining Party has proposed to suspend under paragraph 2, unless the panel has determined that the Party complained against has eliminated the non-conformity or the nullification or impairment.

5. In considering what benefits to suspend pursuant to paragraph 2:

(a) the complaining Party should first seek to suspend benefits in the same sector or sectors as that affected by the measure or other matter that the panel has found to be inconsistent with the obligations of this Agreement or to have caused nullification or impairment in the sense of Annex 20.2; and

(b) if the complaining Party considers that it is not practicable or effective to suspend benefits in the same sector or sectors, it may suspend benefits in other sectors.

6. The complaining Party may not suspend benefits if, within 30 days after it provides written notice of intent to suspend benefits or, if the panel is reconvened under paragraph 3, within 20 days after the panel provides its determination, the Party complained against provides written notice to the complaining Party that it will pay an annual monetary assessment. The disputing Parties shall consult, beginning no later than ten days after the Party complained against provides notice, with a view to reaching agreement on the amount of the assessment. If the disputing Parties are unable to reach an agreement within 30 days after consultations begin, the amount of the assessment shall be set at a level, in U.S. dollars, equal to 50 percent of the level of the benefits the panel has determined under paragraph 3 to be of equivalent effect or, if the panel has not determined the level, 50 percent of the level that the complaining Party has proposed to suspend under paragraph 2.

7. Unless the Commission otherwise decides, a monetary assessment shall be paid to the complaining Party in U.S. dollars, or in an equivalent amount of the currency of the Party complained against, in equal, quarterly installments beginning 60 days after the Party complained against gives notice that it intends to pay an assessment. Where the circumstances warrant, the Commission may decide that an assessment shall be paid into a fund established by the Commission and expended at the direction of the Commission for appropriate initiatives to facilitate trade between the disputing Parties, including by further reducing unreasonable trade barriers or by assisting a disputing Party in carrying out its obligations under this Agreement. (For purposes of this paragraph, the Commission shall consist of the cabinet-level representatives of the

disputing Parties, as set out in Annex 19.1 (The Free Trade Commission), or their designees).

8. If the Party complained against fails to pay a monetary assessment, the complaining Party may suspend the application to the Party complained against of benefits in accordance with paragraph 4.

9. This Article shall not apply with respect to a matter described in Article 20.17.1.

#### Article 20.17: Non-Implementation In Certain Disputes

1. If, in its final report, a panel determines that a Party has not conformed with its obligations under Article 16.2.1(a) (Enforcement of Labor Laws) or Article 17.2.1(a) (Enforcement of Environmental Laws), and the disputing Parties:

(a) are unable to reach agreement on a resolution pursuant to Article 20.15 within 45 days of receiving the final report; or

(b) have agreed on a resolution pursuant to Article 20.15 and a complaining Party considers that the Party complained against has failed to observe the terms of the agreement, any such complaining Party may at any time thereafter request that the panel be reconvened to impose an annual monetary assessment on the Party complained against. The complaining Party shall deliver its request in writing to the Party complained against. The panel shall reconvene as soon as possible after delivery of the request.

2. The panel shall determine the amount of the monetary assessment in U.S. dollars within 90 days after it reconvenes under paragraph 1. In determining the amount of the assessment, the panel shall take into account:

(a) the bilateral trade effects of the Party's failure to effectively enforce the relevant law;

(b) the pervasiveness and duration of the Party's failure to effectively enforce the relevant law;

(c) the reasons for the Party's failure to effectively enforce the relevant law, including, where relevant, its failure to observe the terms of an action plan;

(d) the level of enforcement that could reasonably be expected of the Party given its resource constraints;

(e) the efforts made by the Party to begin remedying the non-enforcement after the final report of the panel, including through the implementation of any mutually agreed action plan; and

(f) any other relevant factors.

The amount of the assessment shall not exceed 15 million U.S. dollars annually, adjusted for inflation as specified in Annex 20.17.

3. On the date on which the panel determines the amount of the monetary assessment under paragraph 2, or at any time thereafter, the complaining Party may provide notice in writing to the Party complained against demanding payment of the monetary assessment. The monetary assessment shall be payable in U.S. dollars, or in an equivalent amount of the currency of the Party complained against, in equal, quarterly installments beginning 60 days after the complaining Party provides such notice.

4. Assessments shall be paid into a fund established by the Commission and shall be expended at the direction of the Commission for appropriate labor or environmental initiatives, including efforts to improve or enhance labor or environmental law enforcement, as the case may be, in the territory of the Party complained against, consistent with its law. In deciding how to expend monies paid into the fund, the

Commission shall consider the views of interested persons in the disputing Parties' territories. (For purposes of this paragraph, the Commission shall consist of the cabinet level representatives of the disputing Parties, as set out in Annex 19.1 (The Free Trade Commission), or their designees).

5. If the Party complained against fails to pay a monetary assessment, the complaining Party may take other appropriate steps to collect the assessment or otherwise secure compliance. These steps may include suspending tariff benefits under the Agreement as necessary to collect the assessment, while bearing in mind the Agreement's objective of eliminating barriers to trade and while seeking to avoid unduly affecting parties or interests not party to the dispute.

#### Article 20.18: Compliance Review

1. Without prejudice to the procedures set out in Article 20.16.3, if the Party complained against considers that it has eliminated the non-conformity or the nullification or impairment that the panel has found, it may refer the matter to the panel by providing written notice to the complaining Party or Parties. The panel shall issue its report on the matter within 90 days after the Party complained against provides notice.

2. If the panel decides that the Party complained against has eliminated the non conformity or the nullification or impairment, the complaining Party or Parties shall promptly reinstate any benefits that Party has or those Parties have suspended under Article 20.16 or Article 20.17 and the Party complained against shall no longer be required to pay any monetary assessment it has agreed to pay under Article 20.16.6 or that has been imposed on it under Article 20.17.1.

#### Article 20.19: Five-Year Review

The Commission shall review the operation and effectiveness of Articles 20.16 and 20.17 not later than five years after the Agreement enters into force, or within six months after benefits have been suspended or monetary assessments have been imposed in five proceedings initiated under this Chapter, whichever occurs first.

### Section B: Domestic Proceedings and Private Commercial Dispute Settlement

#### Article 20.20: Referral of Matters from Judicial or Administrative Proceedings

1. If an issue of interpretation or application of this Agreement arises in any domestic judicial or administrative proceeding of a Party that any Party considers would merit its intervention, or if a court or administrative body solicits the views of a Party, that Party shall notify the other Parties. The Commission shall endeavor to agree on an appropriate response as expeditiously as possible.

2. The Party in whose territory the court or administrative body is located shall submit any agreed interpretation of the Commission to the court or administrative body in accordance with the rules of that forum.

3. If the Commission is unable to agree, any Party may submit its own views to the court or administrative body in accordance with the rules of that forum.

#### Article 20.21: Private Rights

No Party may provide for a right of action under its law against any other Party on the ground that the other Party has failed to conform with its obligations under this Agreement.

#### Article 20.22: Alternative Dispute Resolution

1. Each Party shall, to the maximum extent possible, encourage and facilitate the use of arbitration and other means of alternative dispute resolution for the settlement of international commercial disputes between private parties in the free trade area.
2. To this end, each Party shall provide appropriate procedures to ensure observance of agreements to arbitrate and for the recognition and enforcement of arbitral awards in such disputes.
3. A Party shall be deemed to be in compliance with paragraph 2 if it is a party to and is in compliance with the 1958 United Nations Convention on the Recognition and Enforcement of Foreign Arbitral Awards or the 1975 Inter-American Convention on International Commercial Arbitration.
4. The Commission may establish an Advisory Committee on Private Commercial Disputes comprising persons with expertise or experience in the resolution of private international commercial disputes.
5. This committee shall:
  - (a) report and provide recommendations to the Commission on general issues referred to it by the Commission respecting the availability, use, and effectiveness of arbitration and other procedures for the resolution of such disputes in the free trade area; and
  - (b) when the committee considers appropriate, promote technical cooperation between the Parties, in furtherance of the objectives identified in paragraph 1.

#### Annex 20.2

##### Nullification or Impairment

1. If any Party considers that any benefit it could reasonably have expected to accrue to it under any provision of:
  - (a) Chapters Three through Five (National Treatment and Market Access for Goods, Rules of Origin and Origin Procedures, and Customs Administration and Trade Facilitation);
  - (b) Chapter Seven (Technical Barriers to Trade);
  - (c) Chapter Nine (Government Procurement);
  - (d) Chapter Eleven (Cross-Border Trade in Services); or
  - (e) Chapter Fifteen (Intellectual Property Rights), is being nullified or impaired as a result of the application of any measure that is not inconsistent with this Agreement, the Party may have recourse to dispute settlement under this Chapter.
2. A Party may not invoke paragraph 1(d) or (e) with respect to any measure subject to an exception under Article 21.1 (General Exceptions).

#### Annex 20.17

##### Inflation Adjustment Formula for Monetary Assessments

1. An annual monetary assessment imposed before December 31, 2005 shall not exceed 15 million dollars (U.S.).
2. Beginning January 1, 2006, the 15 million dollar (U.S.) annual cap shall be adjusted for inflation in accordance with paragraphs 3 through 5.
3. The period used for the accumulated inflation adjustment shall be calendar year 2004 through the most recent calendar year preceding the one in which the assessment is owed.
4. The relevant inflation rate shall be the U.S. inflation rate as measured by the Producer Price Index for Finished Goods published by the U.S. Bureau of Labor Statistics.

5. The inflation adjustment shall be estimated according to the following formula:

$$\$15 \text{ million} \times (1 + \pi_i) = A$$

$\pi_i$  = accumulated U.S. inflation rate from calendar year 2004 through the most recent calendar year preceding the one in which the assessment is owed.

A = cap for the assessment for the year in question.

## Chapter Twenty-One

### Exceptions

#### Article 21.1: General Exceptions

1. For purposes of Chapters Three through Seven (National Treatment and Market Access for Goods, Rules of Origin and Origin Procedures, Customs Administration and Trade Facilitation, Sanitary and Phytosanitary Measures, and Technical Barriers to Trade), Article XX of the GATT 1994 and its interpretive notes are incorporated into and made part of this Agreement, *mutatis mutandis*. The Parties understand that the measures referred to in Article XX(b) of the GATT 1994 include environmental measures necessary to protect human, animal, or plant life or health, and that Article XX(g) of the GATT 1994 applies to measures relating to the conservation of living and non-living exhaustible natural resources.

2. For purposes of Chapters Eleven, Thirteen, and Fourteen (this Article is without prejudice to whether digital products should be classified as goods or services) (Cross Border Trade in Services, Telecommunications, and Electronic Commerce), Article XIV of the GATS (including its footnotes) is incorporated into and made part of this Agreement, *mutatis mutandis*. The Parties understand that the measures referred to in Article XIV(b) of the GATS include environmental measures necessary to protect human, animal, or plant life or health.

#### Article 21.2: Essential Security

Nothing in this Agreement shall be construed:

- (a) to require a Party to furnish or allow access to any information the disclosure of which it determines to be contrary to its essential security interests; or
- (b) to preclude a Party from applying measures that it considers necessary for the fulfillment of its obligations with respect to the maintenance or restoration of international peace or security, or the protection of its own essential security interests.

#### Article 21.3: Taxation

1. Except as set out in this Article, nothing in this Agreement shall apply to taxation measures.

2. Nothing in this Agreement shall affect the rights and obligations of any Party under any tax convention. In the event of any inconsistency between this Agreement and any such convention, that convention shall prevail to the extent of the inconsistency. In the case of a tax convention between two or more Parties, the competent authorities under that convention shall have sole responsibility for determining whether any inconsistency exists between this Agreement and that convention.

3. Notwithstanding paragraph 2:

- (a) Article 3.2 (National Treatment) and such other provisions of this Agreement as are necessary to give effect to that Article shall apply to taxation measures to the same extent as does Article III of the GATT 1994; and
- (b) Article 3.10 (Export Taxes) shall apply to taxation measures.

4. Subject to paragraph 2:

- (a) Article 11.2 (National Treatment) and Article 12.2 (National Treatment) shall apply to taxation measures on income, capital gains, or on the taxable capital of corporations that relate to the purchase or consumption of particular services, except that nothing in this subparagraph shall prevent a Party from conditioning the receipt or continued receipt of an advantage relating to the purchase or consumption of particular services

on requirements to provide the service in its territory; and

(b) Articles 10.3 (National Treatment) and 10.4 (Most-Favored-Nation Treatment), Articles 11.2 (National Treatment) and 11.3 (Most-Favored-Nation Treatment) and Articles 12.2 (National Treatment) and 12.3 (Most-Favored-Nation Treatment) shall apply to all taxation measures, other than those on income, capital gains, or on the taxable capital of corporations, taxes on estates, inheritances, gifts, and generation skipping transfers, except that nothing in those Articles shall apply:

(c) any most-favored-nation obligation with respect to an advantage accorded by a Party pursuant to any tax convention;

(d) to a non-conforming provision of any existing taxation measure;

(e) to the continuation or prompt renewal of a non-conforming provision of any existing taxation measure;

(f) to an amendment to a non-conforming provision of any existing taxation measure to the extent that the amendment does not decrease its conformity, at the time of the amendment, with any of those Articles;

(g) to the adoption or enforcement of any taxation measure aimed at ensuring the equitable or effective imposition or collection of taxes (as permitted by Article XIV(d) of the GATS); or

(h) to a provision that conditions the receipt, or continued receipt, of an advantage relating to the contributions to, or income of, pension trusts or pension plans on a requirement that the Party maintain continuous jurisdiction over the pension trust or pension plan.

5. Subject to paragraph 2 and without prejudice to the rights and obligations of the Parties under paragraph 3, Article 10.9.2, 10.9.3, and 10.9.4 (Performance Requirements) shall apply to taxation measures.

6. Article 10.7 (Expropriation and Compensation) and Article 10.16 (Submission of a Claim to Arbitration) shall apply to a taxation measure alleged to be an expropriation or a breach of an investment agreement or investment authorization. However, no investor may invoke Article 10.7 as the basis of a claim where it has been determined pursuant to this paragraph that the measure is not an expropriation. An investor that seeks to invoke Article 10.7 with respect to a taxation measure must first refer to the competent authorities of the Parties of the claimant and the respondent set out in Annex 21.3 at the time that it gives its notice of intent under Article 10.16.2 the issue of whether that taxation measure involves an expropriation. If the competent authorities do not agree to consider the issue or, having agreed to consider it, fail to agree that the measure is not an expropriation within a period of six months of such referral, the investor may submit its claim to arbitration under Article 10.16.

#### Article 21.4: Balance of Payments Measures on Trade in Goods

Should a Party decide to impose measures for balance of payments purposes, it shall do so only in accordance with that Party's rights and obligations under the GATT 1994, including the Declaration on Trade Measures Taken for Balance of Payments Purposes (1979 Declaration) and the Understanding on the Balance of Payments Provisions of the GATT 1994 (BOP Understanding). In adopting such measures, the Party shall immediately consult with the other Parties and shall not impair the relative benefits accorded to the other Parties under this Agreement. (For greater certainty, this Article applies to balance of payments measures imposed on trade in goods).

#### Article 21.5: Disclosure of Information

##### SPECIAL RULES OF ORIGIN

##### PART I

##### GENERAL INTERPRETIVE NOTES

1. For purposes of interpreting the rules of origin set out in this Appendix:
  - (a) the specific rule, or specific set of rules, that applies to a particular heading or subheading is set out immediately adjacent to the heading or subheading;
  - (b) the requirement of a change in tariff classification applies only to non-originating materials;
  - (c) where a specific rule of origin is defined using the criterion of a change in tariff classification, and the rule is written to exclude tariff provisions at the level of a chapter, heading, or subheading, each Party shall construe the rule of origin to require that materials classified in those excluded provisions be originating for the good to be originating;
  - (d) when a heading or subheading is subject to alternative specific rules of origin, each Party shall consider the rule to be met if a good satisfies one of the alternatives;
  - (e) when a single rule of origin is applicable to a group of headings or subheadings and that rule of origin specifies a change of heading or subheading, each Party shall interpret the rule such that the change of heading or subheading may occur within a single heading or subheading or between headings or subheadings of the group. When, however, a rule refers to a change in heading or subheading "outside that group," each

Party shall interpret the rule to require that the change in heading or subheading must occur from a heading or subheading that is outside the group of headings or subheadings set out in the rule;

(f) reference to weight in the rules for goods provided for in chapter 1 through 24 means dry weight unless otherwise specified in the Harmonized System;

2. For purposes of this Appendix:

chapter means a chapter of the Harmonized System; and

section means a section of the Harmonized System.

#### Annex 4.1

##### Specific Rules of Origin

##### Part I – General Interpretative Notes

1. For purposes of interpreting the rules of origin set forth in this Annex:

- (a) the specific rule, or specific set of rules, that applies to a particular heading or subheading is set out immediately adjacent to the heading or subheading;
- (b) the requirement of a change in tariff classification applies only to non-originating materials;
- (c) where a specific rule of origin is defined using the criterion of a change in tariff classification, and the rule is written to exclude tariff provisions at the level of a chapter, heading, or subheading, each Party shall construe the rule of origin to require that materials classified in those excluded provisions be originating for the good to be originating;
- (d) when a heading or subheading is subject to alternative specific rules of origin, each Party shall consider the rule to be met if a good satisfies one of the alternatives;
- (e) when a single rule of origin is applicable to a group of headings or subheadings and that rule of origin specifies a change of heading or subheading, each Party shall interpret the rule such that the change of heading or subheading may occur within a single heading or subheading or between headings or subheadings of the group. When, however, a rule refers to a change in heading or subheading “outside that group,” each Party shall interpret the rule to require that the change in heading or subheading must

occur from a heading or subheading that is outside the group of headings or subheadings set out in the rule;

### Note

For purposes of this chapter, a “chemical reaction” is a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

The following are not considered to be chemical reactions for the purposes of this definition:

- (a) dissolving in water or other solvents;
- (b) the elimination of solvents, including solvent water; or
- (c) the addition or elimination of water of crystallization.

For purposes of heading 27.10, the following processes confer origin:

- (a) Atmospheric distillation: A separation process in which petroleum oils are converted, in a distillation tower, into fractions according to boiling point and the vapor then condensed into different liquefied fractions.
- (b) Vacuum distillation: Distillation at a pressure below atmospheric but not so low that it would be classed as molecular distillation.

## Section VI

Products of the Chemical or Allied Industries (Chapter 28-38)

Notes to Section VI:

Note 1

Rules 1 through 7 of this Section confer origin to a good of any chapter or heading in this Section, except as otherwise specified in those rules.

Note 2

Notwithstanding Note 1, a good is originating if it meets the applicable change in tariff classification specified in the rules of origin in this Section.

Rule 1: Chemical Reaction

A good, except a good of heading 38.23, that results from a chemical reaction in the territory of one or more of the Parties shall be treated as originating

Note: For purposes of this Section, a "chemical reaction" is a process (including a biochemical process) that results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

The following are not considered to be chemical reactions for the purposes of determining whether a good is originating:

- (a) dissolution in water or in another solvent;
- (b) the elimination of solvents, including solvent water; or
- (c) the addition or elimination of water of crystallization.

Rule 2: Purification

For a good of chapters 28 through 35 or 38, a good that is subject to purification shall be treated as originating provided that one of the following occurs in the territory of one or more of the Parties:

- (a) the purification results in the elimination of 80 percent of the impurities; or
- (b) the purification results in the reduction or elimination of impurities, rendering the good suitable:
  - (i) as a pharmaceutical, medicinal, cosmetic, veterinary, or food grade substance;
  - (ii) as a chemical good or reagent for analytical, diagnostic, or laboratory uses;
  - (iii) as an element or component for use in micro-elements;
  - (iv) for specialized optical uses;
  - (v) for non toxic uses for health and safety;
  - (vi) for biotechnical use;
  - (vii) as a carrier used in a separation process; or
  - (viii) for nuclear grade uses.

### Rule 3: Mixtures and Blends

A good of chapters 30 or 31, heading 33.02, subheading 3502.20, heading 35.06 through 35.07, or 37.07 shall be treated as originating if the deliberate and proportionally controlled mixing or blending (including dispersing) of materials to conform to predetermined specifications, resulting in the production of a good having physical or chemical characteristics which are relevant to the purposes or uses of the good and are different from the input materials, occurs in the territory of one or more of the Parties.

### Rule 4: Change in Particle Size

A good of chapter 30 or 31 shall be treated as originating if the following occurs in the territory of one or more of the Parties:

(a) the deliberate and controlled reduction in particle size of a good, other than by merely crushing (or pressing), resulting in a good having a defined particle size, defined particle size distribution, or defined surface area, which are relevant to the purposes of the resulting good and have different physical or chemical characteristics from the input materials; or

(b) the deliberate and controlled modification in particle size of a good, other than by merely pressing, resulting in a good having a defined particle size, defined particle size distribution, or defined surface area, which are relevant to the purposes of the resulting good and have different physical or chemical characteristics from the input materials is considered to be origin conferring.

### Rule 5: Standards Materials

A good of chapters 28 through 32, 35 or 38, shall be treated as originating if the production of these materials occurs in the territory of one or more of the Parties. For purposes of this rule, "standards materials" (including standards solutions) are preparations suitable for analytical, calibrating, or referencing uses, having precise degrees of purity or proportions which are certified by the manufacturer.

### Rule 6: Isomer Separation

A good of chapters 28 through 32 or 35 shall be treated as originating if the isolation or separation of isomers from mixtures of isomers occurs in the territory of one or more of the Parties.

### Rule 7: Separation Prohibition

A good that undergoes a change from one classification to another in the territory of one of more of the Parties as the result of the separation of one or more materials from a man-made mixture shall not be treated as originating unless the isolated material underwent a chemical reaction in the territory of one or more of the Parties

## Section VII

Plastics and Articles Thereof; Rubber and Articles Thereof (Chapter 39 40)

Notes to Section VII:

Note 1

Rules 1 through 5 of this Section confer origin to a good of any chapter or heading in this Section, except as otherwise specified in those rules.

Note 2

Notwithstanding Note 1, a good is originating if it meets the applicable change in tariff classification or satisfies the applicable regional value content specified in the rules of origin in this Section.

Rule 1: Chemical Reaction

A good of chapter 39 or 40 that results from a chemical reaction in the territory of one or more of the Parties shall be treated as originating.

For purposes of this Section, a “chemical reaction” is a process (including a biochemical process) that results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

The following are not considered to be chemical reactions for the purposes of determining whether a good is originating:

- (a) dissolution in water or another solvent;
- (b) the elimination of solvents including solvent water; or

(c) the addition or elimination of water of crystallization.

Rule 2: Purification

A good of chapter 39 shall be treated as originating provided that one of the following occurs in the territory of one or more of the Parties:

- (a) the purification of a good results in the elimination of 80 percent of existing impurities; or
- (b) the purification results in the reduction or elimination of impurities, rendering the good suitable:
  - (i) as a pharmaceutical, medicinal, cosmetic, veterinary, or food grade substance;
  - (ii) as a chemical good or reagent for analytical, diagnostic or laboratory use;
  - (iii) as an element or component for use in micro-elements;
  - (iv) for specialized optical use;
  - (v) for non toxic use for health and safety;
  - (vi) for biotechnical use;
  - (vii) as a carrier used in a separation process; or
  - (viii) for nuclear grade use.

Rule 3: Mixtures and Blends

A good of chapters 39 or 40 shall be treated as originating if the deliberate and proportionally controlled mixing or blending (including dispersing) of materials to conform to predetermined specifications which results in the production of a good having physical or chemical characteristics which are relevant to the purposes or uses of the good and are different from the input materials occurs in the territory of one or more of the Parties.

Rule 4: Change in Particle Size

A good of chapter 39 shall be treated as originating if the following occurs in the territory of one or more of the Parties:

- (a) the deliberate and controlled reduction in particle size of a good, other than by merely crushing or pressing resulting in a good having a defined particle size, defined particle size distribution or defined surface area, which are relevant to the purposes of the resulting good and have different physical or chemical characteristics from the input materials is considered to be origin conferring; or
- (b) the deliberate and controlled modification in particle size of a good, other than by merely pressing, resulting in a good having a defined particle size, defined particle size distribution or defined surface area, which are relevant to the purposes of the resulting good and have different physical or chemical characteristics from the input materials is considered to be origin conferring.

Rule 5: Isomer Separation

A good of chapter 39 is originating if the isolation or separation of isomers from mixtures of isomers occurs in the territory of one or more of the Parties.

Chapter 39

Cumulation in Chapter 62 of the Harmonized System

1. For purposes of determining whether a good of chapter 62 of the Harmonized System is originating, materials used in the production of such a good that are produced in Canada or Mexico and that would be originating under this Agreement if produced in the territory of a Party shall be considered as having been produced in the territory of a Party.

(a) This Rule shall enter into force for materials described in paragraph 1 produced in Mexico on the date on which:

(i) the Central American Parties and the United States have exchanged written notifications that they have amended their laws, as necessary, and tariff schedules to implement this Rule, and have provided copies of the notifications to Mexico; and

(ii) (A) each free trade agreement between Mexico, on the one hand, and the Central American Parties, on the other, has been amended; and

(B) the Central American Parties and Mexico have exchanged written notifications, and provided copies of the notifications to the United States, that they have amended their laws, as necessary, and tariff schedules to provide for the reciprocal application of this Rule; and

(iii) the United States has entered into an agreement with Mexico to provide for textile verifications substantially similar to those set forth in Article 3.24 (Customs Cooperation), including document review and on-site visits, for materials produced in the territory of Mexico used to produce a good claimed to be originating under this Rule.

(b) This Rule shall enter into force for materials described in paragraph 1 produced in Canada on the date on which:

(i) the Central American Parties and the United States have exchanged written notifications that they have amended their laws, as necessary, and tariff schedules to implement this Rule, and have provided copies of the notifications to Canada; and

(ii) (A) each free trade agreement between Canada, on the one hand, and the Central American Parties, on the other, has been amended; and

(B) the Central American Parties and Canada have exchanged written notifications, and provided copies of the notifications to the United States, that they have amended their laws, as necessary, and tariff schedules to provide for the reciprocal application of this Rule; and

(iii) the United States has entered into an agreement with Canada to provide for textile verifications substantially similar to those set forth in Article 3.24 (Customs Cooperation), including document review and on-site visits, for materials produced in the territory of Canada used to produce a good claimed to be originating under this Rule.

(c) For purposes of this Rule, operations performed in the Dominican Republic shall be considered as if the operations were performed in the territory of a non-Party until the

2. Such treatment shall be limited to goods imported into the territory of the United States from another Party or Parties up to the overall limit specified in paragraph 3. For purposes of determining the quantity of square meter equivalents (SME) charged against the overall limit, the conversion factors listed in Correlation: U.S. Textile and Apparel Category System with the Harmonized Tariff Schedule of the United States of America 2003, U.S. Department of Commerce, Office of Textiles and Apparel, or successor publication, shall apply.

3. Subject to the sublimits set out below, the overall limit shall not exceed 100 million SME in the first calendar year that goods qualify for entry under this provision. If this provision enters into force after January 1 of that year, these limits shall be reduced in proportion to the number of full months of that year that have expired. Thereafter,

during the term of this Agreement, the overall limit may increase up to a maximum of 200 million SME in a calendar year, and the sublimits may increase so that they represent the same proportion of the overall limit as in the first calendar year. Each percentage increase of the limits shall correspond to the percentage date on which the Dominican Republic has provided written notifications to the Central American Parties and the United States that it has amended its law, as necessary, and tariff schedule to implement this Rule, and has provided copies of the notifications to Canada or Mexico, as the case may be. Further, operations performed in the Dominican Republic shall be considered as if the operations were performed in the territory of a non- Party beginning five years after the date this Agreement enters into force, unless:

(i) with respect to materials described in paragraph 1 produced in Mexico:

(A) the Dominican Republic has concluded a free trade agreement with Mexico; and

(B) the Dominican Republic and Mexico have exchanged written notifications, and provided copies of the notifications to the Central American Parties and the United States, that they have amended their laws, as necessary, and tariff schedules to provide for the reciprocal application of this Rule; or

(ii) with respect to materials described in paragraph 1 produced in Canada:

(A) the Dominican Republic has concluded a free trade agreement with Canada; and

(B) the Dominican Republic and Canada have exchanged written notifications, and provided copies of the notifications to the Central American Parties and the United States, that they have amended their laws, as necessary, and tariff schedules to provide for the reciprocal application of this Rule.

(d) The Parties may consult to consider whether this Rule should be extended to materials produced in a country other than Canada and Mexico, subject to application of the conditions of this note with respect to that country, as appropriate.

increase in imports into the territory of the United States from the other Parties of originating goods of chapter 62 of the Harmonized System. (No later than three months after the date of entry into force of this Agreement, the Parties shall consult to increase the limits specified in this paragraph to take into account the ability of the Dominican Republic to participate in such limits. The Parties shall seek to reach agreement within 60 days after such consultations begin. Any such increase shall take effect at such time as the Parties may agree, but no sooner than such time as the Dominican Republic has satisfied the applicable conditions set out in footnote 1).

(a) Not more than 45 million SME may be cotton or man-made fiber trousers and skirts in textile categories 342, 347, 348, 642, 647, or 648, excluding items identified in subparagraph (b).

(b) Not more than 20 million SME may be cotton blue denim trousers within tariff item 6203.42.aa or 6204.62.aa and blue denim skirts within tariff item 6204.52.aa.

## ANNEX I

### Explanatory Notes

1. The Schedule of a Party to this Annex sets out, pursuant to Articles 10.13 (Non-Conforming Measures) and 11.6 (Non-Conforming Measures), a Party's existing measures that are not subject to some or all of the obligations imposed by:

- (a) Articles 10.3 (National Treatment) or 11.2 (National Treatment);
- (b) Articles 10.4 (Most-Favored-Nation Treatment) or 11.3 (Most-Favored-Nation Treatment);
- (c) Article 11.5 (Local Presence);
- (d) Article 10.9 (Performance Requirements);
- (e) Article 10.10 (Senior Management and Boards of Directors); or
- (f) Article 11.4 (Market Access).

2. Each Schedule entry sets out the following elements:

- (a) Sector refers to the sector for which the entry is made;
- (b) Obligations Concerned specifies the obligation(s) referred to in paragraph 1 that, pursuant to Articles 10.13 (Non-Conforming Measures) and 11.6 (Non-Conforming Measures), do not apply to the listed measure(s);
- (c) Level of Government indicates the level of government maintaining the listed measure(s);
- (d) Measures identifies the laws, regulations, or other measures for which the entry is made. A measure cited in the Measures element:
  - (i) means the measure as amended, continued, or renewed as of the date of entry into force of this Agreement, and
  - (ii) includes any subordinate measure adopted or maintained under the authority of and consistent with the measure; and
- (e) Description sets out commitments, if any, for liberalization on the date of entry into force of the Agreement, and the remaining non-conforming aspects of the existing measures for which the entry is made.

3. In the interpretation of a Schedule entry, all elements of the entry shall be considered. An entry shall be interpreted in light of the relevant provisions of the Chapters against which the entry is made. To the extent that:

- (a) the Measures element is qualified by a liberalization commitment from the Description element, the Measures element as so qualified shall prevail over all other elements; and
- (b) the Measures element is not so qualified, the Measures element shall prevail over all other elements, unless any discrepancy between the Measures element and the other elements considered in their totality is so substantial and material that it would be unreasonable to conclude that the Measures element should prevail, in which case the other elements shall prevail to the extent of that discrepancy.

4. In accordance with Article 10.13 (Non-Conforming Measures) and 11.6 (Non-Conforming Measures), the articles of this Agreement specified in the Obligations Concerned element of an entry do not apply to the law, regulation, or other measure identified in the Measures element of that entry.

5. Where a Party maintains a measure that requires that a service provider be a citizen, permanent resident, or resident of its territory as a condition to the provision of a service in its territory, a Schedule entry for that measure taken with respect to Article

11.2 (National Treatment), 11.3 (Most-Favored-Nation Treatment), or 11.5 (Local Presence) shall operate as a Schedule entry with respect to Article 10.3 (National Treatment), 10.4 (Most-Favored-Nation Treatment), or 10.9 (Performance Requirements) to the extent of that measure.

6. For greater certainty, Article 11.4 (Market Access) refers to non-discriminatory measures.

Level of Government: Central

Measures: Export Trading Company Act of 1982, 15 U.S.C. §§ 4011-4021 15 C.F.R. Part 325

Description: Cross-Border Services

Title III of the Export Trading Company Act of 1982 authorizes the Secretary of Commerce to issue “certificates of review” with respect to export conduct. The Act provides for the issuance of a certificate of review where the Secretary determines, and the Attorney General concurs, that the export conduct specified in an application will not have the anticompetitive effects proscribed by the Act. A certificate of review limits the liability under federal and state antitrust laws in engaging in the export conduct certified. Only a “person” as defined by the Act can apply for a certificate of review. “Person” means “an individual who is a resident of the United States; a partnership that is created under and exists pursuant to the laws of any State or of the United States; a State or local government entity; a corporation, whether organized as a profit or nonprofit corporation, that is created under and exists pursuant to the laws of any State or of the United States; or any association or combination, by contract or other arrangement, between such persons.”

A foreign national or enterprise may receive the protection provided by a certificate of review by becoming a “member” of a qualified applicant. The regulations define “member” to mean “an entity (U.S. or foreign) that is seeking protection under the certificate with the applicant. A member may be a partner in a partnership or a joint venture; a shareholder of a corporation; or a participant in an association, cooperative, or other form of profit or nonprofit organization or relationship, by contract or other arrangement.”

Certain activities of U.S. persons, wherever located, also require a license from BIS. An application for a license must be made by a person in the United States.

In addition, release of controlled technology to a foreign national in the United States is deemed to be an export to the home country of the foreign national and requires the same written authorization from BIS as an export from the territory of the United States.

ANNEX I, Schedule of United States

Obligations Concerned: National Treatment (Article 10.3) Most-Favored-Nation Treatment (Article 10.4)

Level of Government: Central

Measures: Mineral Lands Leasing Act of 1920, 30 U.S.C. Chapter 3A 10 U.S.C. § 7435

Description: Investment

Under the Mineral Lands Leasing Act of 1920, aliens and foreign corporations may not acquire rights-of-way for oil or gas pipelines, or pipelines carrying products refined from oil and gas, across on- shore federal lands or acquire leases or interests in certain minerals on on-shore federal lands, such as coal or oil. Non-U.S. citizens may own a 100 percent interest in a domestic corporation that acquires a right-of-way for oil or gas pipelines across on-shore federal lands, or that acquires a lease to develop mineral resources on on-shore federal lands, unless the foreign investor's home country denies similar or like privileges for the mineral or access in question to U.S. citizens or corporations, as compared with the privileges it accords to its own citizens or corporations or to the citizens or corporations of other countries (30 U.S.C. §§ 181, 185(a)).

Nationalization is not considered to be denial of similar or like privileges.

Foreign citizens, or corporations controlled by them, are restricted from obtaining access to federal leases on Naval Petroleum Reserves if the laws, customs, or regulations of their country deny the privilege of leasing public lands to citizens or corporations of the United States (10 U.S.C. § 7435).

ANNEX I, Schedule of United States

Sector: Air Transportation

Obligations Concerned: National Treatment (Article 10.3) Most-Favored-Nation Treatment (Article 10.4) Senior Management and Boards of Directors (Article 10.10)

Level of Government: Central

Measures: 49 U.S.C. Subtitle VII, Aviation Programs 14 C.F.R. Part 297 (foreign freight forwarders); 14 C.F.R. Part 380, Subpart E (registration of foreign (passenger) charter operators)

Description: Investment

Only air carriers that are “citizens of the United States” may operate aircraft in domestic air service (cabotage) and may provide international scheduled and non-scheduled air service as U.S. air carriers.

U.S. citizens also have blanket authority to engage in indirect air transportation activities (air freight forwarding and passenger charter activities other than as actual operators of the aircraft). In order to conduct such activities, non-U.S. citizens must obtain authority from the Department of Transportation. Applications for such authority may be rejected for reasons relating to the failure of effective reciprocity, or if the Department of Transportation finds that it is in the public interest to do so.

Under 49 U.S.C. § 40102(a)(15), a “citizen of the United States” means:

- (a) an individual who is a U.S. citizen;
- (b) a partnership in which each member is a U.S. citizen; or
- (c) a U.S. corporation of which the president and at least two-thirds of the board of directors and other managing officers are U.S. citizens, and at least 75 percent of the voting interest in the corporation is owned or controlled by U.S. citizens.

ANNEX I, Schedule of United States

In addition, this statutory requirement has historically been interpreted by the Department of Transportation (and the Civil Aeronautics Board before it) to require that an air carrier in fact be under the actual control of U.S. citizens. The Department of Transportation makes this determination on a case-by-case basis, and has provided guidance as to certain lines of demarcation. For example, total foreign equity investment of up to 49 percent (with a maximum of 25 percent being voting stock), by itself, is not construed as indicative of foreign control. See Department of Transportation Order 91-1-41, January 23, 1991.

Under 49 U.S.C. § 40102(a)(15), a “citizen of the United States” means:

## ANNEX III, Schedule of the United States

### Headnotes

1. Commitments in these subsectors under the Agreement are undertaken subject to the limitations and conditions set forth in these headnotes and in Sections A and B below.

2. National treatment commitments in these subsectors are subject to the following limitations:

(a) National treatment with respect to banking will be provided based upon the foreign bank's "home state" in the United States, as that term is defined under the International Banking Act, where that Act is applicable. A domestic bank subsidiary of a foreign firm will have its own "home state," and national treatment will be provided based upon the subsidiary's home state, as determined under applicable law (Foreign banking organizations are generally subject to geographic and other limitations in the United States on a national treatment basis. Where such limitations do not conform to national treatment, they have been listed as non-conforming measures. For purposes of illustration, under this approach, the following situation does not accord national

treatment and would therefore be listed as a non-conforming measure: a foreign bank from a particular home state is accorded less favorable treatment than that accorded to a domestic bank from that state with respect to expansion by branching).

(b) National treatment with respect to insurance financial institutions will be provided according to a non-U.S. insurance financial institution's state of domicile, where applicable, in the United States. State of domicile is defined by individual states, and is generally the state in which an insurer either is incorporated, is organized or maintains its principal office in the United States.

3. To clarify the U.S. commitment with respect to Article 12.4, juridical persons supplying banking or other financial services (excluding insurance) and constituted under the laws of the United States are subject to non-discriminatory limitations on juridical form. (For example, partnerships and sole proprietorships are generally not acceptable juridical forms for depository financial institutions in the United States. This headnote is not itself intended to affect, or otherwise limit, a choice by a financial institution of another Party between branches or subsidiaries).

4. The United States limits its commitments under Article 12.9.1(c) with respect to Article 12.4 (Market Access) in the following manner:

(a) With regard to banking and other financial services (excluding insurance), Article 12.9.1(c) shall apply only to non-conforming measures relating to Article 12.4(a) and not to those non-conforming measures relating to Article 12.4(b); and

(b) With regard to insurance, Article 12.9.1(c) shall not apply to non-conforming measures relating to Article 12.4.
